Subject: responses from Sgt. Joseph Vigil

CED stakeholders:

Here are the answers to additional questions submitted by CED stakeholders to Sgt. Joseph Vigil (Richmond, CA PD). Sgt. Vigil's responses are in red:

- 1) Richmond PD's Department's 2015 use of force statistics including officer-involved shootings and taser deployment? **Do not have 2015 stats off hand, will have to dig for those if they were tracked at all.**
- 2) Richmond PD's Officer Involved shootings for 2016? **OIS in 2016=0, OIS in 2017-1 (not a Taser incident)**
- 3) Did Richmond PD start implementing CEDs as a pilot CED program? **I had to ask on this one because I was not here. From what I was told, early 2000's, Richmond started with the "M" platform of Taser and only Sergeants were issued Tasers. When they upgraded to the "X" series (a short time later) everyone was issued a Taser. There was no pilot other Sergeants having them only.**
- 4) What is the data on injuries and fatalities using CED's for the years you have data? **For the last year and a half there have been no fatalities resulting in the use of Tasers. The injuries have been minor, resulting from probe strikes only. We have not been notified of any lasting or long term injuries related to the use of Taser.**

I will work to get these questions and answers posted to the Commission web page.
