It does not include surveillance cameras designed to record the regular and ongoing operations of City departments, including but not limited to mobile in-car video systems, jail observation and monitoring systems, traffic reporting cameras, and building security taping systems. In addition, it does not include surveillance cameras installed for security purposes at the San Francisco International Airport, the San Francisco Unified School District or in San Francisco Municipal Railway facilities or vehicles.

SEC. 19.3. LIMITATIONS ON PUBLIC SAFETY CAMERAS.

The City and County of San Francisco may install public safety cameras only in locations where the Chief of Police has determined, following a public meeting held in accordance with subsection 19.4(b) of this Chapter, that installation would enhance public safety. The cameras shall record areas perceptible to the human eye from public streets and sidewalks only. Images obtained by public safety cameras may be released only to the following:

(a) Sworn members of the Police Department holding the rank of Sergeant or higher. Police shall limit review of images to investigation of specific crimes, active operations, and crimes in progress. A sworn member holding the rank of Captain or higher may approve live monitoring of these images/camera feeds.

SEC. 19.4. APPROVAL AND AUDITING OF ADDITIONAL PUBLIC SAFETY CAMERAS

(a) **Camera Installation.** The Chief of Police may install a public safety camera in an area if the Chief of Police finds, after holding a community meeting as set forth below, that installing the camera is likely to improve public safety in that area. The Chief of Police may call a meeting to discuss installation of a public safety camera on the Chief's own initiative, or in response to a request from a member of the public (including but not limited to community and business organizations).

(b) **Public Meeting Required.** A community meeting shall be held in the neighborhood(s) being considered for a public safety camera, prior to installation. The Chief of Police may require the attendance of the affected neighborhood's District Captain and/or sworn member of the Police Department holding the rank of Captain or higher.

(c) **Approval of Camera Installation by Chief of Police.** After the community meeting(s) described in subsection (b), the Chief of Police shall review a summary of community feedback, including feedback provided at the community meeting, before making a decision regarding the installation and/or placement of the public safety camera. The Chief's decision shall be based on public safety considerations, including the nature and frequency of criminal activity in the area and information provided by members of the impacted community. The Department of Technology ("DT") shall be responsible for installing and maintaining any approved cameras. A camera installation approved by the Chief of Police under this subsection (c) is not subject to the requirements of Chapter 19B of the Administrative Code.

(d) **Annual Report to the Board of Supervisors and to the Police Commission.** The Police Department shall prepare an annual report on all public safety cameras that the City has installed under this Chapter 19. The report shall identify the camera locations, the crime statistics for the vicinity surrounding each camera both before and after the camera is installed, crime statistics from surrounding vicinities, the number of times the Police Department requested copies of the recorded images, the number of live monitoring operations, and the number of times the images were used to make an arrest. The Department shall issue the reports during the first quarter of each calendar year, starting in 2025.

SEC. 19.5. NOTICE REQUIREMENTS.

Each sign shall be at least thirty inches by thirty inches. The signs shall be entitled NOTICE OF INTENT TO INSTALL SAFETY CAMERAS(S) AT THIS LOCATION and shall include the time, date, and location of the public meeting regarding the camera installation and contact information where members of the public may obtain additional information and/or submit comments. Signs shall be posted in languages appropriate to the specific neighborhood, and as required by the *Language Access Ordinance, Chapter 91 of the Administrative Code*.

(b) **Notice for Approved Cameras.** Upon approval by the Chief of Police and installation of a new public safety camera, the Department shall post a conspicuous sign within 25 feet of the location of the camera stating that the area is under camera surveillance unless the Chief of Police determines that the sign would reduce public safety or undermine the effectiveness of the camera in enhancing public safety.

(a) Access to the recorders for public safety cameras shall be limited to personnel from the DT for purposes of installation, repair, maintenance and upgrades, and to Custodian of Records staff from the Department of Emergency Management ("DEM"). The District Attorney may review the recordings with members of the Police Department at the rank of Sergeant or higher in determining whether to seek a court order preventing disclosure. DEM shall deliver to the requesting individual a copy of the recordings within five court days of the disclosure to the District Attorney, unless the District Attorney applies for a court order to prevent disclosure of the recordings pursuant to existing law.
