SFPD Announces Arrests in Home Burglary Series

Monday, April 09, 2018

Suspects Allegedly Stole Nearly \$3 Million in Currency, Credit Cards and Jewelry

In November of 2017, the San Francisco Police Department's newly established Burglary Unit identified a pattern of residential burglaries occurring frequently in the Bayview, Ingleside and Taraval districts. Over the course of the investigation, members of the Burglary Unit determined that as many as sixty of the residential burglaries were being committed by serial burglary crews.

During the commission of the burglaries, the crews used multiple vehicles with paper license plates and attempted to disguise their identities. The suspects gained entry to the burglarized homes by forcing their way through locked gates and breaking front and rear doors of the residences. The burglaries occurred in occupied and unoccupied homes.

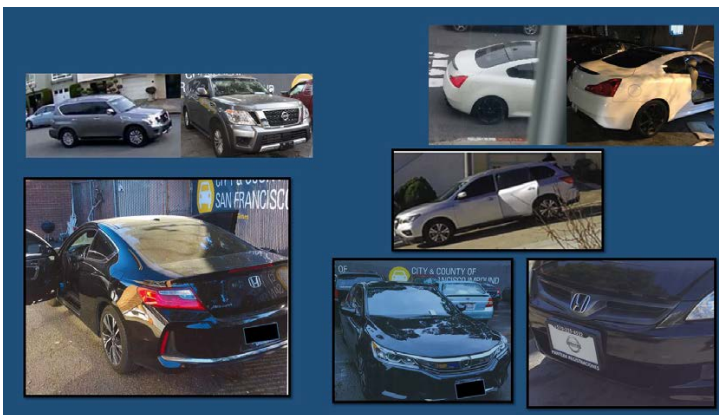

Burglary Unit investigators determined that eleven firearms, hundreds of pieces of jewelry, US and foreign currency, credit cards, passports, vehicle titles and vehicle keys were stolen, valued at nearly \$3,000,000.00.

Assisted by numerous local, regional, out-of-state, and federal agencies, SFPD was able to identify nearly thirty individuals responsible for or accomplices in the burglaries. As a result, the department authored and served several search and arrest warrants over the last ninety days in San Francisco, Oakland, Antioch, Brentwood and Las Vegas.

During the serving of these warrants, nine of eleven known stolen firearms were recovered. In the search warrant served in Brentwood last week, four more firearms were recovered, including two that were stolen in separate burglaries in Fremont, CA and Reno, NV.

Investigators also recovered multiple pieces of stolen property including jewelry, passports, US and foreign currency and eight vehicles used in the burglaries.

Of the thirty individuals identified in the investigation, ten have been apprehended along with two additional individuals arrested during the search warrant served in Brentwood. SFPD continues to investigate the remaining individuals for their involvement in the burglaries.

“With these arrests, there has been a marked decrease in burglaries in the Bayview, Ingleside and Taraval districts,” said San Francisco Police Chief William Scott. “Our establishment of a General Crimes Unit to focus on serial residential and commercial burglaries, auto break-ins, bicycle thefts and other neighborhood property crimes is bearing results. We will continue to pursue crime prevention and investigation strategies that will increase safety for all and help bring justice for victims of serial criminals.”

SFPD and Department of Homeland Security/Homeland Security Investigations Announce Arrests in San Francisco Homicides

Friday, April 06, 2018

San Francisco Police Department Chief William Scott and Special Agent in Charge for Homeland Security Investigations Ryan L. Spradlin today announced arrests in six homicides committed in San Francisco between 2006 and 2013.

San Francisco Police Department Homicide investigators worked in collaboration with Homeland Security Investigations investigators to develop leads and new evidence that lead to a federal indictment of suspects in these cases.

"The arrests in these criminal cases were made possible through the collaborative partnership between the police department and Homeland Security Investigations," said Chief William Scott. "Through diligent investigative work and careful coordination, law enforcement agents this week were able to safely take several homicide suspects into custody without incident. We hope that these arrests will bring a measure of comfort and healing to the families of the victims, many of whom have waited years for justice."

For further information regarding these cases, please contact the U.S. Attorney's Office for the Northern District of California at 415-436-7200 or visit www.usdoj.gov/usao/can.

Traffic Safety Enforcement Operations Plan for San Francisco with OTS Grant

The San Francisco Police Department will conduct Traffic Safety Enforcement Operations on April 4th, 5th, 12th, 17th, 24th and 26th with a focus on bicycle and pedestrian safety. Over the past three years, the department has identified areas where significant numbers of pedestrian and bicycle-related collisions have occurred and responded by deploying additional officers to those areas in an effort to prevent deaths and injuries. Special attention will be given to Focus on the Five violations: speeding, making illegal turns, failing to stop for stop signs and red lights, failing to yield to pedestrians in cross walks, as well as any other dangerous violation.

San Francisco is committed to eliminating traffic deaths on our streets as part of Vision Zero SF. Vision Zero SF is our city's commitment to prioritize safe streets for everyone.

Bicycle and pedestrian fatalities are rising in California as more people use these non-motorized means of transportation. In 2016, California witnessed 867 pedestrians and 147 bicyclists killed, accounting for more than 28 percent of all traffic fatalities.

All riders are reminded to always wear a helmet – those under 18 years of age must wear helmets by law. Pedestrians should cross the street only in marked or unmarked crosswalks at corners. All motorists are reminded to be mindful of others who share the road.

Funding for this program is provided by a grant from the California Office of Traffic Safety through the National Highway Traffic Safety Administration.

With over 2,300 different telephone numbers listed to access local government services, many people did not know what number to dial to reach the appropriate department. Now you can connect to city services with only two numbers to remember: **911** for emergencies and **3-1-1** for everything else.

Before 311, over 50% of calls to the 911 center were not emergency related. **311** relieves 911 operators from these non-emergency calls. If a catastrophic emergency such as an earthquake occurs, **311** operators will be able to provide accurate

information to assist during the recovery. In the unlikely event the 911 facilities becomes inoperative, the **311** call center will function as a back up.
