RE: [REDACTED] 10 year disturbance that has been overlooked by Commander Ann Mannix, Chief Bill Scott and Captain Vaswani and Captain Ford and those before them.

At this address our neighborhood is being threatened by a bully named [REDACTED] who is a renter of [REDACTED]. Daily and nightly he is found with cars on blocks up on the sidewalk and double parked and with cones blocking access to parking. Police just drive by daily. He has been arrested for a hit and run felony and was out the next day. So neighbors are afraid of him.

I have reported in a face to face meeting with both of the mentioned Captains Vasawni, Ford and multiple calls to Commander Ann Mannix with no results. I actually saw him belittle Police in front of 7-10 neighbors and this address reeks daily of drunks and other substances. The sad part is that I have followed up with The State of California Bureau of Automotive Repairs at their head offices in Ranch Cordova who did an investigation with undercover watches on this address. They have written to me that they gave directions of actions to be taken to The District Attorney's Office in San Francisco which were never taken nor by The San Francisco Police who are to blame also.

[REDACTED] who lives 2 door over has actually been subjected to hate crimes aimed at her race and sex. Go home "HINDU", GET F-CKED BITCH and other acts as hitting on her car with fists. [REDACTED] has 200 pictures and 90 Cad report numbers and been told by of all people The San Francisco Police to move at 72 years old and to where in this costly community.

[REDACTED] has been subjected to car smoke, anti-freeze dumping and oils on her property [REDACTED]. Shots fired multiple times and car parts being left on curbs on a regular basis. Garbage day cones are placed in the street blocking tax payers from parking anywhere near [REDACTED]. [REDACTED] lives in fear. Captain Ford claims it's a social issue but I say it's breaking the law and subjecting a senior to a hate crime. I am asking also The ACLU to get involved as Police turn a blind eye to seniors.
