Officers Batchelder and Singh were assigned to the area of Blair Terrace due to an increase in auto burglaries. As they drove down 26th Street near Blair they observed an individual going thru a trunk. There was nothing unusual about his activities but the experienced officers scanned the vehicle and noticed a broken window. The officers encountered the individual who stated that the vehicle belonged to him. They continued to investigate (it may have been the spider senses going off) and noticed the suspect was removing items from the trunk. During the investigation an individual approached and told the officers that the vehicle belonged to him and that he did not know or give the suspect permission to tamper with his vehicle.

The officers then arrested the suspect who admitted to breaking into the vehicle. They recovered items belonging to the victim. The suspect was booked on felony charges.

For those readers who emailed us with your complaints in this area, I am glad we were able to report this to you. I know it took a few weeks, but sometimes it is better to be lucky than good. We are continuing or increased enforcement in this area.

PS. this guy lived close by , so please keep reporting any problems, we can only put him in jail, the DA and the Courts have to keep him there.

Lt. Kurt Bruneman
