Quarterly Activity and Data Report

Quarter 3, 2023

SFPD stands for safety with respect for all.

We will:

- Engage in just, transparent, unbiased, and responsive policing.
- Do so in the spirit of dignity and in collaboration with the community.
- Maintain and build trust and respect as the guardian of constitutional and human rights.

Q3 Overview

Data collected during the pandemic and recovery period reflect the unique circumstances of the time. Users should take care when comparing data trends across pandemic and non-pandemic response timeframes.

Data Exploration

Use of Force Data Methodology Update

Data collected under SFPD's Use of Force Policy has changed twice over the past 24 months, resulting in three different criteria for data collection. This exploration seeks to provide context to the changing landscape of use of force data collection, and its implications to reporting and analysis.

Policy Changes Drive Changes to Data Collection

On December 21, 2016, the San Francisco Police Commission passed a significant overhaul of SFPD's Use of Force policy, which went into effect the same day. This policy remained in place until April 12, 2022.

On January 12, 2022, the San Francisco Police Commission passed a revised policy for the use of force, called "[Use of Force & Proper Control of a Person](#)." Ninety days later, on April 12, 2022, SFPD transitioned to this new use of force standard. The April 2022 use of force policy changed multiple definitions within the policy, in most cases broadening definitions and reducing thresholds for reportable uses of force. The April 2022 policy also added new categories of force, and associated definitions for collection.

On November 2, 2022, the San Francisco Police Commission [passed additional revisions to the policy](#), in most cases narrowing definitions and increasing thresholds for reportable uses of force. This revised general order went into effect on December 8, 2022.

Data Exploration

What Policy Changes Were Made?

As noted in DN 22-111 and DGO 5.01, Use of Force and Proper Control of a Person (12/8/22), the following policies changed:

- Revised Threshold for Reportable Force - The threshold for reportable force has been changed so that some common types of low-level physical interactions with a person are not reportable force.
- Revisions to Drawing and Exhibiting vs. Pointing a Firearm - The definitions have been revised to provide clearer guidance on whether the presentation of a firearm is considered a circumstance of Drawing and Exhibiting or Pointing a Firearm. Under the revised definitions, the Low Ready position is reclassified as Drawing and Exhibiting, rather than a circumstance of Pointing a Firearm, and is reported, albeit not as a use of force.
- Revisions to Safeguarding Dignity - This section has revised guidance for when and how officers may direct a subject involuntarily to the ground, and how to follow-up and document the circumstance.
- Supervisory Evaluations and Review of Video -The procedures for the Supervisory Evaluation of circumstances of Use of Force and Drawing and Exhibiting have been modified to reduce administrative burdens on members.

The full text of the current version of DGO 5.01 can be found [on the SFPD website](#).

Technical Notes

The April 2022 policy, continuing through the December 2022 policy, allowed the department to transition to an electronic entry system for use of force data, as opposed to paper forms that were filled out and routed for manual entry into an electronic system. This new functionality in a department-wide system is part of continual improvement that builds on the 2016 USDOJ Recommendation 4.1, which notes “...the department needs to create an electronic use of force reporting system so that data can be captured in real time.”

The use-of-force data system is an extension of SFPD’s crime data warehouse, which is the department’s incident report system of record. The Airport Bureau uses the San Mateo County’s incident report system. In the coming two years, the SFPD will transition to a new records management system and use-of-force reporting system, and the Airport Bureau will use that system as well.

Data Exploration

Dataset Handling and Adjustments

Starting in Q4 of 2022, Use of Force (UoF) reporting consisted of a new UoF dataset, with a new structure, and all new uses, that required the data be assessed for duplication, and whether there was a need for restructure of the data for analysis. Where technical corrections to the collection interface or structure were necessary, they were provided to the SFPD Technology applications team for remediation. The following adjustments were necessary after this review.

Field(s)	Application or Caveat
UoF Subject	Fields unpopulated: Records entered with no UoF Subject were manually reviewed to ensure accuracy. There was only 1 incident without Subject info where a subject was not associated with a use of force. This incident was excluded from the report.
Reason for Drawing/Exhibiting firearm description	Double counting correction: In certain instances, records will contain multiple "Officer Reason for Drawing Firearm Description" fields, which can lead to duplicated uses of force in situations where both a drawn/exhibited entry AND a UoF entry are generated by a single officer on a single subject. Only one of each type of UoF per reason for drawing firearm, per officer, per subject is counted.
Airport Data	Airport Bureau Supervisory Use of Force Evaluation forms require a paper form submitted centrally and entered manually. As of publication, data from the Airport has not been integrated into the rest of the department's use of force data. Reporting will be provided in the quarter it becomes available and is analyzed.

Qualitative Notes

As with any major change to a reporting system, data collected immediately after a significant change to definitions, policy or process should be considered carefully as individuals who enter the data adjust to new requirements.

Reporting and Historical Data

With varying use-of-force standards in place over the time period covered in this report, this report will;

- Continue to present historical use-of-force data, and

Data Exploration

- Trend data and comparisons across years will use only the same Use of Force data standard. This means that this report and all future reports will conform to the following when comparing across time periods:
 - the 2016 use-of-force standard would only be compared to previous itself,
 - the April 2022-December 8, 2022, standard would be compared to itself,
 - all data collected after December 8, 2022, would be compared to subsequent time periods.

Future Analysis

With a settled use-of-force standard and a more robust data set, this report may provide more in-depth analyses as additional use-of-force data becomes available.

Suspects

Suspects Observed or Reported

The suspect information provided includes descriptions provided by members of the public or observed by department members and documented in police incident reports. Individuals are listed as “Other” when race information is not included in the category of “Asian/Pacific Islander”, “Black/African American”, “Hispanic/Latino”, “Native American” or “White.”

Suspects by Race/Ethnicity		July 1, 2023 - September 30, 2023			
DESCRIPTION	Jul	Aug	Sep	Q3 2023 Suspects	% of Total Suspects Q3 2023
Asian/ Pacific Islander	107	133	102	342	3.9%
Black/ African American	1162	1108	1057	3327	38.0%
Hispanic/ Latino	483	513	433	1429	16.3%
Native American	5	5	4	14	0.2%
White	531	578	478	1587	18.1%
Others	742	735	568	2045	23.4%
Total	3,030	3,072	2,642	8,744	100.00%

The total suspects with an identified race/ethnicity observed and reported in Q3 2023 (8,744) increased by 5% from Q3 2022 (8,299). Black/African Americans accounted for approximately 38% of all suspects observed and reported in Q3-2023. Unknown suspects and suspects of unknown race or ethnicity are not included. Review of suspect data indicates 5,087, or 37%, of all suspects (13,831) are either unknown suspect, or race/ethnicity unknown.

Suspects

SUSPECTS BY RACE/ETHNICITY, last 6 quarters

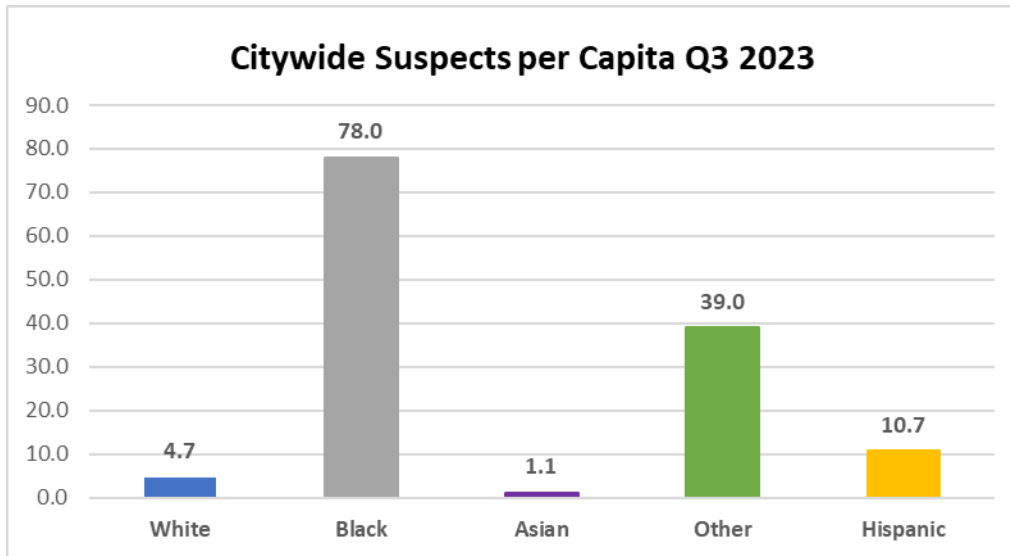

Note: Subject data is extracted from incident reports via the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = "Suspect." Records with Unknown Race/Ethnicity data are not included.

Suspects

Note: Subject data is extracted from incident reports via the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = "Suspect." Records with Unknown Race/Ethnicity data are not included.

Suspects

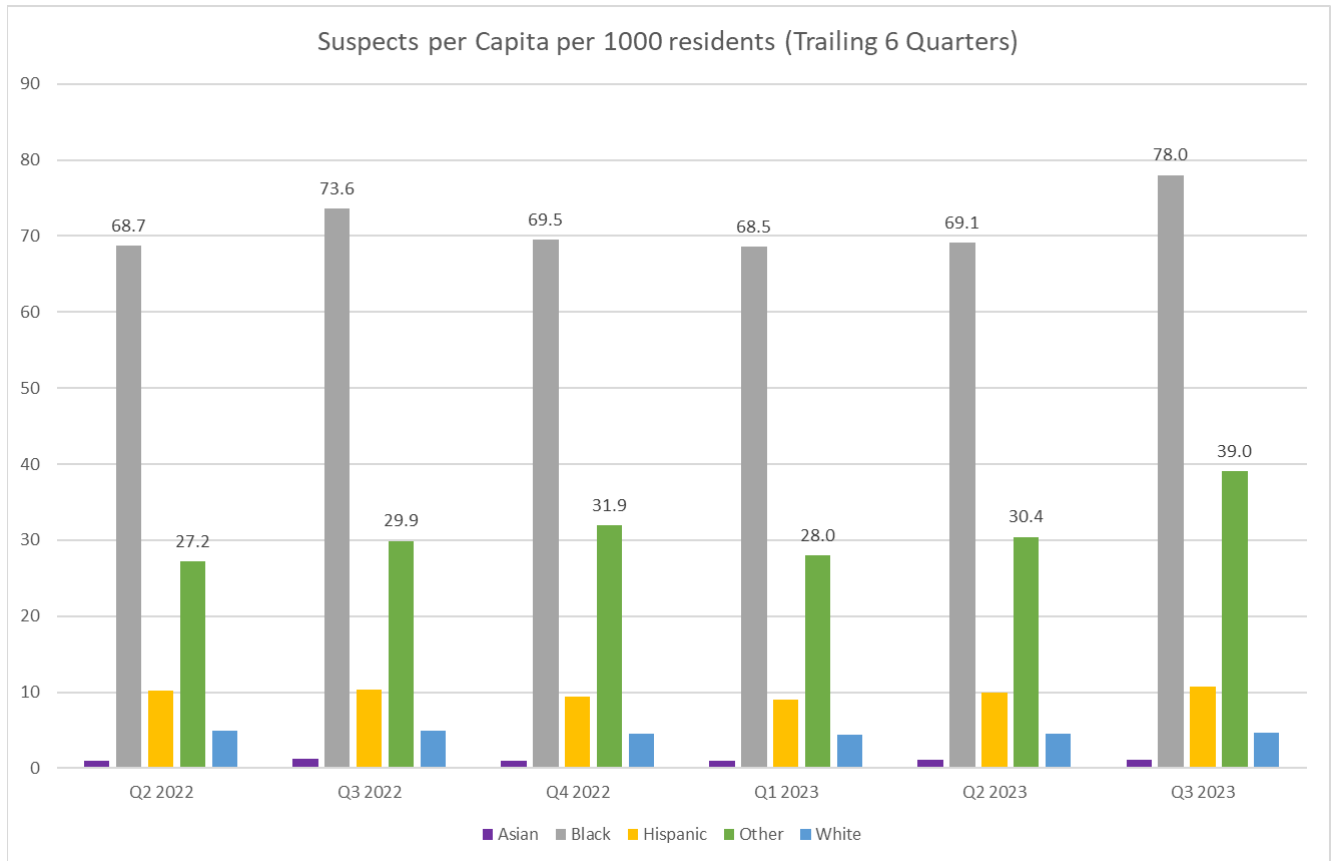

In Quarter 3 of 2023, there were 78 Black/African American individuals listed as suspects per 1000 Black/African American residents of San Francisco, as compared to 4.7 White suspects per 1000 White residents.

Citywide suspect data over the past six quarters shows suspects are listed as Black/African American individuals 13.8-16.7 times more often than White individuals, when comparing to the population per 1000 residents of each.

Suspects

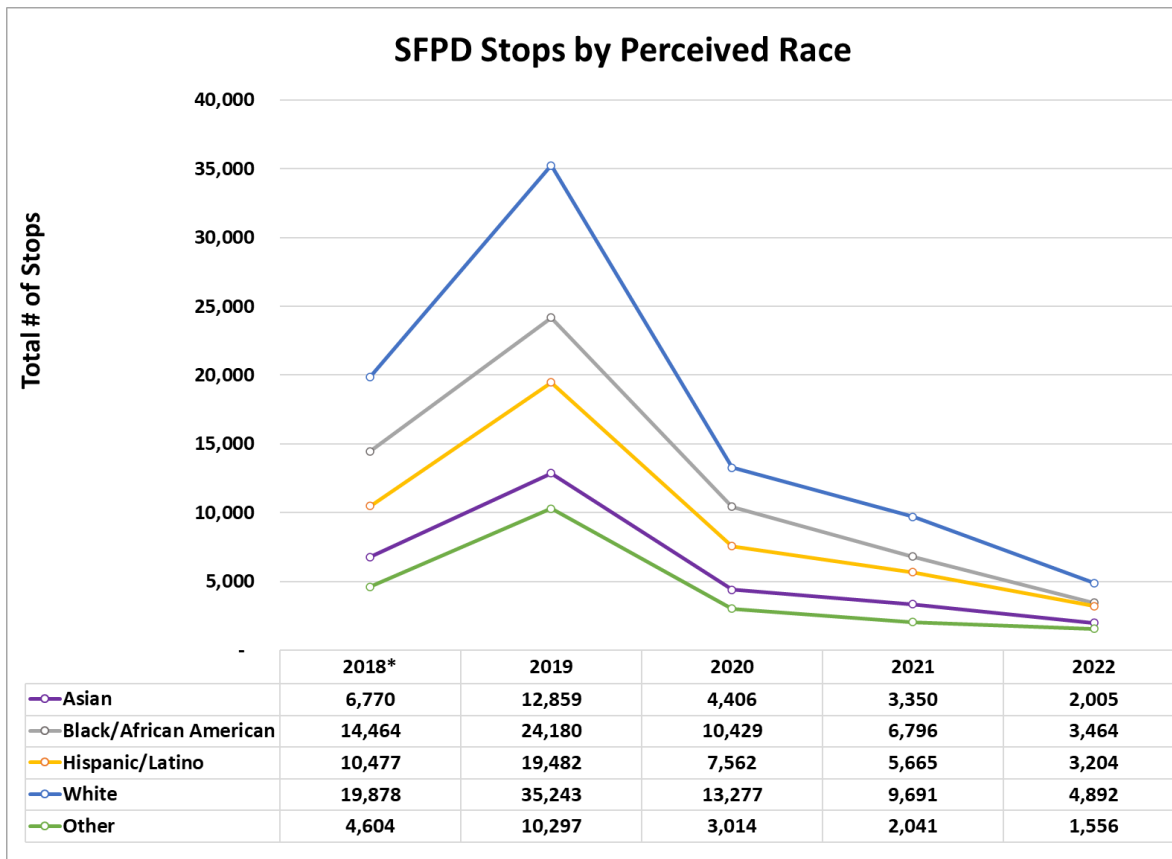

Citywide suspect data shows that from Q2 2022 through Q3 2023, on average Black/African American individuals may be listed as suspects 70.8 times per 1000 Black/African American residents.

Stops and Searches

2018-2022 Total Stops

Starting in 2020, there is a consistent yearly decrease in stops for all individuals across perceived race/ethnicities. Specifically, when comparing the data for 2022 to 2021, there was an overall decrease of 45% across all perceived race/ethnicities.

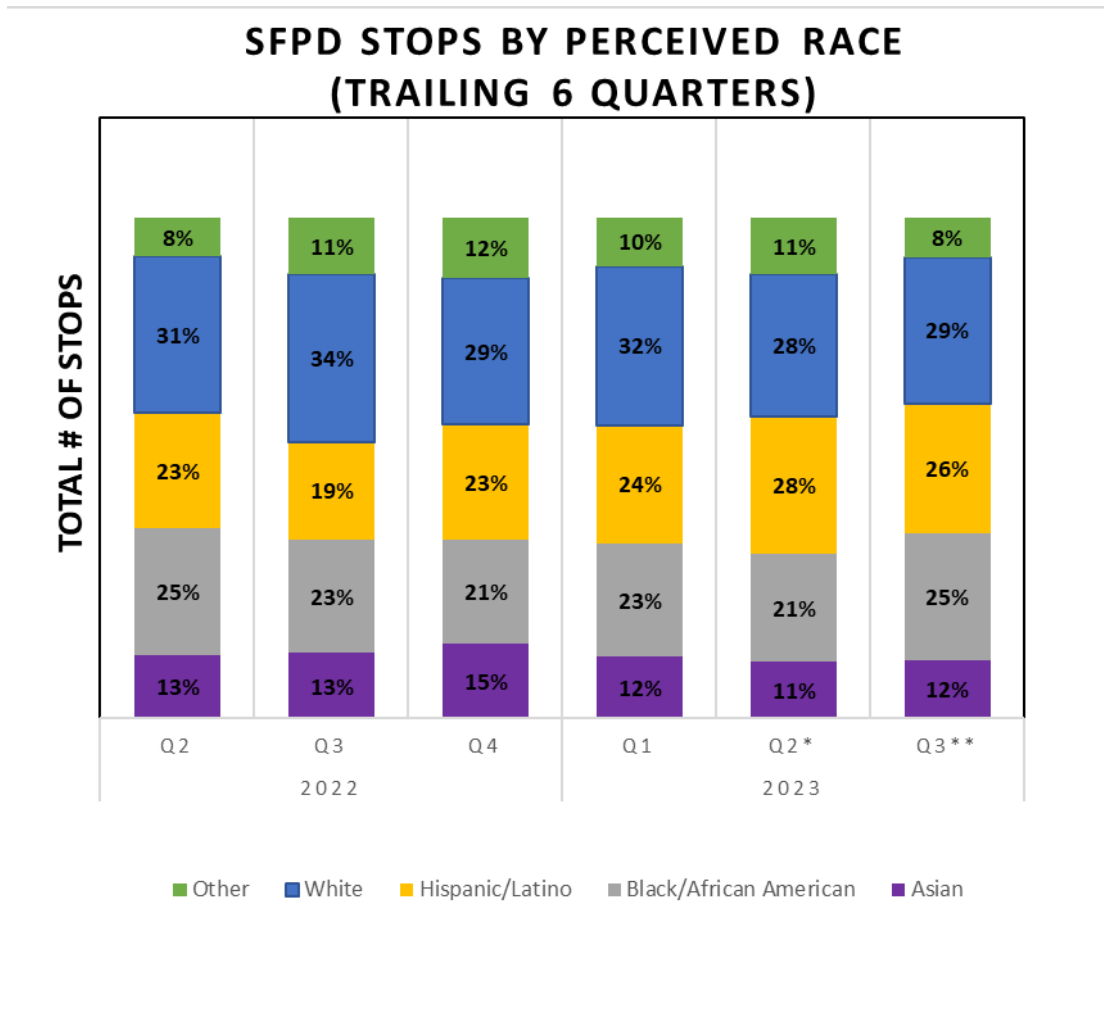

**2018 stats only account for Q3 and Q4 2018. AB953, the legislation requiring data collection, went into effect for SFPD on July 1st, 2018.*

Stops and Searches

Q3 2023 Total Stops:

In Quarter 3 of 2023, 6,564 stops were conducted. Of those stops, 1,149 resulted in searches (17.5%). White individuals accounted for 29% of all stops and 25% of all searches. Black/African American individuals accounted for 25% of stops and 34% of searches.

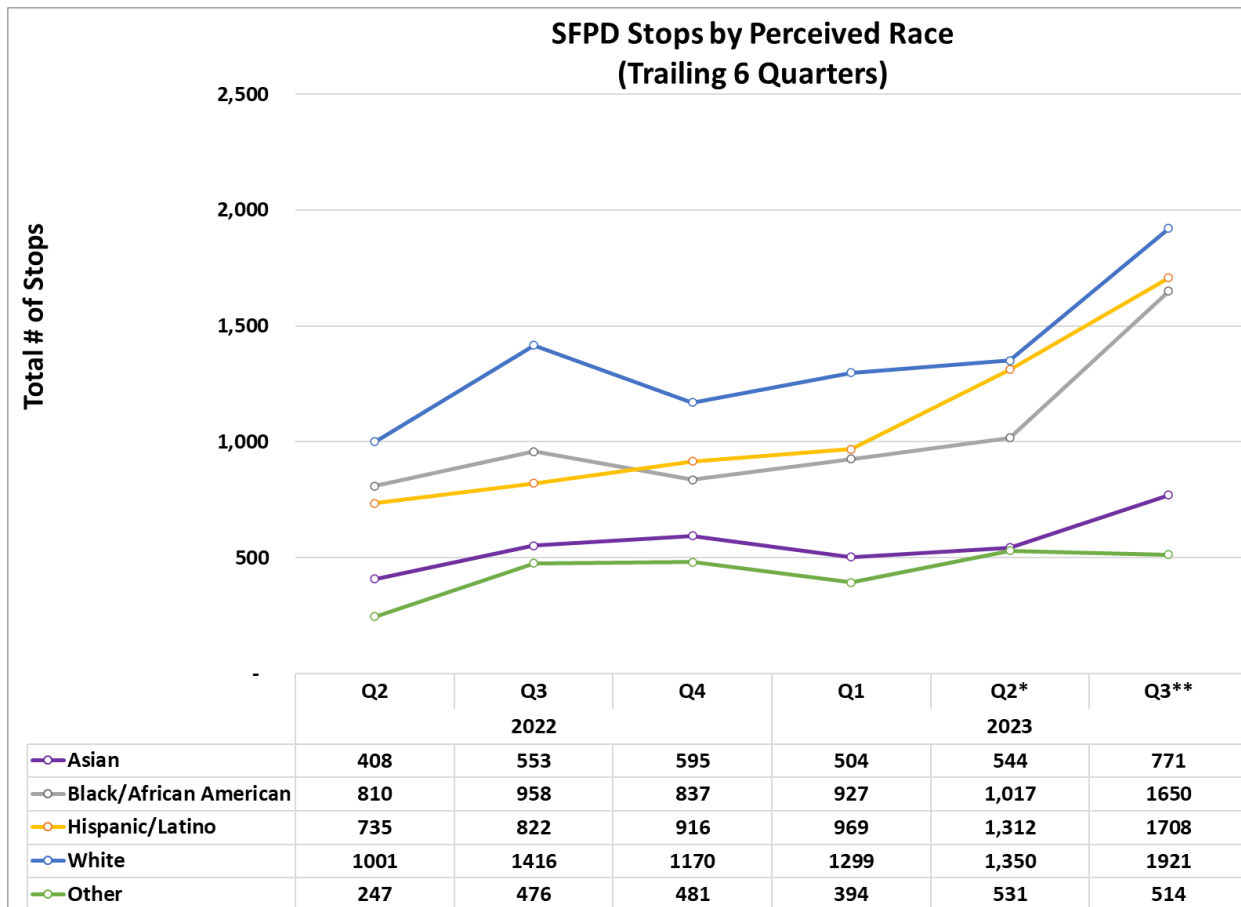

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.*

***Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

Stops and Searches

Working with large datasets requires constant review, and on occasion, intervention to ensure the data is ready for analysis. To further transparency, we note the following adjustments, which were necessary after this review.

Field(s)	Application or Caveat
Setting Date of Stop	Fields unpopulated: There were 12 records with the Setting Date of Stop prior to transitioning into Benchmark Analytics platform, June 28 12:00hrs., entered by SFPD members. These records are being verified for the accuracy of the stop occurrence date, and thus were excluded from the current report.
Contraband/Evidence Discovered	Due to changes in how the department collects stop data, the data pertaining to Contraband/Evidence Discovered required re-reconciliation to allow for analysis. The department will continue to monitor changes to data to ensure accurate collection and presentation.
All Q3 Stops and Search Data	The San Francisco Police Department transitioned to a new Stop Data Collection System, the Benchmark Stop Data System (BSDS), starting June 28, 2023, 1200 hours. The data from June 28th 12:00hrs. through June 30 th 23:59hrs. are included along with the Q3 2023 data. That is, the Q3, 2023 report includes two and a half days of Q2, 2023 data.

**Due to Stop Data transitioning to a different reporting platform, Q2 2022 and Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

Compared to Quarter 3 of 2022, total stops in Q3 of 2023 increased by 72.2% for Black/African American individuals and increased by 35.7% for White individuals. However, the representation, by percentage of all stops, is consistent with prior year averages for African Americans, while slightly higher for Whites and Hispanic/Latino individuals.

Stops and Searches

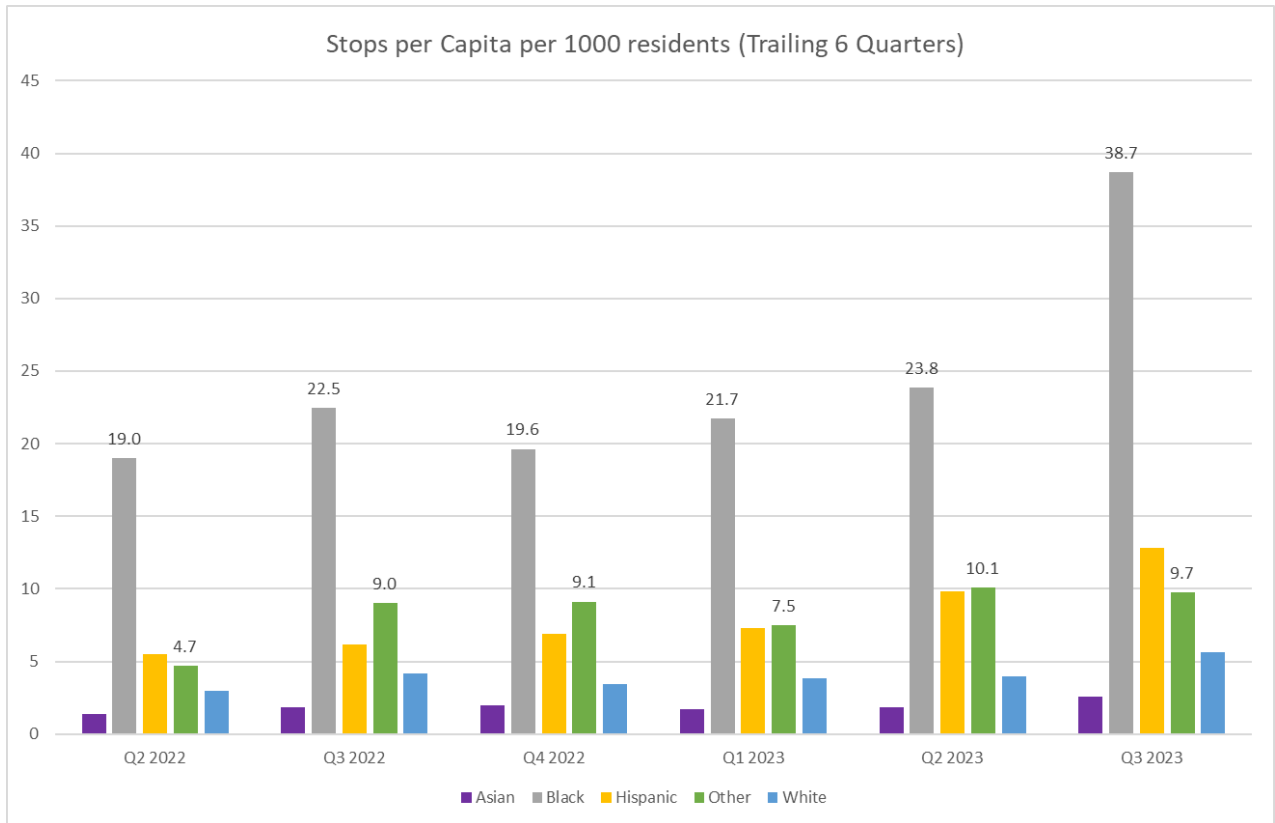

Citywide stops data shows in Quarter 3 of 2023, 38.7 Black individuals, per 1000 Black/African American residents of San Francisco may be stopped, as compared to 5.7 White individuals per every 1000 White residents.

Citywide vehicle and pedestrian stop data shows that since Quarter 2 of 2022, Black/African American individuals are stopped 5 to 6 times more often than White individuals.

Stops and Searches

Citywide vehicle and pedestrian stop data show that from Quarter 2 2022 through Quarter 3 2023, on average Black/African American individuals may be stopped 24.0 times per 1000 Black/African American residents.

Stops and Searches

Searches By Level of Discretion

The department classifies the various types of searches into three categories:

1. **Discretionary searches,**
2. **Administrative searches, and**
3. **Other searches.**

Discretionary searches require an officer to ask and receive consent to search. In such cases, officers have the most flexibility in determining who to search and include only those occurrences where consent is the only basis provided. Administrative searches include those that occur because of a search warrant, arrest, or vehicle inventory. Other searches have a variable range of discretion and include reasons such as officer safety, suspected weapons, visible contraband, evidence of crime, etc.

Discretionary Searches	Administrative Searches	Other Searches
*Consent Given	*Incident to Arrest	*Officer Safety/ Safety of Others
	*Search Warrant	*Suspected Weapons
	*Vehicle Inventory	*Visible Contraband
		*Odor of Contraband
		*Canine Detection
		*Evidence of Crime
		*Emergency
		*Suspected Violation of School Policy
		*Condition of Parole/ Probation/ PRCS/ Mandatory Supervision

Current Quarter vs 1 year ago, % Change by Race/Ethnicity

Perceived Race / Ethnicity	STOPS			SEARCHES		
	Q3-2022 (n=4,225)	Q3-2023 (n=6,564)	%Δ from Q3-2022	Q3-2022 (n=1,020)	Q3-2023 (n=1,149)	%Δ from Q3-2022
Asian	13%	12%	-1.3%	6%	7%	1%
Black/ African American	23%	25%	2.5%	36%	34%	-2%
Hispanic/ Latino	19%	26%	6.6%	22%	28%	6%
White	34%	29%	-4.2%	29%	25%	-3%
Other	11%	8%	-3.4%	7%	5%	-1%

Note: “Perceived” identifiers are used to categorize demographic information specific to Stop Data Collection System

Stops and Searches

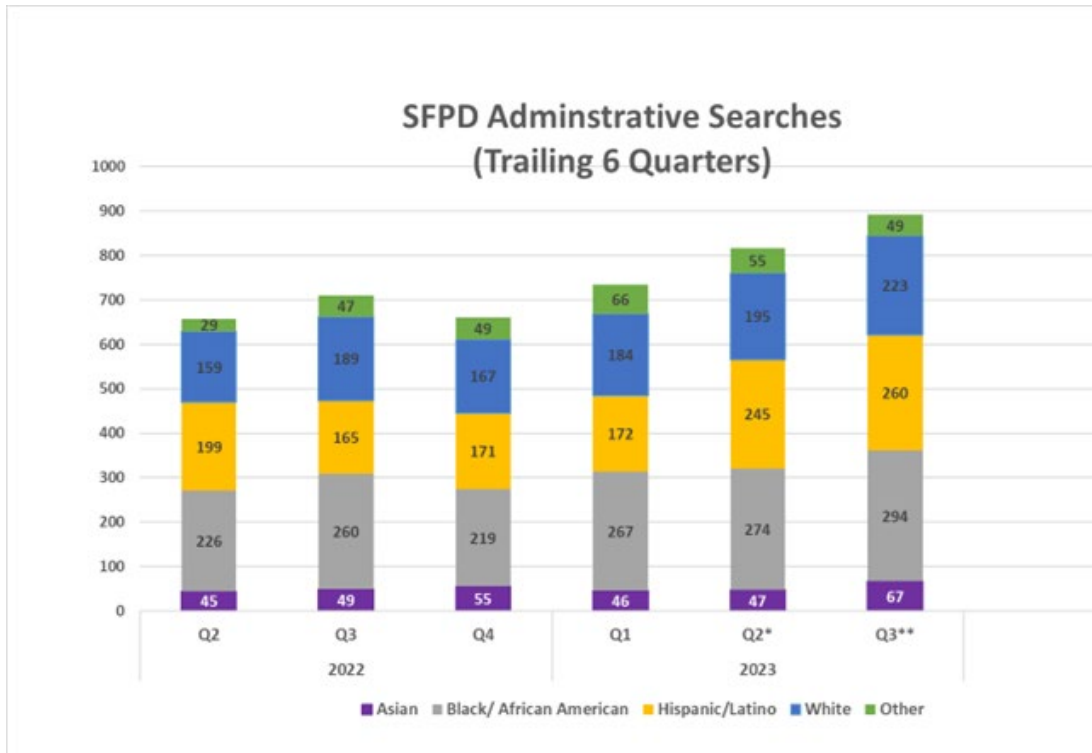

The 1,149 total searches conducted in Q3-2023 were categorized into 3 search categories listed below. When multiple bases for search are present during a stop, officers are able to select multiple bases for search. In these cases, one search is counted in each basis. As a result, a stop may appear in two or all three search categories listed below. From 1,149 total searches, there were 1,470 bases for search selected, which fell into 3 search categories, Discretionary, Administrative, and Other Searches.

Total Basis of Search	Total	% Total
Consent given	45	3%
Officer safety/safety of others	226	15%
Search warrant	32	2%
Condition of parole/probation/PRCS/mandatory supervision	70	5%
Suspected weapons	92	6%
Visible contraband	28	2%
Odor of contraband	3	0%
Canine Detection	0	0%
Evidence of crime	81	6%
Incident to arrest	849	58%
Exigent circumstances/emergency	2	0%
Vehicle inventory	42	3%
Suspected violation of school policy	0	0%
*Distinct Count of Searches	1,149	
Total Count of Basis for Search	1,470	

*There may be more than one basis for search

Type of Search	Distinct Count	% Total
Discretionary (Consent Given) Searches	45	3.39%
Administrative Searches	893	67.19%
Other Searches	391	29.42%
*Distinct Count of Searches	1,329	100%

Stops and Searches

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

Compared to Q3-2022, Administrative Searches for individuals of "Other" race in Q2 of 2023 have increased by 4%, Black/African American individuals increased by 13%, White individuals increased 18%, Asian individuals increased by 37%, and Hispanic/Latino individuals increased by 58%.

Stops and Searches

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

Compared to Q3-2022, Discretionary Searches for all individuals mostly decreased in Q3-2023, where Asian individuals did not see a change, Black/African American individuals saw a 28% decrease, Hispanic/Latino individuals saw a 25% decrease, White individuals saw a 56% decrease, and Other individuals saw a 33% decrease.

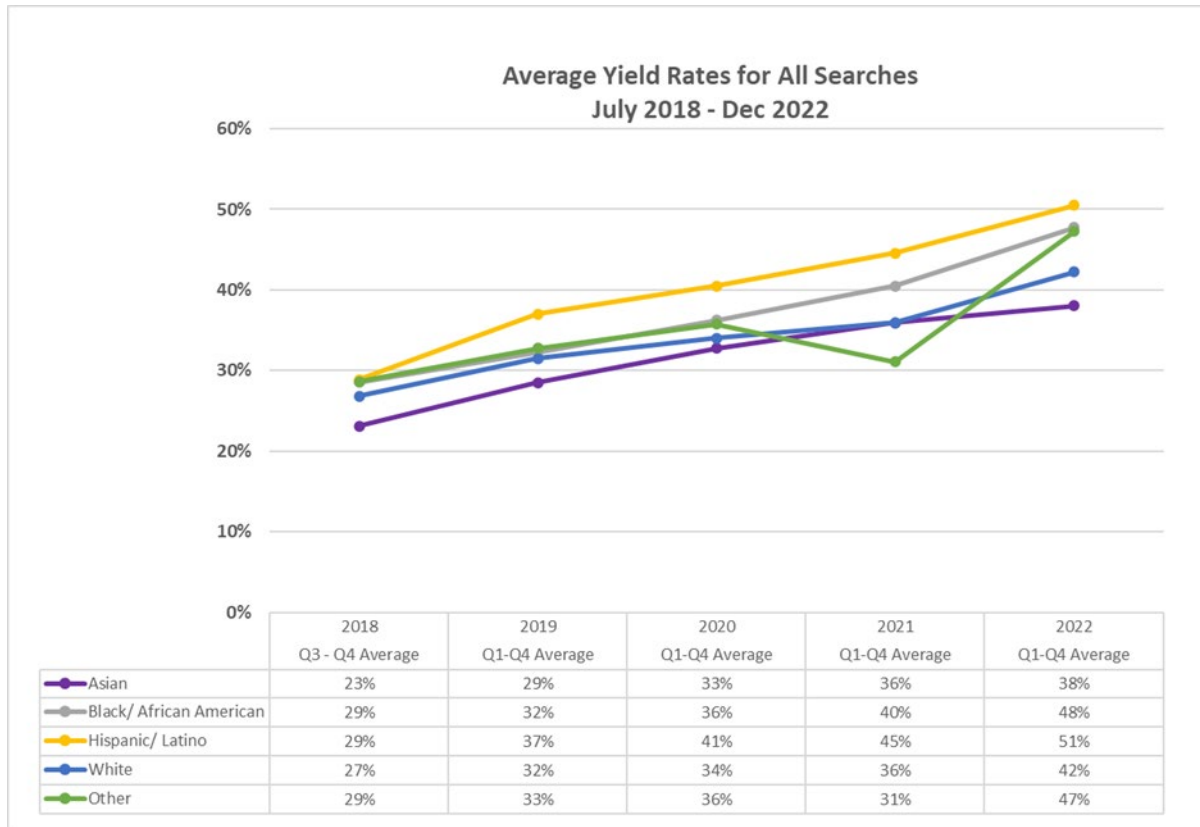

Stops and Searches

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

Compared to Q3-2022, Asian individuals saw a 14% decrease, Black/African American individuals saw a 24% decrease, White individuals saw a 32% decrease, and Other individuals saw a 28% decrease, whereas Hispanic/Latino individuals did not see a change.

Stops and Searches

Search yield rates have increased year over year since mid-2018, suggesting an increase in the use of objective factors. Objective factors are clearly defined and articulable behaviors an officer can observe to inform the decision to conduct a search. Including objective factors in training and/or policies is reflective of one of SFPD’s proposed solutions for reducing the influence of bias in decision-making surrounding stops and searches.

Stops and Searches

Search Yield Rates

The average yield rate for all searches was 42% in Quarter 3 of 2023. The yield rate was 27% for Discretionary (Consent only) searches, 45% for Administrative (Supervision) searches, and 45% for Other searches.

As noted in the Phase III SFPD Collaborative Reform Initiative report:

“The assumption among researchers is that if the rate of discovering contraband during searches of a particular identity group is low, then those people are “objectively less suspicious and may be searched, at least in part, because of their perceived identity.”

[HTTPS://OAG.CA.GOV/SITES/ALL/FILES/AGWEB/PDFS/RIPA/RIPA-BOARD-REPORT-2021.PDF](https://oag.ca.gov/sites/all/files/agweb/pdfs/ripa/ripa-board-report-2021.pdf) AT PAGE 48.

In turn, if the hit/yield rate for a particular identity group increases, that means that officers are using more objective factors – and not a person’s perceived identity – to make the decision to search a person. In short, higher hit/yield rates suggest that officers are less likely making a biased decision to search, but are rather using objective factors to inform their decision-making.¹

¹ SFPD Collaborative Reform Initiative Phase III – Final Assessment Report, Hillard Heintze, 2022, p 6, footnote 11.

Stops and Searches

Yield Rates for All Searches
(Trailing 6 Quarters)

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

As compared to Q3 2022, the yield rate for all searches slightly decreased in Quarter 3 of 2023 for all demographic groups besides White individuals which saw an increase of 1%.

Stops and Searches

Citywide search data shows in Quarter 3 of 2023, per 1000 Black/African American residents of San Francisco, roughly nine searches of Black/African American individuals may occur. For every 1000 White residents, less than 1 search of a white individual per 1000 white residents occurs.

Citywide search data shows that from Q2 2022 through Q3 2023, Black/African American individuals on average may be searched 8 times per 1000 Black/African American residents.

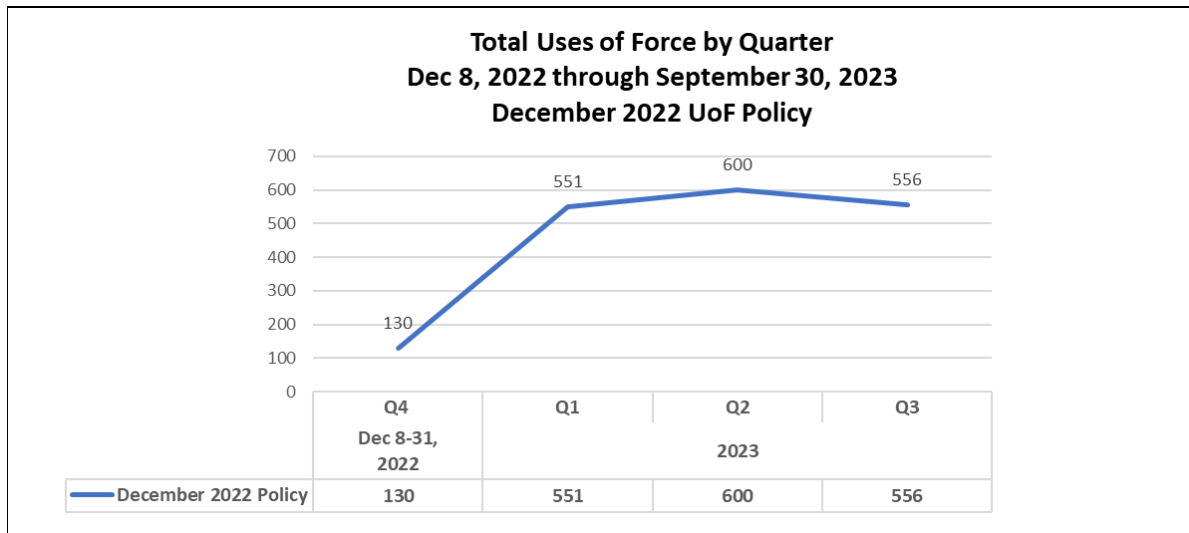

Stops and Searches

Since Quarter 2 of 2022, individuals searched are listed as Black/African American individuals 8.3-11.0 times more often than white individuals, when comparing to the population per 1000 residents of each.

Use of Force

Use of Force – Current Use of Force Policy

During Quarter 3 of 2023, the department responded to 152,856 total calls for service. Department officers were assaulted 75 times and force was used in 273 incidents which represented 0.18% of all calls for service. Of those 273 incidents, force was used 556 times by 310 officers against 315 individuals.

There were two Officer Involved Shooting incidents during Quarter 3 of 2023 resulting in injury or death.

Use of Force

Race/Ethnicity of Individuals Subject to a Use of Force, Q3 2023

Race/Ethnicity	Jul-23	Aug-23	Sep-23
Asian	5.8%	3.0%	8.8%
Black/African American	35.1%	30.3%	44.1%
Hispanic/Latino	18.8%	39.9%	25.0%
White	32.5%	21.7%	18.6%
Other	7.8%	5.1%	3.4%

Per the most recent 2022 December Use of Force policy, during Q3 of 2023, White individuals represented 24% of total number of individuals subject to uses of force. This rate is 37% for Black/African American individuals, 25% for Hispanic/Latino individuals, and 6% for Asian individuals.

Use of Force

Types Of Force Used

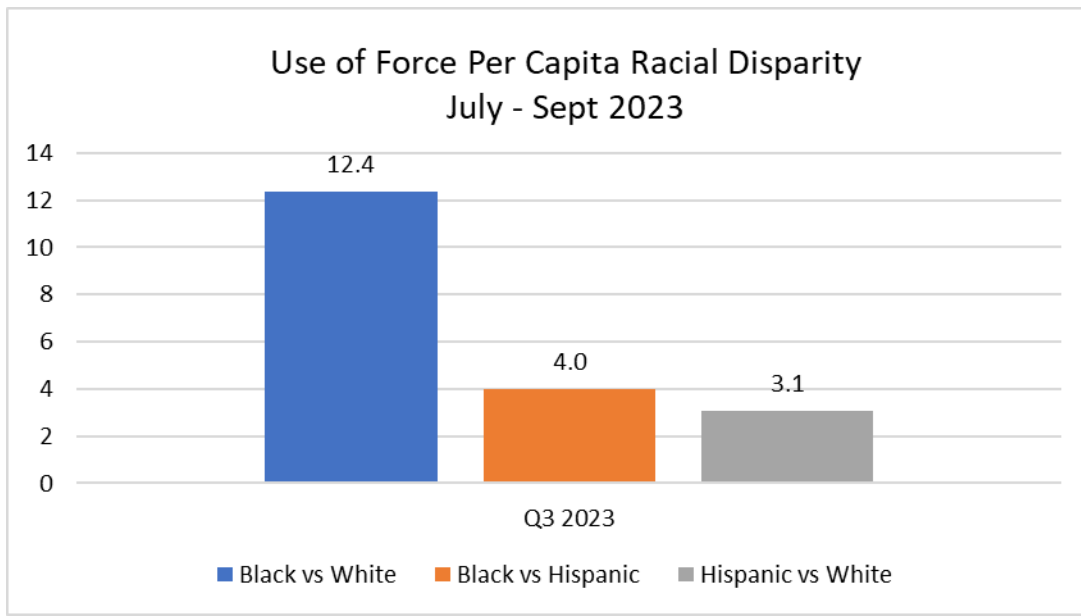

Under the December 2022 use of force policy, Physical Control Hold/Take Down and Firearm Pointing were the top two types of force used and accounted for 85% of total Uses of Force during Q3 2023.

Use of Force by Type of Force Description December 2022 UoF Policy Standard	
Type of Force Description	Q3 2023
Chemical Agent	15
ERIW	5
ERIW 40mm	15
Firearm OIS	2
Firearm Pointing	227
Impact Weapon	3
Other	12
Physical Control Hold/Take Down	244
Strike by Obj. (personal body weapon)/Fist	29
Vehicle Intervention	4
Grand Total	556

Use of Force

Citywide Use of Force data shows in Quarter 3 of 2023, 4.8 Black individuals per 1000 Black/African American residents of San Francisco may be subject to a use of force, as compared to .4 per 1000 White residents.

Under the current Use of Force policy, in Q3 2023, individuals receiving force are listed as Black/African American individuals 12.4 times more often than White individuals, when comparing to the population per 1000 residents of each.

USE OF FORCE RESULTING IN DEATH

There were two Use of Force incidents that resulted in death during Quarter 3 of 2023.

First Incident - SAN FRANCISCO (July 26, 2023):

At approximately 2:53 P.M. SFPD Officers who were working in plain clothes were arresting a male subject at Catalina Street and Fairfax Avenue. During the arrest a second male, unrelated to the arrest, approached and engaged these officers. Two uniformed officers arrived in a marked patrol vehicle and contacted the second male, who was armed with what appeared to be a firearm. During the encounter with uniformed officers, an officer involved shooting occurred. The male who was armed was struck by gunfire. Officers rendered aid and summoned medics to the scene. The male was transported by medics to the hospital with life-threatening injuries.

Despite lifesaving efforts of emergency responders and medical staff, the male was declared deceased at the hospital.

Second Incident - SAN FRANCISCO (August 28, 2023):

At approximately 10:22 P.M., uniformed SFPD officers responded to the 300 block of Jones Street regarding a person armed with a knife and threatening people. Officers arrived on scene and made contact with the subject. During the encounter an officer involved shooting occurred. The male who was armed was struck by gunfire. Officers rendered aid and summoned paramedics to the scene, who had been staged nearby. The male was transported to the hospital with life-threatening injuries.

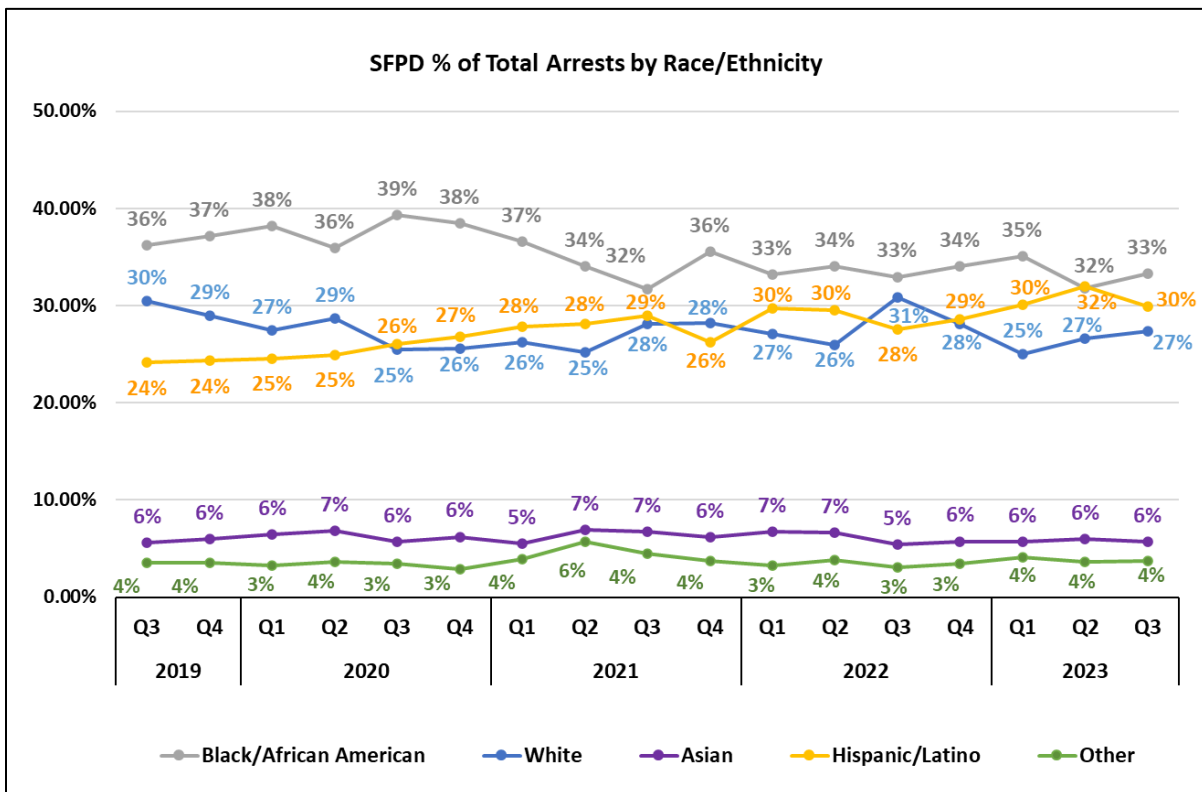

Despite lifesaving efforts of emergency responders and medical staff, the male was declared deceased at the hospital.

Arrests

Total Arrests by Quarter – 2019-2023

There were 4,197 arrests during Quarter 3 of 2023, almost a 9% increase from Q3-2022 (3,859). Black/African American individuals accounted for 33% of all arrests.²

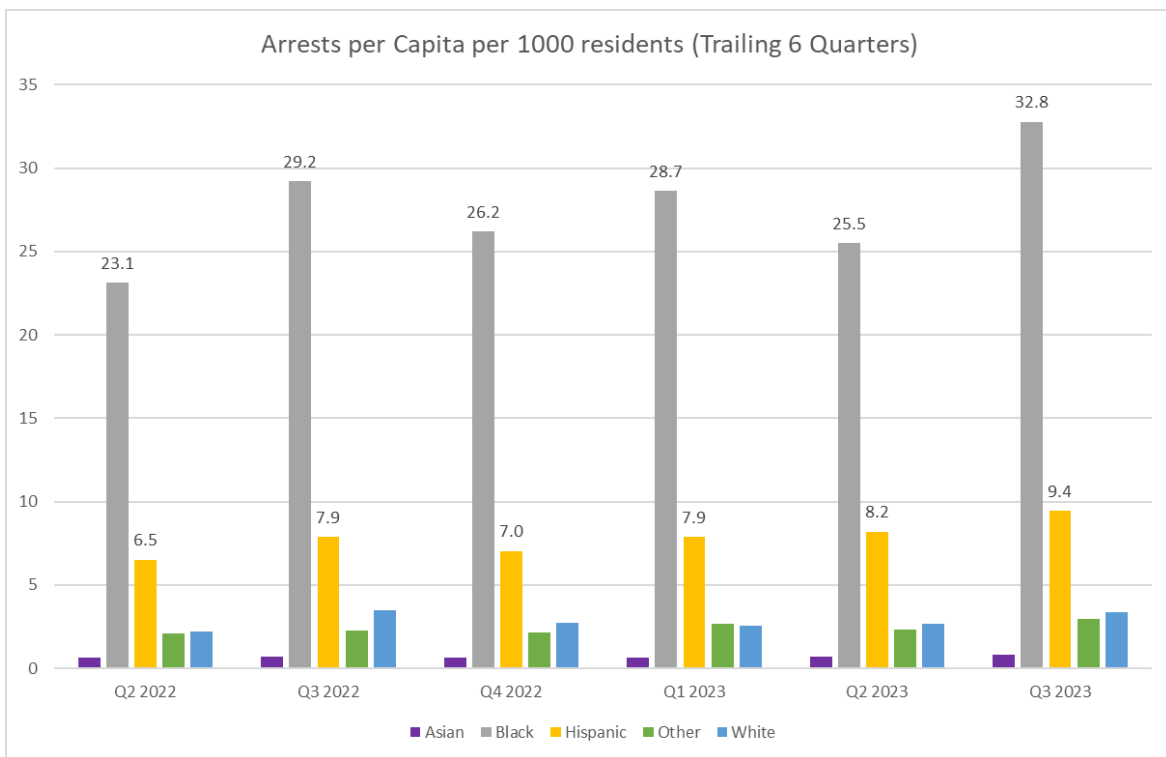

² Arrests made by Department members at San Francisco International Airport are reported in San Mateo County data and are not included in these data.

Arrests

Percentage of Total Arrests			
Race/ Ethnicity	Q3-2022 (n=3,859)	Q3-2023 (n=4,197)	%Δ from 2022
Asian	5%	6%	1%
Black/ African American	33%	33%	0%
Hispanic/Latino	28%	30%	2%
White	31%	27%	-4%
Unknown	3%	4%	1%

Overall arrests of White individuals decreased by approximately 4% in Quarter 3 of 2023 compared to Quarter 3 of 2022.

**Detailed data regarding age groups and gender can be found later in this report.*

Citywide arrest data shows that from Quarter 2 of 2022 through Quarter 3 of 2023, on average 27.5 Black/African American individuals may be arrested per 1000 Black/African American residents.

Arrests

Arrests By District

It is important to note that arrests made by department members at San Francisco International Airport are investigated by and reported as part of San Mateo County data and are not included in the City's totals.

The "Outside SF/Other" category includes arrests made by department members outside of the City and County of San Francisco by SFPD as well as some arrests made inside the City and County of San Francisco by agencies other than SFPD that are captured by our Incident Reporting system.

Arrests made by department members within the City and County of San Francisco jurisdiction increased in Quarter 3 of 2023 compared to Quarter 3 of 2022 by 9%.

Arrests By District, Q3 2022 vs Q3 2023			
District	Q3 2022	Q3 2023	% change
Co. A - Central	467	398	-15%
Co. B - Southern	540	677	25%
Co. C - Bayview	346	288	-17%
Co. D - Mission	463	646	40%
Co. E - Northern	379	430	13%
Co. F - Park	78	123	58%
Co. G - Richmond	141	124	-12%
Co. H - Ingleside	236	262	11%
Co. I - Taraval	150	162	8%
Co. J - Tenderloin	993	1,051	6%
Outside SF	66	36	-45%
Total	3,859	4,197	9%

Bias-Related Complaints

DEPARTMENT OF POLICE ACCOUNTABILITY

The department is required to obtain information from the Department of Police Accountability (DPA) regarding the total number of complaints received during the reporting period that it characterizes as allegations of bias based on race or ethnicity, gender, or gender identity. The department also is required to include in its report the total number of complaints DPA closed during the reporting period that were characterized as allegations of bias based on race or ethnicity, gender, or gender identity, as well as the total number of each type of disposition for such complaints.

Cases Received in Q3-2023

Type of Case Received	# of Cases
Racial Bias	0
Gender Bias	0
Transphobic Bias	0
Both Racial and Gender Bias	0
TOTAL	0

DPA received 199 total cases for the quarter.

2 Officer(s) were named for allegations of racial or gender bias.

Total Cases received in 2023 involving Racial or Gender Bias: 6 Case(s)

During Quarter 3 of 2023, DPA completed 1 complaint investigation case in which there was an allegation of racial or gender bias. There were no sustained allegations of racial or gender bias in Quarter 3 of 2023.

Q3-2023 Case Closures & Dispositions

Population Benchmark Analysis, Per Capita Race/Ethnicity

The San Francisco Police Department received requests from various key community stakeholders to present a per capita population benchmark analysis. This analysis captures a particular race or ethnicity, as compared to their representation in a similar population of 1000 individuals. We adjust for population in our analysis by the race/ethnic demographic groups in our data. This analysis compares this report's quarter and all quarters with data available. A disparity analysis- the contrast between different race/ethnicity groups against each other- is also considered to generate a numerical comparison. This analysis may surface potential racial disparities when comparing policing activities with the various demographic groups. In all cases, a population benchmark analysis that presents per capita results will have challenges, as noted below.

What is a benchmark?

A benchmark is a common frame of reference, created by comparing at least two sets of data to each other, to consider trends and context presented in the data. In this analysis, we compare citywide population demographics against pre and post stop activities by SFPD, and then convert those contact ratios into a Per Capita (or by 1000) number.

Population Benchmark Weaknesses

As noted by the California Department of Justice in their RIPA 2021 report, "An assumption of this type of comparison is that the distribution of who is stopped would be similar to who resides within a comparable geographic region. However, this is not always the case, as people may travel a considerable distance from where they live for several reasons (e.g., to go to work, visit family).³" The supposition that the comparison of police data should reflect the residential population makeup makes several assumptions that are not addressed in this analysis, and may result in inaccurate results of the comparative disparities noted in the analysis.

Comparing against residential population does not account for individuals who travel outside their home residential district or zip code in the residential population count, potentially causing over or under representation in the data⁴.

It should be noted that SFPD categorizes residential population demographics differently than other agencies. For instance, the Census American Community Survey (ACS) and

³ [2021 RIPA Board Report - Racial and Identity Profiling Advisory \(RIPA\) Board \(ca.gov\)](#) Pp46

⁴ <https://oag.ca.gov/sites/all/files/agweb/pdfs/ripa/ripa-board-report-2020.pdf> pp26-27

Q3 Quantitative Analysis

Per Capita Population Benchmark

Racial and Identity Profiling Act (RIPA) have different data standards. When the RIPA board data is used, it is perceived demographic data being compared to self-reported demographics in the residential population data.

Further, “Population counts generally overestimate bias in stop decisions, as differences in poverty, education, and labor market opportunities vary across identity groups in the U.S. Because education and employment affect criminal behavior, disparities along these dimensions will lead to disparities in who commits crime. In this way, pre-existing social disparities will tend to make the fraction of Black or Latinx people in the population smaller than the fraction of Black or Latinx people who are potentially subject to being stopped, overestimating any bias in a stop decision.⁵”

Despite these known limitations in working with population data within a benchmark, it does not mean analysis using a population benchmark is invalid. These limitations should, however, be kept in mind when interpreting results of any population benchmark. Results of population benchmarks can inform future analysis’ and provide insight into potential disparities, trends, and differences between geographic areas, such as SFPD districts.

Population Benchmark Strengths

A key benefit in using a population data benchmark is the intuitive ease of understanding as compared to other benchmarks. Other benchmarking techniques can utilize univariate or multivariate statistical analysis that can be hard to explain succinctly and can quickly become overwhelming.

What did SFPD do?

SFPD took a citywide demographic dataset from the 2016-2021 American Community Survey (ACS), administered by the US Census Bureau. Starting in the first quarter of 2023, all datasets are calculated against corresponding population demographics, which are based on 5-year ACS estimates (2016 ACS for 2016 dataset, 2017 ACS for 2017 dataset, etc.), except for 2020 dataset which is based on 2020 Census. 2021 data onward uses 2021 ACS population data. 2022 ACS will be released in December 2023.

Race/Ethnicity groupings are then consolidated to match current department systems, with Asian and Native Hawaiian/Pacific Islander groups combined into the Asian group, and two or more races, some other race alone and American Indian/Alaska Native

⁵ <https://www.capolicylab.org/wp-content/uploads/2020/10/RIPA-in-the-LAPD-Summary-Report.pdf> pp12-13

Q3 Quantitative Analysis

Per Capita Population Benchmark

combined into the Other grouping. The demographic representation in various data and generated per capita (per 1000 residents) along with a table and graph for each datapoint. Data used for comparison to the population benchmark and per capita calculation was gathered during the covered period of this report.

All available data was used for the historical per capita analysis, reaching back to either 2016 or the second half of 2018, depending on the availability of data. All available prior year data was compared with overall trends per capita against types of SFPD activity, by demographic group. In cases where policy standards have changed over time (namely with Use of Force policy), comparisons are done within policy spaces. That is, use of force data from one policy is only compared against itself. Finally, we conducted a disparity analysis by comparing per capita demographic data for certain groups against each other to evaluate the size of a disparity as compared to a disparity baseline.

Specific Methodology Notes

In addition to the general challenges of a population benchmark, noted above, SFPD would like to highlight the additional methodological notes for clarity and context.

- Census⁶/ACS data considers “Hispanic” as an ethnicity, while the suspect, stops, searches, uses of force, and arrest data considers “Hispanic” as a race.
- Suspects per District: Crime Data Warehouse was searched for persons categorized as “Suspects” on police incident reports. Suspect demographic information may be developed from calls for service, or it may be developed at a subsequent point during investigation of an incident. All police incident reports (initial or supplemental) having a data value are included. Suspects with unknown race values are not included. While some suspects are subsequently arrested, and also listed as “booked” or “cited” on police incident reports, this category is not intended to include arrestees.
- Stops information provided reflects entries into the Benchmark Stop Data System, a data collection tool provided to comply with AB953 and the RIPA Board’s data collection requirements.
- Searches information provided reflects entries into Benchmark, with the same caveats as above.

⁶ SFPD discovered a calculation error in Q4, 2021 when tabulating census data. The error and corrected tables are included in the Q4, 2021 QADR.

Quantitative Analysis Per Capita Population Benchmark

- Uses of Force information provided reflects entries into the department use-of-force Database and account for a distinct count of uses of force broken down by District and race of subject force was used against.
- Arrests count persons “booked” and “cited” where an incident report (initial or supplemental) had a date value.

Historical Per Capita Interactions

Using the previously mentioned methodologies, the following trends are noted. Per capita interactions for the current and more recent quarters can be found in the type of interactions section within the QADR.

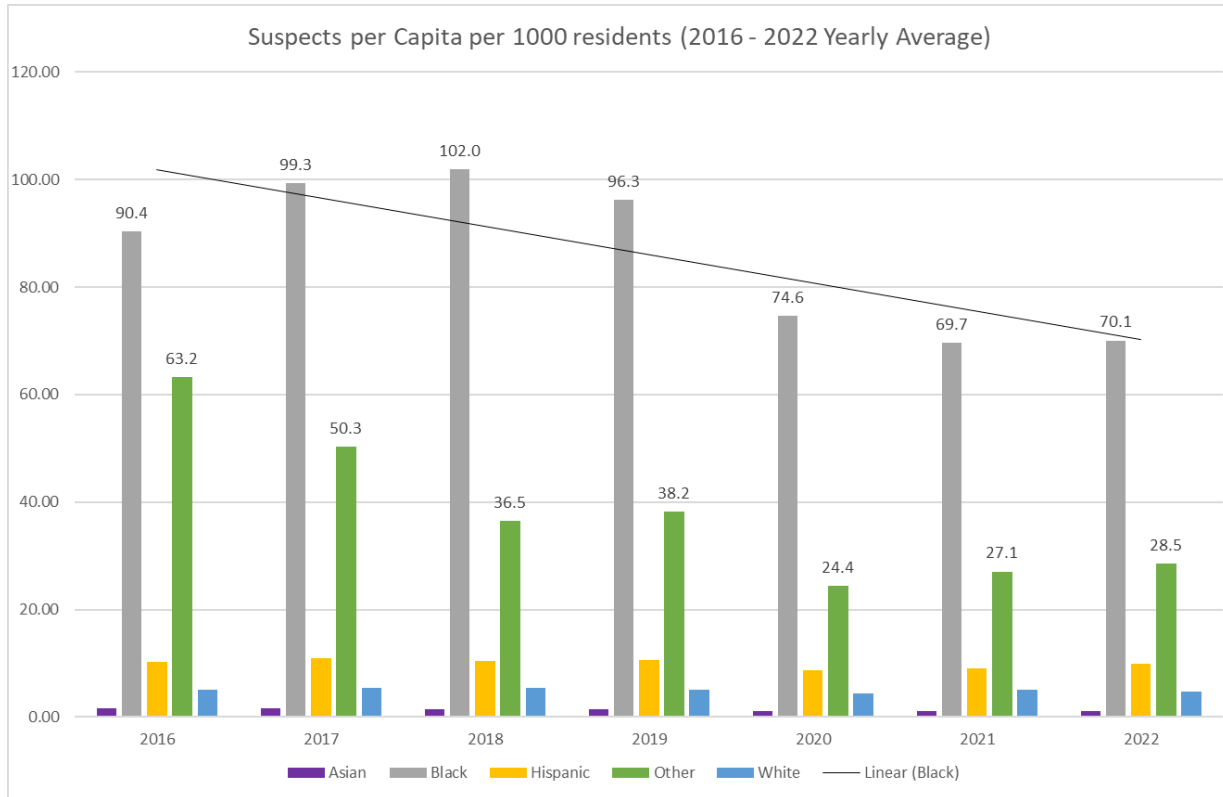

Per capita analysis for Use of Force data is presented per use of force standard to allow for an apples-to-apples comparison within each standard.

Q3 Quantitative Analysis

Per Capita Population Benchmark

Annual Per Capita Interactions by Race

Analysis was conducted using the above methodology across all quarters from which we have useful data. In this case, starting in Q1, 2016 for Arrests, Uses of Force and Suspect data, and 2018 for Stops and Searches. We found the following trends. Note: Data labels and trend lines for the most impacted group(s) are included for context and clarity.

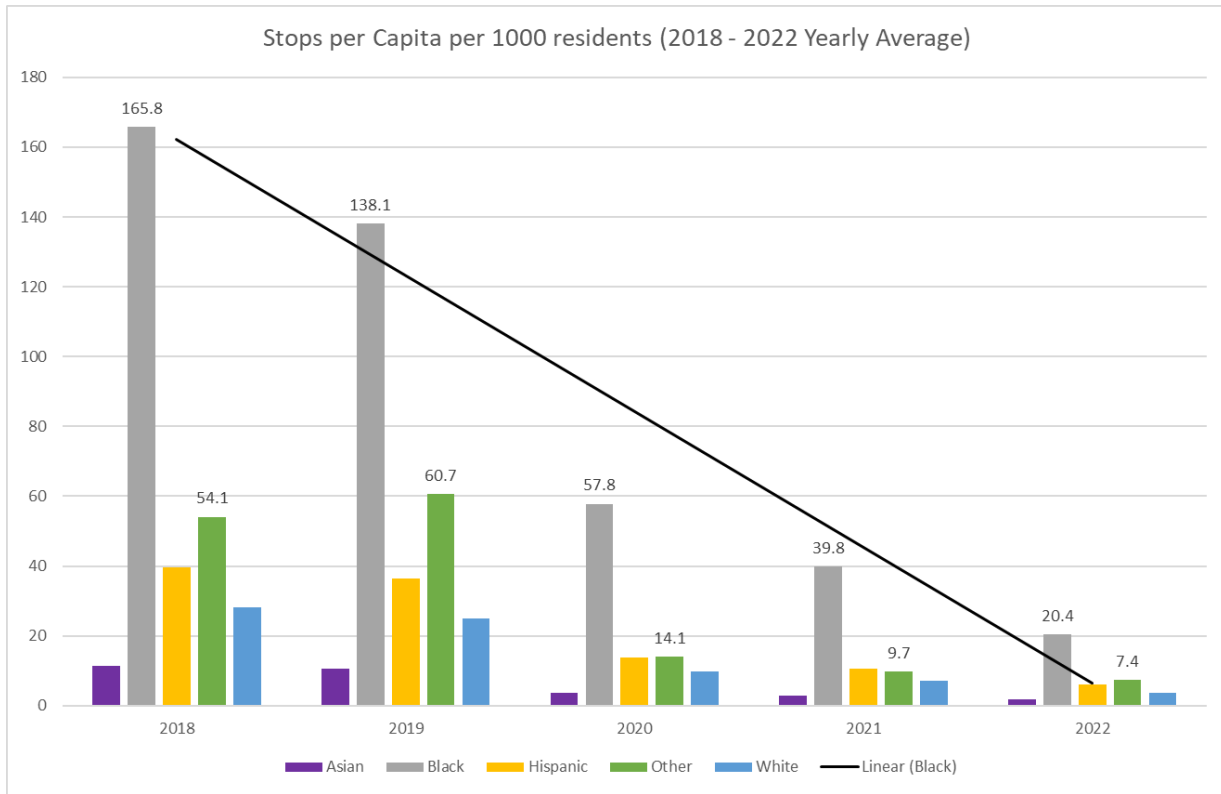

Citywide suspect data since 2016 shows that Black/African American individuals have been reported as suspects of crimes significantly higher than other demographic categories. On average, however, there has been a decline over time of the per capita inclusion of Black/African American residents within suspect reporting.

A linear trendline is produced for the most impacted group. Slopes for all trendlines are included in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in suspect data goes down 5.268, per 1000 Black/African American residents, per year, on average, over time.

Rate of Decrease, Suspects Per Capita	
Race	Slope
Black	-5.268
Asian	-0.101
Hispanic	-0.243
White	-0.076
Other	-5.810

Q3 Quantitative Analysis

Per Capita Population Benchmark

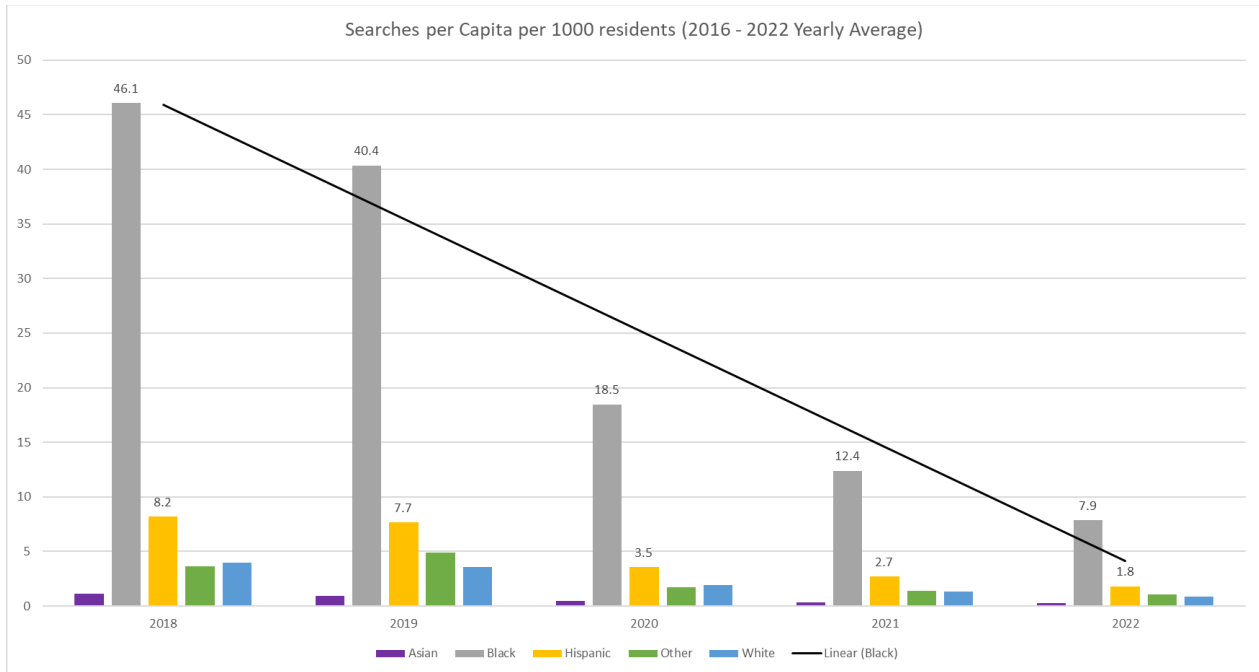

Citywide stops data since 2018 shows that Black/African American individuals have been stopped by SFPD at significantly higher rates per capita than other demographic categories. There has been a significant decline over time, on average, of the per capita number of Black/African American stopped in a vehicle or pedestrian stop since mid-2018.

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in tops data goes down 38.90, per 1000 Black/African American residents, per year, on average, over time.

Rate of Decrease, Stops Per Capita	
Race	Slope
Black	-38.901
Asian	-2.724
Hispanic	-9.280
White	-6.667
Other	-14.436

Q3 Quantitative Analysis

Per Capita Population Benchmark

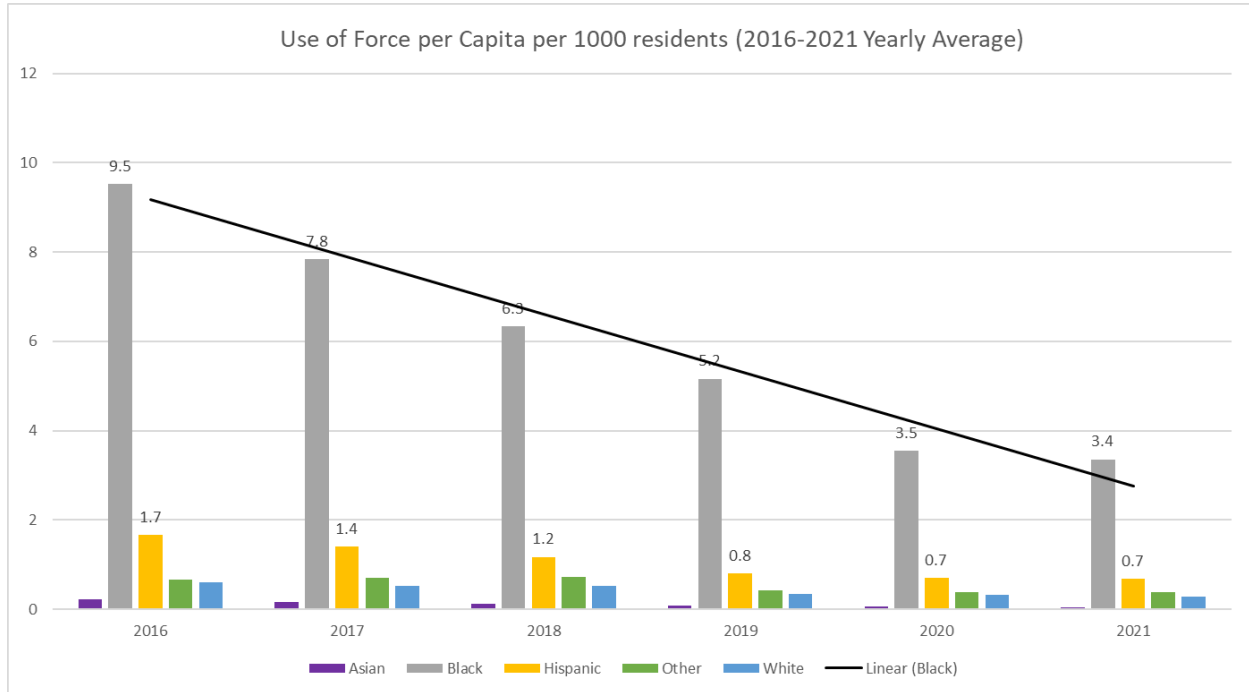

Citywide search data since 2018 shows that Black/African American individuals have been searched in connection with an interaction with SFPD at rates higher than other demographic categories. There has been a significant decline over time, on average, of the per capita number of Black/African Americans searched since mid-2018.

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in search data goes down 10.446, per 1000 Black/African American residents, per year, on average, over time.

Rate of Decrease, Searches Per Capita	
Race	Slope
Black	-10.446
Asian	-0.236
Hispanic	-1.776
White	-0.852
Other	-0.870

Quantitative Analysis Per Capita Population Benchmark

Citywide use of force data since 2016 shows that Black/African American individuals have been subject to a use of force at significantly higher rates as compared to other demographic categories. There has been a decline over time, on average, of the per capita number of Black/African Americans upon whom use of force has been used since 2016.

Rate of Decrease, UoF Per Capita	
Race	Slope
Black	-1.281
Asian	-0.036
Hispanic	-0.210
White	-0.068
Other	-0.076

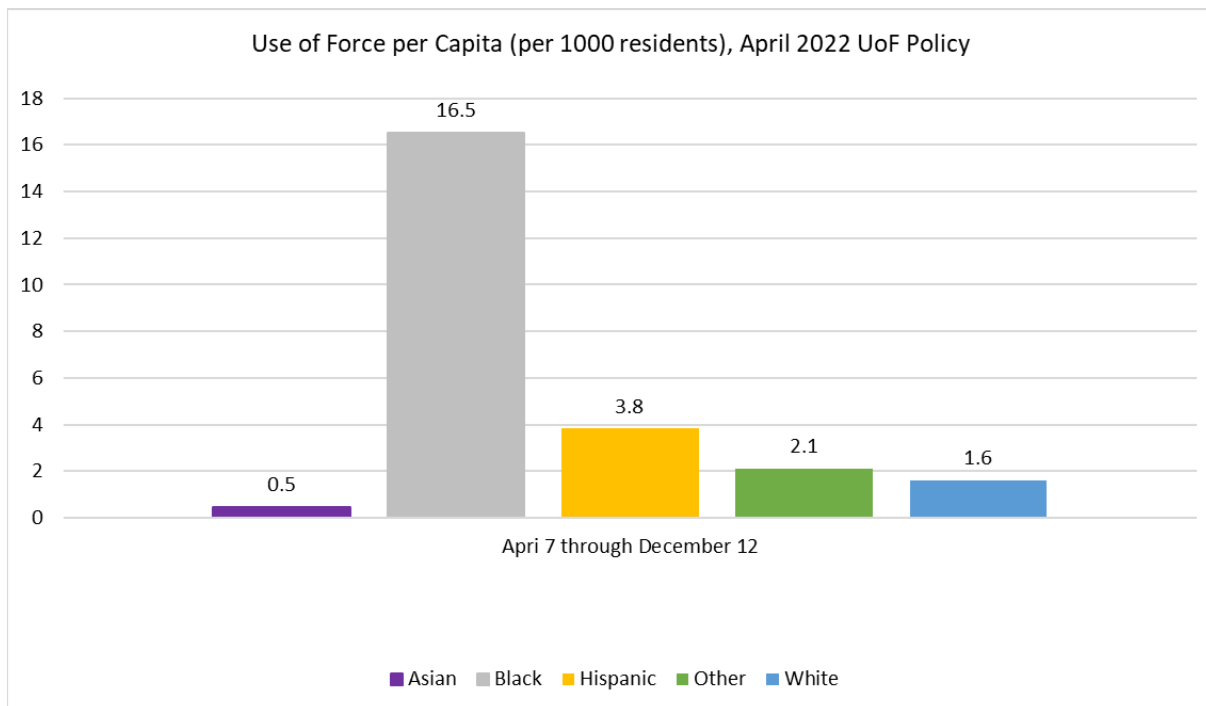

A linear trendline is produced for the most impacted group.

Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in UoF is at -1.281, per 1000 Black/African American residents, per year, on average, over time.

Q3 Quantitative Analysis

Per Capita Population Benchmark

Due to the changes in the Use of Force policy, the 2016 UoF policy data is used to provide context over time, above. A separate calculation for per capita use of force is included using only the April 2022 UoF policy standard, below.

Data collected under the April 2022 Use of Force policy shows that Black/African American individuals may be subject to a use of force 16.5 times per 1000 Black/African American residents.

Q3 Quantitative Analysis

Per Capita Population Benchmark

Citywide arrest data since 2016 shows that Black/African American individuals have arrested at higher rates as compared to other demographic categories. There has been a modest decline over time, on average, of the per capita number of Black/African Americans arrested since 2016.

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in Arrest data goes down 5.18, per 1000 Black/African American residents, per year, on average, over time.

Race	Slope
Black	-5.181
Asian	-0.123
Hispanic	-0.502
White	-0.484
Other	-0.127

Q3 Quantitative Analysis

Per Capita Population Benchmark

Yearly Per Capita Disparity Analysis

We further conduct a disparity analysis by baselining the three most represented demographics against each other to find a numerical representation of the disparity between groups, per SFPD interaction, per year. As with the other per capita analysis, Black/African American residents of San Francisco have higher rates of disparity in the data as compared to the White and Hispanic demographic groups. Please note that due to the changes in the Use of Force policy, the 2016 Use of Force policy data is used to provide context over time.

Citywide suspect data since 2016 shows that suspects are listed as Black/African American individuals 13.9-19.0 times more often than white individuals, when comparing to the population per 1000 residents of each.

Q3 Quantitative Analysis

Per Capita Population Benchmark

Citywide vehicle and pedestrian stop data from 2018 through 2022 shows that individuals stopped are listed as Black/African American individuals 5.6-5.9 times more often than White individuals, when comparing to the population per 1000 residents of each.

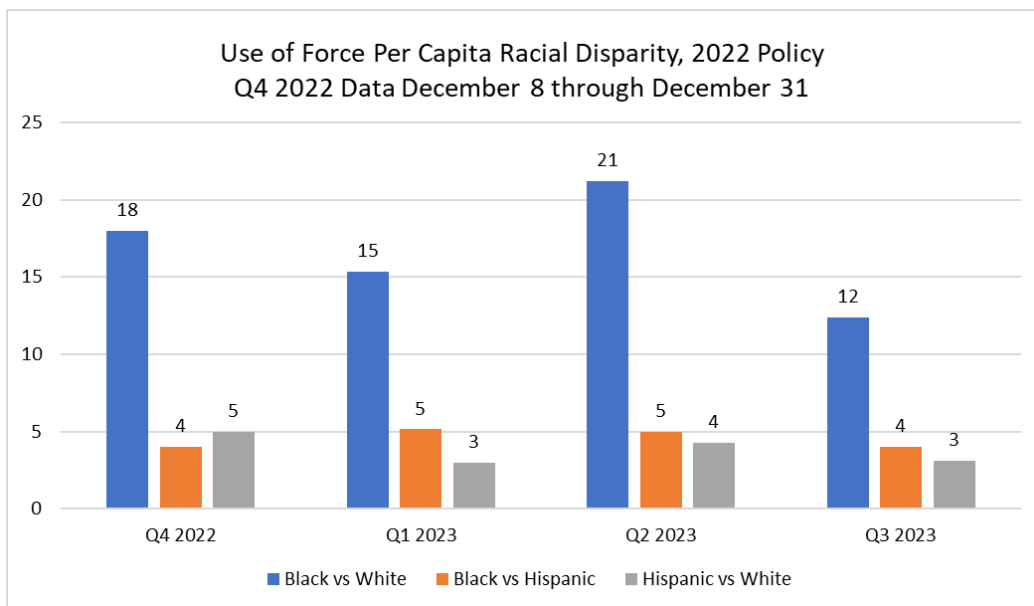

Citywide search data shows that from 2018 through 2022 individuals searched are listed as Black/African American individuals 9.2 to 11.6 times more often than White individuals, when comparing to the population per 1000 residents of each.

Q3 Quantitative Analysis

Per Capita Population Benchmark

Citywide Use of Force data shows that from Q1 2022 - Q4 2022 (through Dec 7), under the 2016 Policy, individuals receiving force are listed as Black/African American individuals 9-25 times more often than White individuals, when comparing to the population per 1000 residents of each.

Citywide Use of Force data shows that from Q4 2022 (beginning Dec 8) – Q3 2023, under the December 2022 Policy, individuals receiving force are listed as Black/African American individuals 18-21 times more often than White individuals, when comparing to the population per 1000 residents of each.

Q3 Quantitative Analysis

Per Capita Population Benchmark

Citywide arrest data shows that from 2016 through 2022, arrested individuals are listed as Black/African American individuals 9.4-10.7 times more often than White individuals, when comparing to the population per 1000 residents of each.

What did we find?

We found that Black/African American individuals are more often involved in various SFPD interactions than their representation in the population, especially when compared to White residents. In some forms of contact between the department and individuals, this involvement has been decreasing over time. These findings provide context around who is involved with SFPD at various points of engagement but do not answer the question of 'why' this is the case.

It is possible that some or all factors discussed in the benchmark description section above are affecting the data in some way. The context provided gives us a common frame for conversation, mutual understanding, and a starting point from which additional analysis may occur.

Q3 Quantitative Analysis

Per Capita Population Benchmark

What's next?

The Department looks forward to continuing the analysis of data on a quarterly basis. However, it should be noted that SFPD will need to build out analytical capacity to carry out some of this work, and timeline expectations will be shared and updated with the publishing of each quarterly report.

SFPD has also partnered with multiple academic entities to assist in academic level analyses of SFPD data, including:

- The California Policy Lab at UC Berkeley and UC Los Angeles,
- Stanford's SPARQ center,
- Palo Alto University, and
- The Center for Policing Equity
- New York University
- Northwestern University

Domestic Violence Reporting

- Admin Code Sec. 96D.2b

Domestic Violence Reporting - Background

In November 2021, the Board of Supervisors approved, and Mayor Breed signed, legislation amending the San Francisco Administrative Code to require certain data involving Domestic Violence be reported on a quarterly basis starting in the first quarter of 2022. The report is to be submitted on a quarterly basis to the Board of Supervisors, the Mayor, Office of Racial Equity, the Human Rights Commission, the Department on the Status of Women, and the Police Commission.

Domestic Violence Calls for Service and Investigations

Domestic Violence, also known as Intimate Partner Violence, is abbreviated as DV for brevity in this report. For the purposes of this report, Admin Code 96D defines Domestic Violence as: *"Domestic Violence" means the crime defined in Section 273.5 and the crimes punishable under Section 243 (e){1}, of the California Penal Code.*

SFPD responds to calls for service (CFS) received by the Department of Emergency Management (DEM) whether as a 911 emergency or through the non-emergency line. After gathering information from the caller, DEM staff has the responsibility of determining the appropriate code for the call, based on the information provided, and to dispatch units to the location as either a Priority A (highest), Priority B, or Priority C.

Upon arrival, SFPD officers conduct a thorough investigation into the allegations of domestic violence. Per SFPD policy, calls for service are coded with a final disposition of domestic violence (DV) in cases in which DV is evident during an officer's investigation.

In some cases, a report may be taken without a call to 911 (self-reporting at a police station, for example.) In these cases, a call for service number is generated during the report writing process.

This is a quarterly data report from 1 July 2023 through 30 September 2023.

Domestic Violence Reporting - Admin Code Sec. 96D.2b

Admin Code Sec. 96D.2b Reporting Components

1(A) The number of calls for service for domestic violence that the Police Department received from the Department of Emergency Management for the period of July 1 to September 30, 2023.

Calls for Service, Final Call Code Includes "DV" July 1 - September 30, 2023				
	2023			
	Jul	Aug	Sep	Total
DV Calls for Service	488	453	516	1457

1(B) The number of domestic violence cases that the Police Department presented to the District Attorney for investigation and/or prosecution in the prior quarter, and of those cases, the number in which a child or children were present and/or a firearm or firearms were present.

DV INCIDENTS SUBMITTED TO THE DISTRICT ATTORNEY'S OFFICE			
	2023		
	Jul	Aug	Sep
Number of DV Cases Presented to the District Attorney's Office	75	82	69
Number of DV cases referred to the DA in which a child was present	5	8	3
Number of DV cases referred to the DA in which a firearm was present	2	1	0

Confiscation of Weapons: Pursuant to Penal Code § 18250 and Department policy, officers are mandated to confiscate any firearms or other deadly weapons discovered at the scene of a domestic violence incident. The weapon is booked into the Department's Property Room as evidence. As federal and state laws prohibit individuals convicted of a domestic violence charge from owning or acquiring a weapon, the Property Room follows DOJ protocols, including a criminal records' checks, to determine if the individual is eligible for release of the weapon.

Presence of Children: SFPD Department General Order 6.09 also outlines the procedures to follow if children are present during a domestic violence incident. DGO 7.04, Children of Arrested Parents, provides guidance to minimize the negative impact and harmful stressors on children when a parent/guardian is arrested whether in their presence or not. This policy is considered a national model, highlighting law enforcement's responsibility to ensure a safe environment for children following a traumatic experience such as the arrest of one's parent.

**SFPD Quarterly Activity & Data Report –
Additional Data Tables**

Stop Data Q3 2023

Stops, by Self-Initiated vs Dispatched

In Quarter 3 of 2023, there were a total of 6,564 stops, a 55% increase from Quarter 3 of 2022. Of those stops, 4,799 (73%) stops were made in response to self-initiated calls, and 1,765 (27%) stops were made in response to dispatched calls for service.

SFPD Total Stops, Self-Initiated vs Dispatched						
Type of Stop	2022			2023		
	Q2	Q3	Q4	Q1	Q2*	Q3**
Self-Initiated	1881	2910	2857	2941	3638	4799
Dispatched	1320	1315	1142	1152	1116	1765
Total	3201	4225	3999	4093	4754	6564

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

Stop Data Q3 2023

In Quarter 3 of 2023, from 6,564 total stops 1,149 (17.5%) resulted in searches. Of those searches, 641 (55.8%) were made in response to Self-Initiated Calls, and 508 (44%) were in response to Dispatched Calls for Service.

SFPD Total Searches, Self-Initiated vs Dispatched						
Type of Stop	2022			2023		
	Q2	Q3	Q4	Q1	Q2*	Q3**
Self-Initiated	366	399	382	456	542	641
Dispatched	618	621	533	514	543	508
Total	984	1020	915	970	1085	1149

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

As of June 28, 2023 1200hrs, the Department utilizes the Benchmark Stop Data System program definitions under AB953; a 'stop' is defined as **1)** any detention, as defined in regulations, by a peace officer of a person or **2)** any peace officer interaction with a person in which the officer conducts a search as defined in regulation.⁷ Stops include Traffic Stops and Pedestrian Detentions. Stops may be Self-Initiated or Dispatched.

Stop Data Q3 2023

Search Yield Rate

There were 1,149 distinct searches in Quarter 3 of 2023. Total yield rate for all searches was 42%.

Yield Rates for All Searches
(Trailing 6 Quarters)

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 11:59 hrs.*

Yield rate was 40% for Other individuals, 39% for Black/African Americans, 49% for Hispanics/Latinos, 27% for Asian and 42% for White individuals in Quarter 3 of 2023.

Stop Data Q3 2023

Search yield rates have increased year over year since mid-2018, suggesting an increase in the use of objective factors and decrease in the use of bias in decisions to search individuals.

*There were no stops during Quarter 3 of 2023 that resulted in contact with the Department of Homeland Security or its sub-divisions.

Calls for Service, Q3 2023

Calls for Service

The Department responded to 152,856 total calls for service during July 1 through September 30, 2023. Call volume was slightly increased during the month of August during the Quarter 3 2023.

Calls for Service, Q2 2023

Calls for Service, Q3

911 Calls assigned to SFPD have declined year over year since 2019.

Data Source: San Francisco Police Department Computer Aided Dispatch (CAD). Calls for Service data represent calls to the Department of Emergency Management (DEM) via the 911 system and assigned to SFPD.

Suspects, Q3 2023

SUSPECTS OBSERVED AND/OR REPORTED TO SAN FRANCISCO POLICE DEPARTMENT

Suspect information/description is either provided by a member of the public, reported directly to the police or through dispatch, or is observed by a department member during a self-initiated call for service in which there is reasonable suspicion or probable cause for an officer to conduct a stop. The suspect information is documented in a police incident report that is generated from the call for service. Individuals are listed as “Other” when race information is not included in the category of “Asian/Pacific Islander”, “Black/African American”, “Hispanic/Latino”, “Native American” or “White.”

The following table summarizes suspect descriptions gathered from incident reports through the means stated above. Data captured shows 38% of the individuals observed and/or reported are Black/African American.

Suspects by Race/Ethnicity July 1, 2023 - September 30, 2023					
DESCRIPTION	Jul	Aug	Sep	Q3 2023 Suspects	% of Total Suspects Q3 2023
Asian/ Pacific Islander	107	133	102	342	3.9%

Grand Total	556

A review of all reported uses of force during Quarter 3 of 2023 found no instances of officers discharging firearms at a moving vehicle, nor any instances where the carotid restraint was employed.

USE OF FORCE RESULTING IN DEATH

There were two Use of Force incidents that resulted in death during Quarter 3 of 2023.

First Incident - SAN FRANCISCO (July 26, 2023):

At approximately 2:53 P.M. SFPD Officers who were working in plain clothes were arresting a male suspect at Catalina Street and Fairfax Avenue. During the arrest a second male, unrelated to the arrest, approached and engaged these officers. Two uniformed officers arrived in a marked patrol vehicle and contacted the second male, who was armed with what appeared to be a firearm. During the encounter with uniformed officers an officer involved shooting occurred. The male who was armed was struck by gunfire. Officers rendered aid and summoned medics to the scene. The male was transported by medics to the hospital with life-threatening injuries.

Despite lifesaving efforts of emergency responders and medical staff, the male was declared deceased at the hospital.

Second Incident - SAN FRANCISCO (August 28, 2023):

At approximately 10:22 P.M., uniformed officers with the San Francisco Police Department responded to the 300 block of Jones Street regarding a person armed with a knife and threatening people. Officers arrived on scene and made contact with the subject. During the encounter an officer involved shooting occurred. The male who was armed was struck by gunfire. Officers rendered aid and summoned paramedics to the scene, who had been staged nearby. The male was transported to the hospital with life-threatening injuries.

Officers Assaulted, Q3 2023

Officers Assaulted by Quarter

In Quarter 3 of 2023, there were a total of 75 officers assaulted.

Use of Force, Q3 2023

Types of Force by Race/Ethnicity and Gender of Subject July 1 – September 30, 2023

During Quarter 3 of 2023, under the December 2022 Use of Force Policy, Uses of Force used against Hispanic Male individuals accounted for 26% uses of force, while 20% were against White Male individuals, and 31% against Black Male individuals.

The table above reflects the top 10 Types of Call. “All Other Types of Call” include the sum of remaining call type categories such as Misc, Traffic Related, Alarm/Check on Well-Being (100/910), Disturbance Calls, and etc.

Use of Force, Q3 2023

Uses of Force by Reason

July 1 – September 30, 2023

Per December 2022 Use of Force Standard, “To Effect a Lawful Arrest, Detention, or Search” was the most common reason for Use of Force in Quarter 3 of 2023.

UoF Reason of Force Description July 1 - September 30, 2023		
UoF Reason of Force	Total UoF Incidents	Total Count of Reason
Reason is to effect a lawful arrest, detention or search	260	1528
Reason is to overcome resistance or to prevent escape	208	1354
Reason is to prevent a person from injuring himself/herself, when the person also poses an imminent danger of death or serious bodily injury to another person or officer	11	68
Reason is to prevent the commission of a public offense	96	663
Reason of others or in self-defense	118	898
Reason to gain compliance with a lawful order	215	1355
Grand Total	273	5866

As noted in the data exploration section, the reason for use of force has gone from a single selection to a multiple select field. This can lead to more reasons for uses of force in data collected in Quarter 2 of 2022 onward than actual uses of force, as seen above.

Use of Force, Q3 2023

Uses of Force by Race/Ethnicity, Gender, and Age of Officer Q3-2023, July 1 – September 30, 2023

During Quarter 3 of 2023, using the December 2022 Use of Force policy, White male officers accounted for 257 (46%) of Uses of Force used, and Asian male officers accounted for 117 (21%) of Uses of Force used, and Hispanic male officers accounted for 90 (16%) as well.

Officers Using Force by Race and Gender July 1 - September 30, 2023
