Quarterly Activity and Data Report

Quarter 4, 2023

SFPD stands for safety with respect for all.

We will:

- Engage in just, transparent, unbiased, and responsive policing.
- Do so in the spirit of dignity and in collaboration with the community.
- Maintain and build trust and respect as the guardian of constitutional and human rights.

Q4 Overview

Data collected during the pandemic and recovery period reflect the unique circumstances of the time. Users should take care when comparing data trends across pandemic and non-pandemic response timeframes.

Data Exploration

Data Collection Transition & Associated Errors

SFPD's ongoing efforts to transform its administration and operations into a 21st Century Policing agency have included several themes. The outstanding work underway in the United States Department of Justice Collaborative Reform Initiative (USDOJ CRI) Use of Force and Bias recommendations is representative of those themes. Specifically, to meet the recommendations of CRI and to advance the management approaches of the Department, it has been necessary to make significant improvements to data collection, validation, and analysis.

Improving the Data Ecosystem

As recently as 2016, SFPD only collected three datasets systemically and electronically - incident data, basic stop data and arrest data. Improvements to the systems collecting these data are underway, and since then, SFPD has added two large data sets to its library.

Use of force reporting: SFPD started collecting use of force data by developing a new supervisory use of force form and entering these reports into a system connected to SFPD's early intervention system.¹ SFPD made drastic improvements to this paper-based process by shifting to a tool built by SFPD's technology division which collects these data at the incident level in the incident reporting system, Crime Data Warehouse. While these advances were substantial improvements in thoroughness, consistency, accuracy, and completeness, SFPD went further and has now shifted to Benchmark's use of force data collection module.

Stops data: SFPD began collecting some stops data in 2016 in a system also built by SFPD. After launch and within a matter of months, State mandates to the collection and reporting of these data, paired with a lack of funding to enhance existing systems, necessitated SFPD to transition to the CA Department of Justice's Stops Data Collection System. Finally, in late June 2023, SFPD shifted data collection for stops to a tool newly created by Benchmark for SFPD.

While data collection improvements are being made rapidly, with each shift in system transition, the likelihood for inconsistent or inaccurate data collection increases dramatically. Where errors may be less than 5% routinely (as evidenced by a

¹ Early intervention systems and early warning systems alert supervisors to officers who may be at risk of hurting themselves or someone else by tracking key indicators of behavior and incidents to which they have responded that have been shown to induce trauma.

Data Exploration

Department of Police Accountability use of force data audit), a shift in data collection can increase that rate six or ten-fold.

Stop Data Collection Challenges

With the transition to the Benchmarks Stops Data Collection system in June 2023, our department encountered a significant number of errors. These errors were caused by various data entry interface issues, including:

- a. Incomplete or outdated selections in drop-down pick lists
- b. Lack of mandatory data entry enforcement for mandatory fields
- c. Data collection logic not in compliance with RIPA requirements

Not every record was affected by any one error – about half of the records had no errors at all – but many records had multiple errors. Further, not all SFPD’s QADR metrics are affected by these errors, but some metrics are affected by multiple errors. In the tables that follow, SFPD has provided further information about these errors, the State-mandated data points (fields) affected, and the impact to the analyses contained in the QADR. Definitions of terms used in these tables are also below.

SFPD recognizes the importance of this data set and seeks to maintain the public trust that all its data is complete, accurate, and useable. Where the errors discussed here may affect completeness and accuracy, SFPD’s commitment to transparency is demonstrated through the summary of affected fields and analyses contained in this QADR. The data is still usable, and errors within only affect a fraction of the metrics/analyses that are conducted in the QADR. Due to these clerical or system errors, we exercise caution when viewing and utilizing the stops data from June 2023 and onward.

The discovery and forthright reporting of these errors would not be possible without SFPD’s tremendous organizational transformation that has occurred because of the implementation of the USDOJ Collaborative Reform Initiative recommendations.

Glossary of Terms

Term	Definition	Example:
Useable records	Records with no errors and records with errors that analyst could correct.	For offense codes, some codes selected by officers were no longer available among CADOJ's pick list. however, in many cases, the type of crime or penal code is a subcategory or subsection of another. In these cases, analysts rolled the offense code up to the higher level and included it in the data set and made available for future analysis.
Fields affected	A list of distinct fields in the data that contain errors.	For example, the "Reason for Stop" field.
Number of records	The total number of distinct records with a specific attribute in the relevant field.	For example, 4,879 records have a regulated attribute in the field.
Number of affected records	The number of distinct records with at least one error in the relevant field.	For example, of the 4,879 records, 2,000 contain errors.
Number of fields in associated records	The total count of individual fields across all related records.	For example, 15 distinct records each have 20 "Reason for Stop" fields, resulting in 20 fields across the associated records.
Number of fields affected by error	The total number of fields containing errors across the associated records.	In 15 distinct records with 20 "Reason for Stop" fields, 17 fields contain errors, so 17 fields are affected by errors.

Number of fields corrected	<p>The number of fields where errors were successfully fixed. Only fields that have no errors were counted.</p> <p><i>For CJIS Offense Code fields, fixes were applied to specific data points within each field rather than to the entire field. These fields can hold up to five data points. For example, if two out of the five CJIS codes within a field were invalid (a partially correct field), that field would not be included in the count.</i></p>	For example, 100 errors out of 500 were corrected. An invalid CJIS code such as "12345" was replaced with the valid code "45678" in the Warning CJIS Code field
Number of fields with errors remaining	The difference between the fields with errors and the fields that were corrected.	For example, of the 15 fields with errors, 10 were corrected, leaving 5 fields with errors remaining.
Field error rate	The percentage of fields with errors, calculated as the number of fields with errors divided by the total number of fields.	For example, 388 fields with errors divided by 4,879 total fields gives a 7.95% field error rate.
Metric	The type of analysis standard conducted, as defined in the QADR.	For example, the total distinct stops conducted per quarter.
Fields used to calculate	The specific fields used in the data set to calculate the metric.	For example, total distinct stops are calculated using the "Stop Record" field.
Affected by errors?	Indicates whether the field used for the metric is affected by errors (Yes or No).	For example, total stops by "Reason for Stop" are affected by errors in the "Reason for Stop" field.
Field(s) affected by errors	Specific fields in the data that have errors and impact the metric.	For example, total stops by "Reason for Stop" are affected by errors in the "Reason for Stop" field.

Number of corrected Records	The total number of records with errors that were successfully corrected.	For example, 100 records were corrected out of 500 records with errors.
Number of unusable records	The number of records excluded from analysis due to errors.	For example, out of the 500 records with errors, 20 were excluded from the analysis.
Number of records used for analysis	The number of records used in the analysis.	For example, 4,000 records were used in the analysis out of 5,000 total records.

Data Exploration

For stop data related terms (e.g. “Stop” definition, “Search” definition, etc.) please refer to CALDOJ’s **Underlying Stop Data Regulations, California Racial and Identity Profiling Act of 2015 (AB 953)** page [here](#).

Q4 Stop Errors by Field Table

Field List (With Errors)	Number of Records	Number of affected records	Number of fields in associated records	Number of fields affected by error	Number of fields corrected	Number of fields with errors remaining	Field error rate
Officers Years of Experience	4,879	383	4,879	383	-	383	7.85%
Duration of Stop	4,879	52	4,879	52	-	52	1.07%
Location of Stop	4,879	25	4,879	25	-	25	0.51%
Perceived Age	4,879	82	5,280	82	-	82	1.55%

Q4 Stop Metric Error Stats

Below is a list of metrics (or analyses) that are normally produced in the Quarterly Activity and Data report, and if that metric is affected by data collection errors. The table details which metrics are affected, count, and if affected by errors, count, corrections, unusable and final count of used records.

Metric	Affected by errors?	Number of records	Number of records affected by errors	Number of corrected records	Number of unusable records	Number of records used for analysis
Number of Stops	No	4,879	-	-	-	4,879
Number of Stops by Race or Ethnicity	No	4,879	-	-	-	4,879
Number of Stops per Cap	No	4,879	-	-	-	4,879
Number of Searches by Basis of Search	Yes	1,177	141	-	22	1,155
Number of Searches by Search Type (Administrative, Discretionary, and Other)	Yes	1,177	141	-	116	1,061
Number of Searches by Search Type (Administrative, Discretionary, and Other) and Race or Ethnicity	Yes	1,177	141	-	116	1,061

Average Yield Rates for All Searches by Race or Ethnicity	Yes	1,177	230	-	116	1,061
Yield Rates by Search Type and Race or Ethnicity	Yes	1,177	230	-	116	1,061
Yield Rates by Race or Ethnicity	Yes	1,177	230	-	116	1,061
Number of Searches Per Cap by Race or Ethnicity	No	1,177	-	-	-	1,177
Stops Self Initiated vs Dispatched	No	4,879	-	-	-	4,879
Searches Self Initiated vs Dispatched	No	1,177	-	-	-	1,177
Stops Self Initiated vs Dispatched by Race or Ethnicity	No	4,879	-	-	-	4,879
Searches Self Initiated vs Dispatched by Race or Ethnicity	No	1,177	-	-	-	1,177
Number of Searches by Race or Ethnicity	No	1,177	-	-	-	1,177
Number of Stops by Age	Yes	4,879	80	-	-	4,879
Number of Searches by Age	Yes	1,177	32	-	21	1,156
Number of Stops by Gender	Yes	4,879	9	-	-	4,879

Number of Searches by Gender	Yes	1,177	23	-	21	1,156
Number of Stops by District	No	4,879	-	-	-	4,879
Number of Searches by District	No	1,177	-	-	-	1,177
Basis of Search by Race or Ethnicity	Yes	1,177	141	-	22	1,155
Basis of Search by Age	Yes	1,177	151	-	22	1,155
Basis of Search by Gender	Yes	1,177	143	-	22	1,155
Result of Search	Yes	1,177	142	-	21	1,156
Result of Search by Race or Ethnicity	No	1,177	-	-	-	1,177
Result of Search by Age	Yes	1,177	148	-	21	1,156
Result of Search by Gender	Yes	1,177	144	-	21	1,156
Reason for Stop	Yes	4,879	1	-	-	4,879
Reason for Stop by Race or Ethnicity	No	4,879	-	-	-	4,879
Reason for Stop by Age	Yes	4,879	81	-	-	4,879
Reason for Stop by Gender	Yes	4,879	10	-	-	4,879
Result of Stop	Yes	4,879	8	-	-	4,879
Result of Stop by Race or Ethnicity	No	4,879	-	-	-	4,879

Result of Stop by Age	Yes	4,879	89	-	-	4,879
Result of Stop by Gender	Yes	4,879	17	-	-	4,879

Suspects

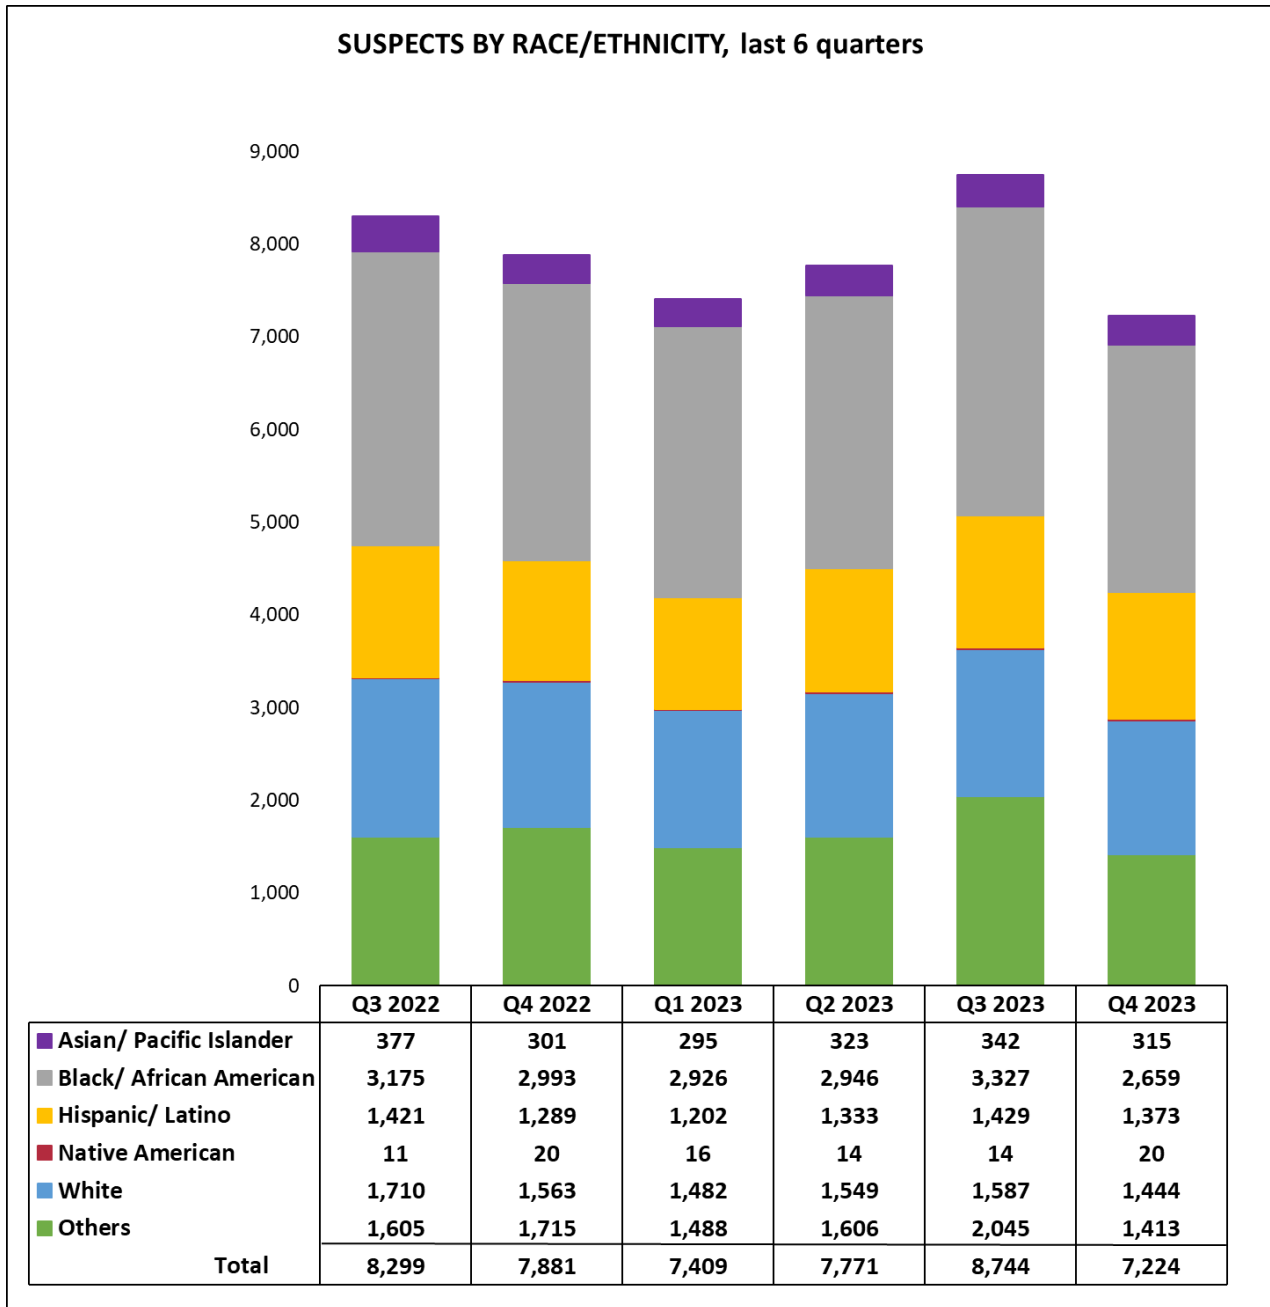

Suspects Observed or Reported

The suspect information provided includes descriptions provided by members of the public or observed by Department members and documented in police incident reports. Individuals are listed as “Other” when race information is not included in the category of “Asian/Pacific Islander,” “Black/African American,” “Hispanic/Latino,” “Native American,” or “White.”

Suspects by Race/Ethnicity		October 1, 2023 - December 31, 2023			
DESCRIPTION	Oct	Nov	Dec	Q4 2023 Suspects	% of Total Suspects Q4 2023
Asian/ Pacific Islander	100	116	99	315	4.4%
Black/ African American	983	896	780	2659	36.8%
Hispanic/ Latino	494	398	481	1373	19.0%
Native American	9	3	8	20	0.3%
White	512	438	494	1444	20.0%
Others	501	448	464	1413	19.6%
Total	2,599	2,299	2,326	7,224	100.00%

The total suspects with an identified race/ethnicity observed and reported in Q4 2023 (7,224) declined by 6% from Q4 2022 (7,711). Black/African Americans accounted for approximately 37% of all suspects observed and reported in Q4 2023. Unknown suspects and suspects of unknown race or ethnicity are not included and represent approximately 35% (3,852) of all incidents reported (11,076).

Suspects

Note: Subject data is extracted from incident reports via the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = "Suspect." Records with Unknown Race/Ethnicity data are not included.

Suspects

Note: Subject data is extracted from incident reports via the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = "Suspect." Records with Unknown Race/Ethnicity data are not included.

Suspects

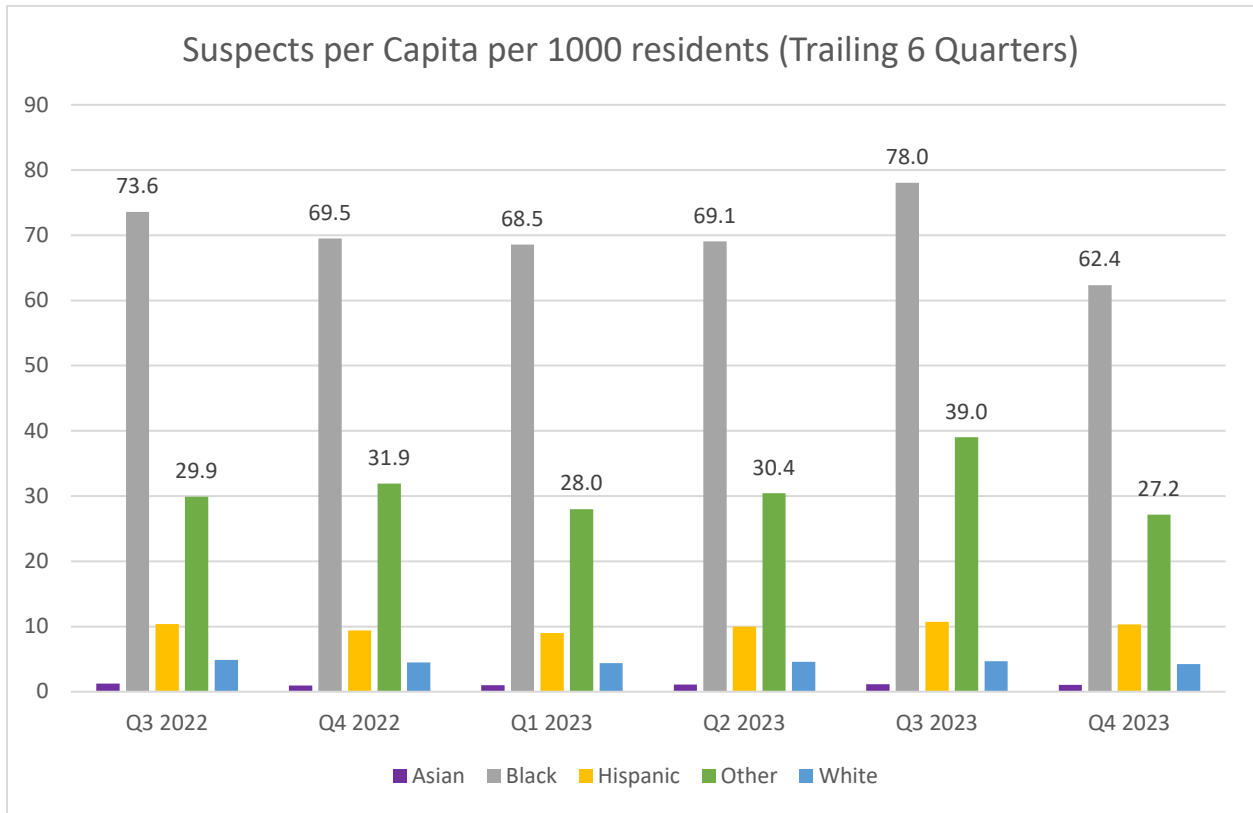

In Quarter 4 of 2023, there were 62 Black/African American individuals listed as suspects per 1000 Black/African American residents of San Francisco, as compared to 4.3 White suspects per 1000 White residents.

Citywide suspect data over the past six quarters shows suspects are listed as Black/African American individuals 14.6-16.7 times more often than White individuals, when comparing to the population per 1000 residents of each.

Suspects

Citywide suspect data shows that from Q3 2022 through Q4 2023, on average Black/African American individuals may be listed as suspects 70.18 times per 1000 Black/African American residents.

Stops and Searches

2018-2023 Total Stops

From 2020 to 2022, there is a consistent yearly decrease in stops for all individuals across perceived race/ethnicities. Specifically, when comparing the data for 2023 to 2022, there was an overall increase of 38% across all perceived races/ethnicities.

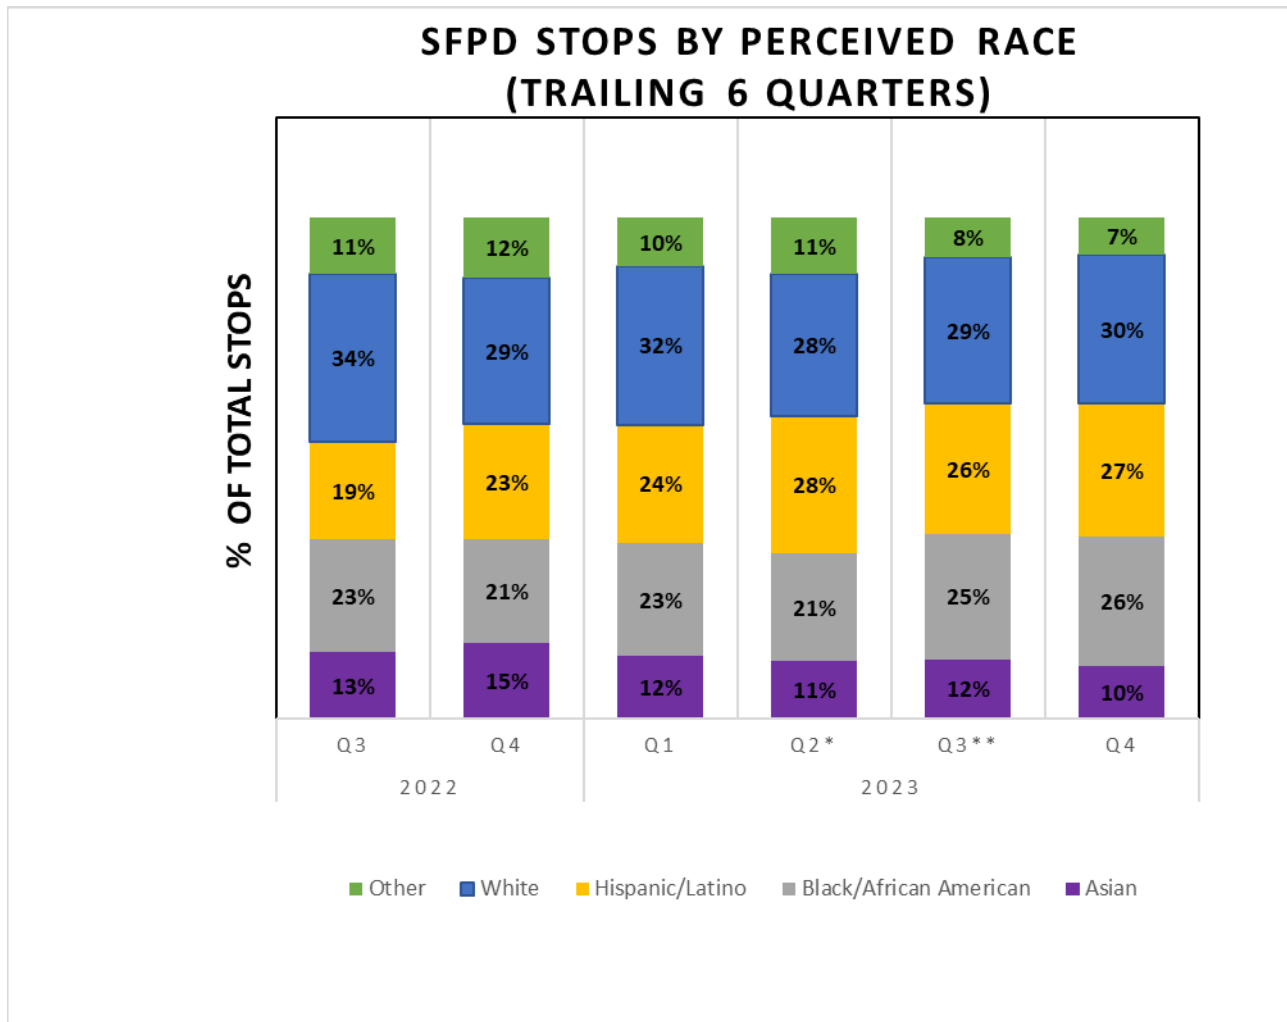

**2018 stats only account for Q3 and Q4 2018. AB953, the legislation requiring data collection, went into effect for SFPD on July 1st, 2018.*

Stops and Searches

Q4 2023 Total Stops:

In Quarter 4 of 2023, 5,280 stops were conducted. Of those stops, 1,335 resulted in searches (25.2%). White individuals accounted for 30% of all stops and 27% of all searches. Black/African American individuals accounted for 26% of stops and 32% of searches.

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contains the stats for the period of April 1 through June 28, 1159hrs.*

***Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 1200hrs. through June 30, 2359hrs.*

Stops and Searches

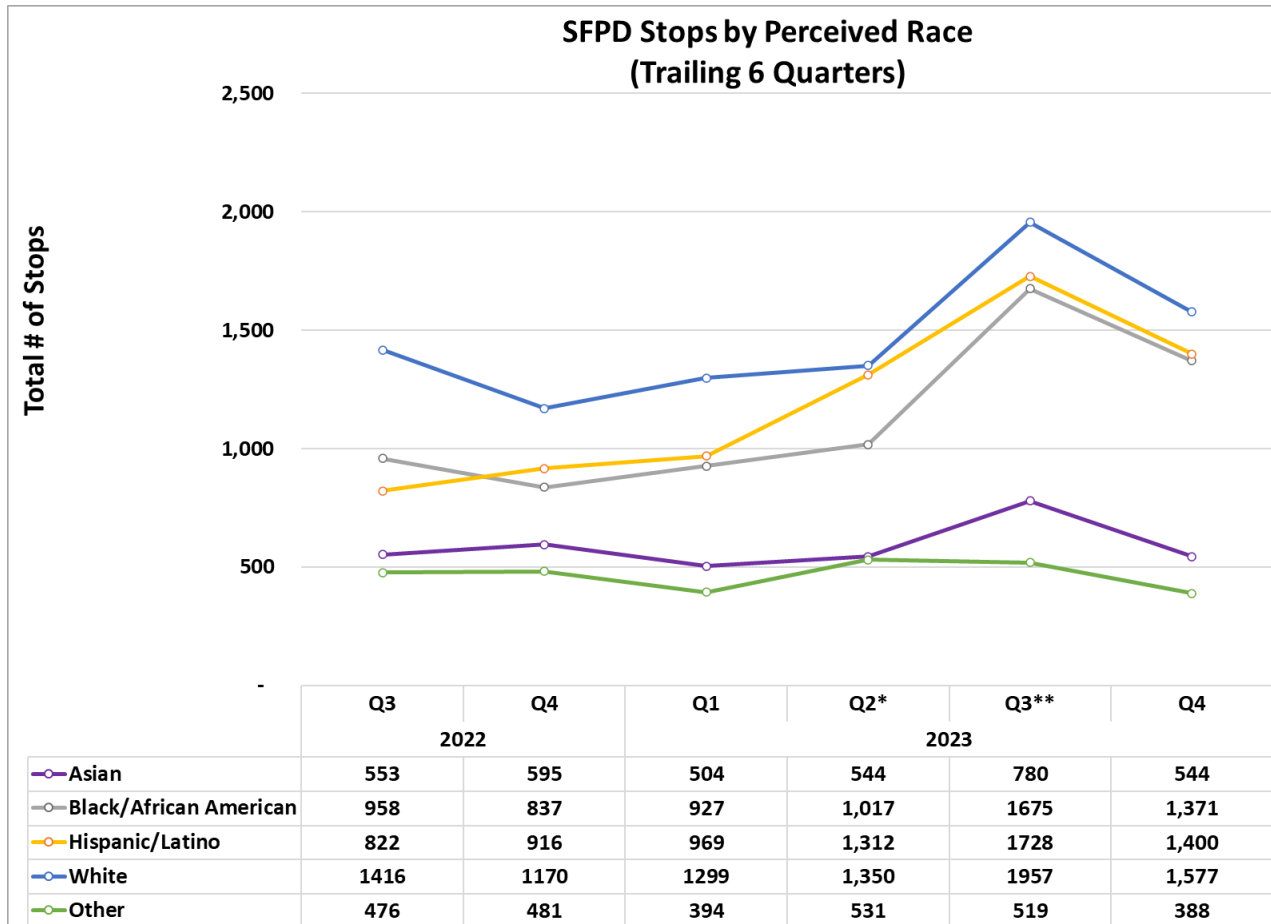

Working with large datasets requires constant review, and on occasion, intervention to ensure the data is ready for analysis. In the interest of transparency, the following adjustments were necessary after this review.

Field(s)	Application or Caveat
Setting Date of Stop	Fields unpopulated: There were 12 records with the Setting Date of Stop prior to transitioning into Benchmark Analytics platform, June 28 12:00hrs., entered by SFPD members. These records are being verified for the accuracy of the stop occurrence date, and thus were excluded from the current report.

In June 2023, SFPD discontinued use of the State’s Stop Data Collection System. SFPD then began using a newly-developed stop data collection system. As a result, stop data collected in Q3 and Q4 of 2023 contained errors, omissions, and inconsistencies.

In multiple sections of this report SFPD provide guidance and detailed information on the errors, along with outlining the significance of the errors’ effects on this report.

Stops and Searches

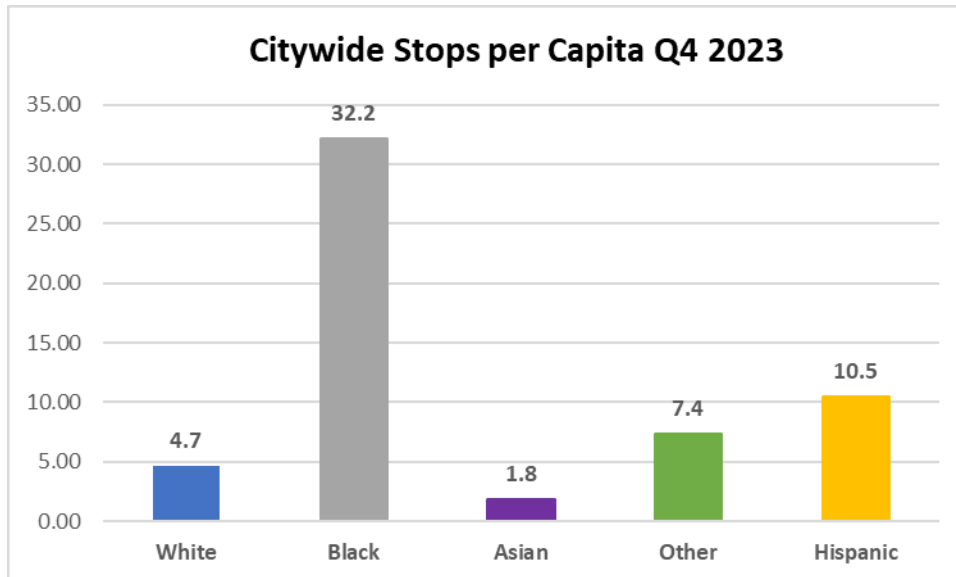

Compared to Quarter 4 of 2022, total stops in Q4 of 2023 increased by 63.8% for Black/African American individuals, increased by 34.78% for White individuals, decreased by 8.57% for Asian individuals, decreased for Other individuals by 19.33%, and increased for Hispanic/Latino individuals by 52.83%.

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.*

***Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 1200hrs. through June 30, 2359hrs.*

Stops and Searches

Citywide stops data shows in Quarter 4 of 2023, 32.2 Black individuals, per 1000 Black/African American residents of San Francisco may be stopped, as compared to 4.7 White individuals per every 1000 White residents.

Citywide vehicle and pedestrian stop data shows that since Quarter 4 of 2022, Black/African American individuals are stopped 5.7 to 6.9 times more often than White individuals.

Stops and Searches

Citywide vehicle and pedestrian stop data show that from Quarter 3 2022 through Quarter 4 2023, on average Black/African American individuals may be stopped 26.5 times per 1000 Black/African American residents.

Stops and Searches

Searches By Level of Discretion

The Department classifies the various types of searches into three categories:

1. **Discretionary searches,**
2. **Administrative searches, and**
3. **Other searches.**

Discretionary searches require an officer to ask and receive consent to search. In such cases, officers have the most flexibility in determining who to search and include only those occurrences where consent is the only basis provided. Administrative searches include those that occur because of a search warrant, arrest, or vehicle inventory. Other searches have a variable range of discretion and include reasons such as officer safety, suspected weapons, visible contraband, evidence of crime, etc.

Discretionary Searches	Administrative Searches	Other Searches
*Consent Given	*Incident to Arrest	*Officer Safety/ Safety of Others
	*Search Warrant	*Suspected Weapons
	*Vehicle Inventory	*Visible Contraband
		*Odor of Contraband
		*Canine Detection
		*Evidence of Crime
		*Emergency
		*Suspected Violation of School Policy
		*Condition of Parole/ Probation/ PRCS/ Mandatory Supervision

Current Quarter vs 1 year ago, % Change by Race/Ethnicity

Perceived Race / Ethnicity	STOPS			SEARCHES

Note: “Perceived” identifiers are used to categorize demographic information specific to Stop Data Collection System

Stops and Searches

As discussed above, SFPD's reporting system changeover resulted in data errors. A brief explanation of affected Charts and Tables is mentioned below.

The 1,335 total searches conducted in Q4-2023 were categorized into 3 search categories listed below. When multiple bases for search are present during a stop, officers are able to select multiple bases for search. In these cases, one search is counted in each basis. As a result, a search may appear in two or more search categories listed below. From 1,335 total searches, there were 1,689 bases for search selected, which fell into 3 search categories, Discretionary, Administrative, and Other Searches.

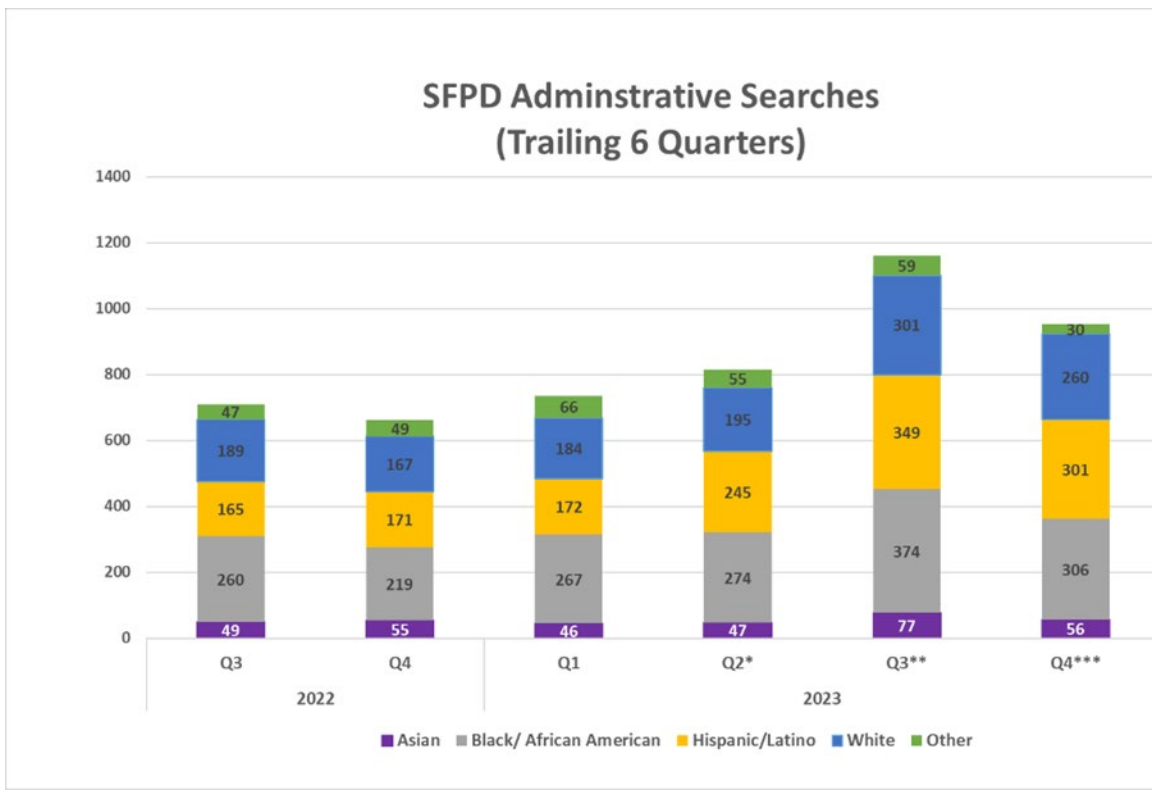

Total Basis of Search	Total	% Total
Consent given	52	3%
Officer safety/safety of others	228	13%
Search warrant	27	2%
Condition of parole/probation/PRCS/mandatory supervision	59	3%
Suspected weapons	84	5%
Visible contraband	43	3%
Odor of contraband	2	0%
Canine Detection	0	0%
Evidence of crime	142	8%
Incident to arrest	889	52%
Exigent circumstances/emergency	3	0%
Vehicle inventory	68	4%
Suspected violation of school policy	0	0%
Unknown	101	6%
*Distinct Count of Searches	1,335	
Total Count of Basis for Search	1,698	

****Table is affected by the "Invalid Combo: Basis for search/consent given", "Invalid Combo: Basis of Search", "Basis for Search is Invalid", and "Invalid Combo: consensual stop resulting in search" error. 141 records contained one or more of these errors. 119 records were included as these data allowed an assessment of whether a search occurred. Of the 141 records, 22 records are not captured in this table, as these data could not be used to determine if a search occurred.*

Stops and Searches

Type of Search	Total	% Total
Discretionary (Consent Given) Searches	53	3.66%
Administrative Searches	953	65.81%
Other Searches	442	30.52%
*Distinct Count of Searches	1,335	
Total Count of Type of Search	1,448	

***Table is affected by the "Invalid Combo: Basis for search/consent given", "Invalid Combo: Basis of Search", "Basis for Search is Invalid", and "Invalid Combo: consensual stop resulting in search" error. 141 records contained one or more of these errors. Of the 141, 116 records are not captured in this table as these data do not contain information that distinguish type of search.

*Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 2359 hrs.

Compared to Q4-2022, Asian individuals saw a 1.81% increase, Black/African American individuals saw a 39.72% increase, White individuals saw a 55.68% increase, and Other individuals saw a 38.77% decrease, whereas Hispanic/Latino individuals saw a 76.02% increase.

**Q3 2023 stats in the chart are affected by the "Invalid Combo: Basis for search/consent given", "Invalid Combo: Basis of Search", "Basis for Search is Invalid", and "Invalid Combo: consensual stop resulting in

Stops and Searches

search” error. 154 records in Administrative Searches category contained one or more of these errors. 16 records were included as these data allowed an assessment of the type of search. Of the 154, 138 records are not captured in this table as these data do not contain information that distinguish type of search.

***Q4 2023 stats in the chart are affected by the “Invalid Combo: Basis for search/consent given”, “Invalid Combo: Basis of Search”, “Basis for Search is Invalid”, and “Invalid Combo: consensual stop resulting in search” error. 134 records in Administrative Searches category contained one or more of these errors. 18 records were included as these data allowed an assessment of the type of search. Of the 134, 116 records are not captured in this table as these data do not contain information that distinguish type of search.

*Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 2359 hrs.

Compared to Q4-2022, Discretionary Searches for Asian individuals decreased by 44%, Black/African American individuals increased by 7.14%, Hispanic/Latino individuals increased by 90%, White individuals decreased by 35%, and Other individuals decreased by 80%.

**Q3 2023 stats in the chart are affected by the “Invalid Combo: Basis for search/consent given”, “Invalid Combo: Basis of Search”, “Basis for Search is Invalid”, and “Invalid Combo: consensual stop resulting in search” error. 153 records in Discretionary Searches category contained one or more of these errors. 14 records were included as these data allowed an assessment of the type of search. Of the 153,

Stops and Searches

129 records are not captured in this table as these data do not contain information that distinguish type of search.

***Q4 2023 stats in the chart are affected by the “Invalid Combo: Basis for search/consent given”, “Invalid Combo: Basis of Search”, “Basis for Search is Invalid”, and “Invalid Combo: consensual stop resulting in search” error. 131 records in Discretionary Searches category contained one or more of these errors. 15 records were included as these data allowed an assessment of the type of search. Of the 131, 116 records are not captured in this table as these data do not contain information that distinguish type of search.

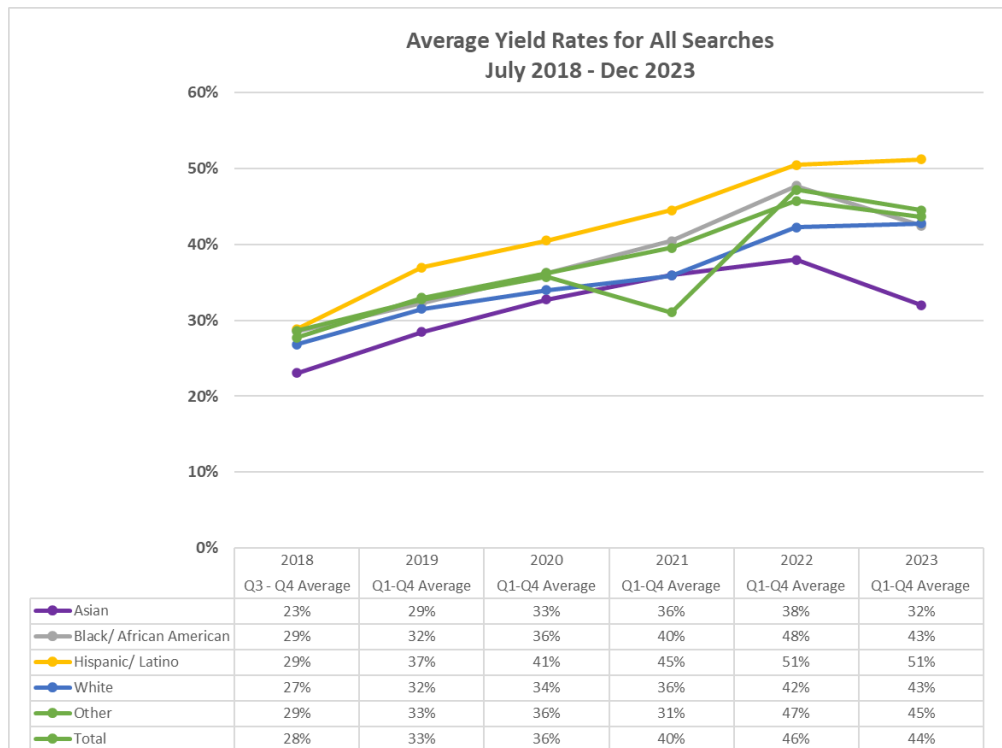

*Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs. **Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 2359 hrs.

Compared to Q4-2022, Asian individuals saw a 48% decrease, Black/African American individuals saw a 16% decrease, White individuals saw a 20% decrease, and Other individuals saw a 48% decrease, whereas Hispanic/Latino individuals saw a 15% increase.

**Q3 2023 stats in the chart are affected by the “Invalid Combo: Basis for search/consent given”, “Invalid Combo: Basis of Search”, “Basis for Search is Invalid”, and “Invalid Combo: consensual stop resulting in search” error. 149 records in Other Searches category contained one or more of these errors. 11 records were included as these data allowed an assessment of the type of search. Of the 149, 138 records are not captured in this table as these data do not contain information that distinguish type of search.

Stops and Searches

***Q4 2023 stats in the chart are affected by the “Invalid Combo: Basis for search/consent given”, “Invalid Combo: Basis of Search”, “Basis for Search is Invalid”, and “Invalid Combo: consensual stop resulting in search” error. 130 records in Other Searches category contained one or more of these errors. 14 records were included as these data allowed an assessment of the type of search. Of the 130, 116 records are not captured in this table as these data do not contain information that distinguish type of search.

Search yield rates have increased year over year since mid-2018, suggesting an increase in the use of objective factors in the decision to conduct searches that have some level of discretion. Objective factors are clearly defined and articulable behaviors an officer can observe to inform the decision to conduct a search. Including objective factors in training and/or policies is reflective of one of SFPD’s proposed solutions for reducing the influence of bias in decision-making surrounding stops and searches. However, in 2023, Black/African American, Asians and Other Individuals saw a slight decrease (4%, 5% and 2% respectfully).

The Search Yield Rate chart calculates the ratio of all searches where the search resulted in contraband or evidence being discovered.

The search portion of the chart is affected by the “Invalid Combo: Basis for search/consent given”, “Invalid Combo: Basis of Search”, “Basis for Search is Invalid”, and “Invalid Combo: consensual stop resulting in search” error.

Stops and Searches

***For Q3 2023 data, 163 records contained one or more of these errors. 40 records were included as these data allowed an assessment of whether a search occurred. Of the 163 records, 123 of them are not captured in this table, as these data could not be used to determine if a search occurred.*

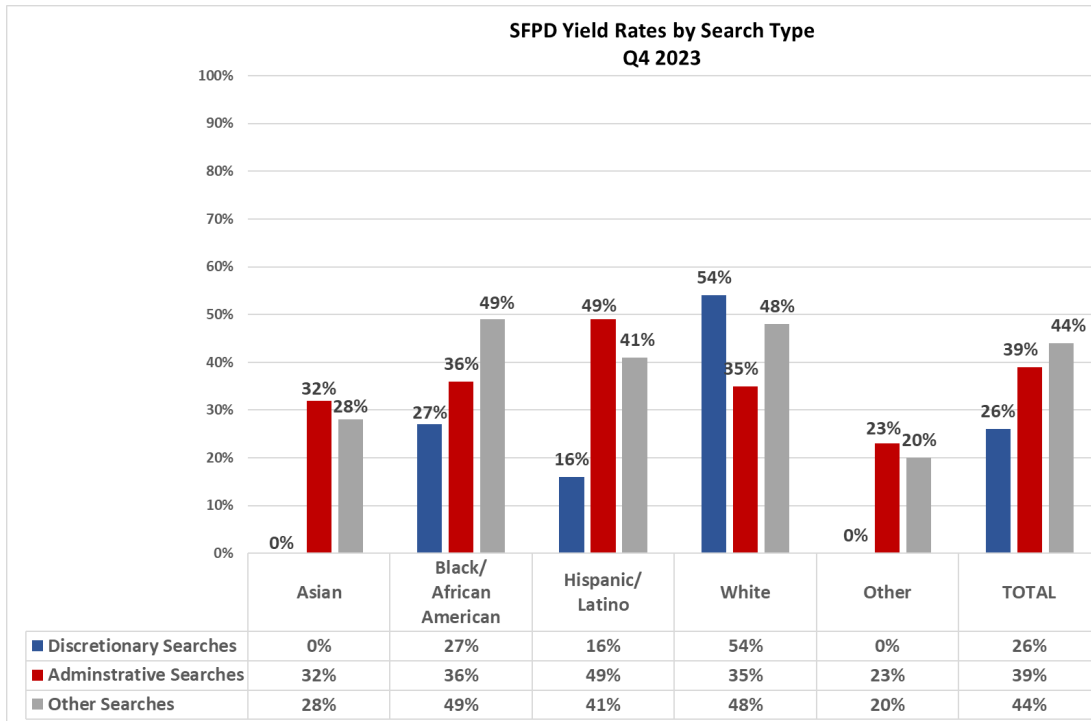

****For Q4 2023 data, 141 records contained one or more of these errors. 119 records were included as this data allowed an assessment of whether a search occurred. Of the 141 records, 21 records are not captured in this table, as this data could not be used to determine if a search occurred.*

The searches resulting in contraband or evidence discovered section is affected by "Invalid Combo: Contraband/evidence discovered" error.

***For Q3 2023 data, 112 records contained this error, and the records were included in the chart as these data allowed an assessment of whether a search resulted in contraband or evidence.*

****For Q4 2023 data, 121 records contained this error, and the records were included in the chart as these data allowed an assessment of whether a search resulted in contraband or evidence.*

Stops and Searches

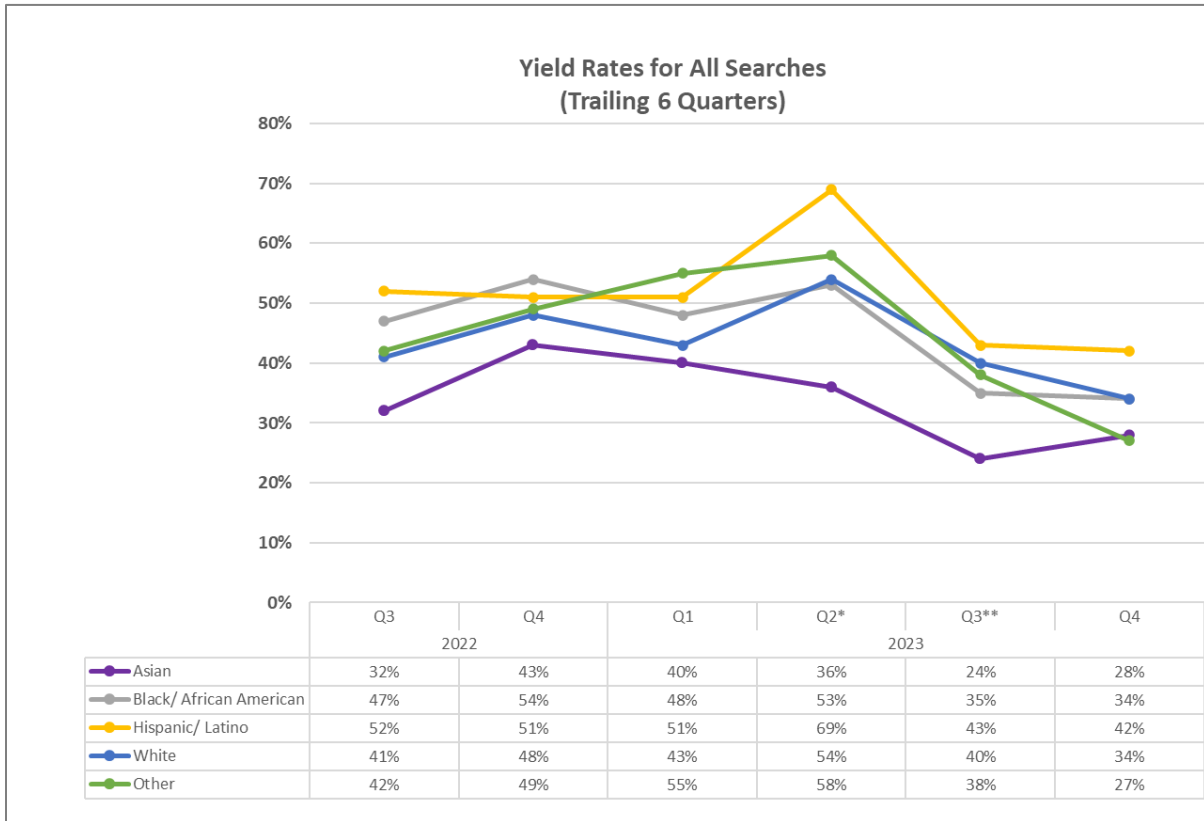

As noted in the Phase III SFPD Collaborative Reform Initiative report:

“The assumption among researchers is that if the rate of discovering contraband during searches of a particular identity group is low, then those people are “objectively less suspicious and may be searched, at least in part, because of their perceived identity.”

<https://oag.ca.gov/sites/all/files/agweb/pdfs/ripa/ripa-board-report-2021.pdf> AT PAGE 48.

In turn, if the hit/yield rate for a particular identity group increases, that means that officers are using more objective factors – and not a person’s perceived identity – to make the decision to search a person. In short, higher hit/yield rates suggest that officers are less likely making a biased decision to search but are rather using objective factors to inform their decision-making.²”

Stops and Searches

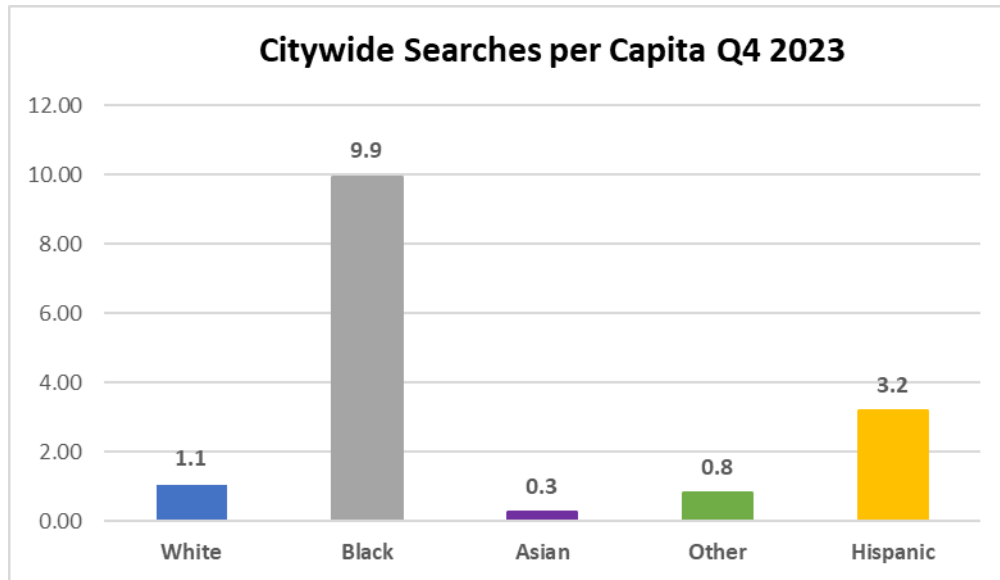

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contains the stats for the period of April 1 through June 28, 2359hrs.*

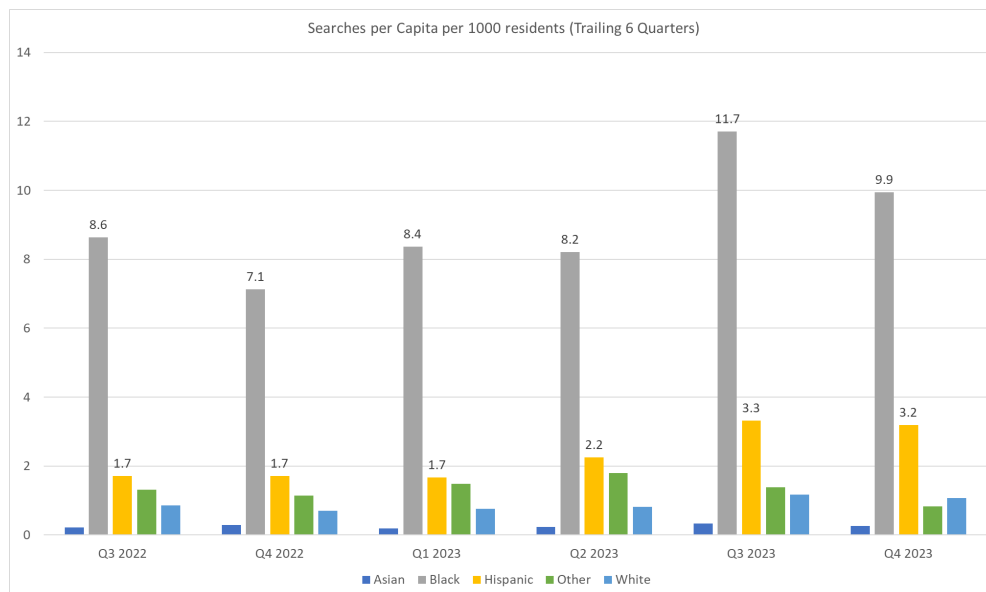

***Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 23:59 hrs.*

As compared to Q4 2022, the yield rate for all searches decreased in Quarter 4 of 2023 for all demographic groups.

Stops and Searches

Citywide search data shows in Quarter 4 of 2023, per 1000 Black/African American residents of San Francisco, roughly 10 searches of Black/African American individuals may occur. For every 1000 White residents, roughly 1 search of a white individual per 1000 white residents occurs.

Citywide search data shows that from Q3 2022 through Q4 2023, Black/African American individuals on average may be searched 8.99 times per 1000 Black/African American residents.

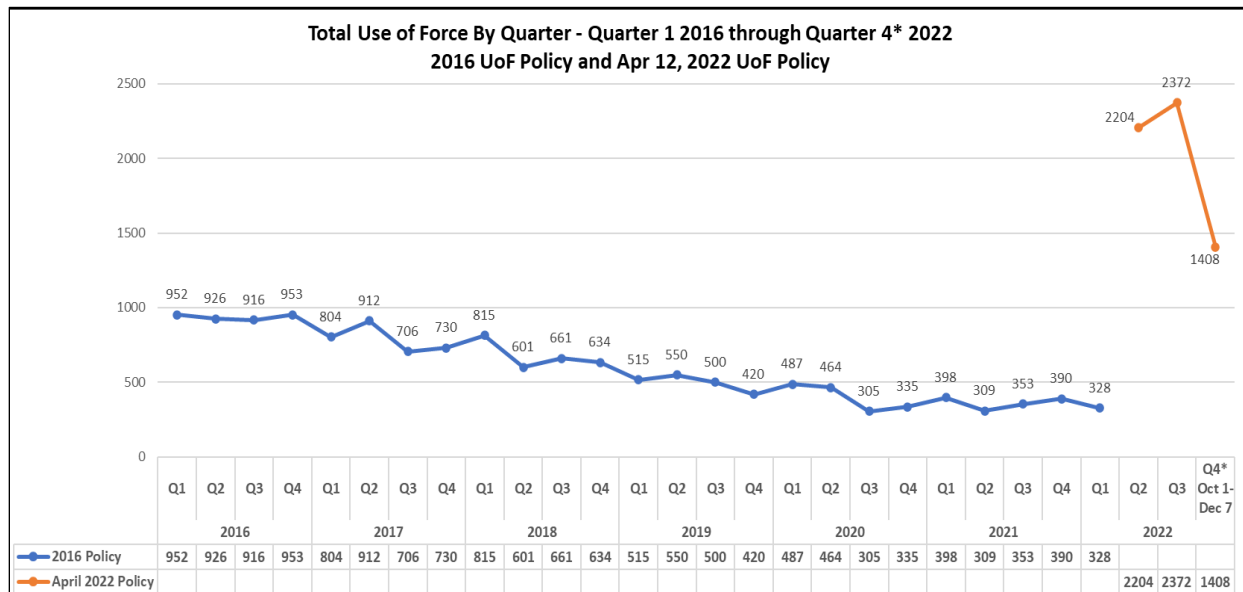

Stops and Searches

Since Quarter 3 of 2022, individuals searched are listed as Black/African American individuals 9.3-11.0 times more often than white individuals, when comparing to the population per 1000 residents of each.

Use of Force

Use Of Force – Historical 2016-2022

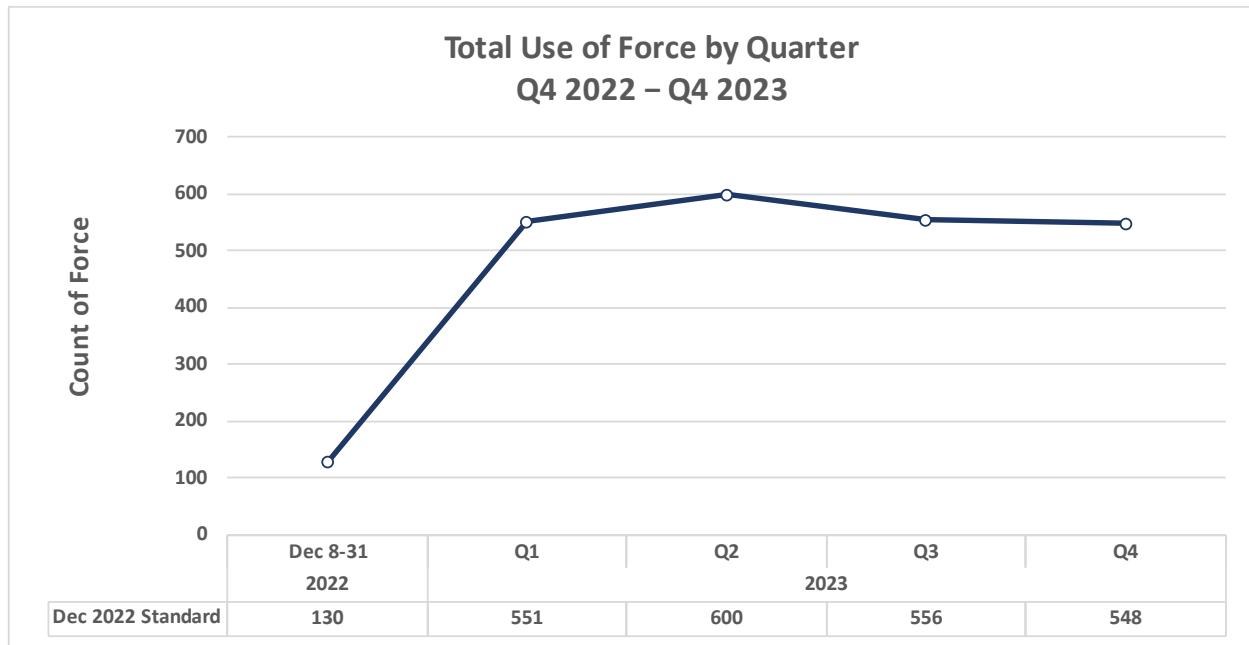

Unless otherwise noted, the term “total uses of force” refers to the number of times force is applied by an officer against an individual to compel compliance.

Changes to the Use of Force Department General Order and associated data collection is discussed in the data exploration section of previous QADR reports, and should be kept in mind when interpreting these data.

Use of Force

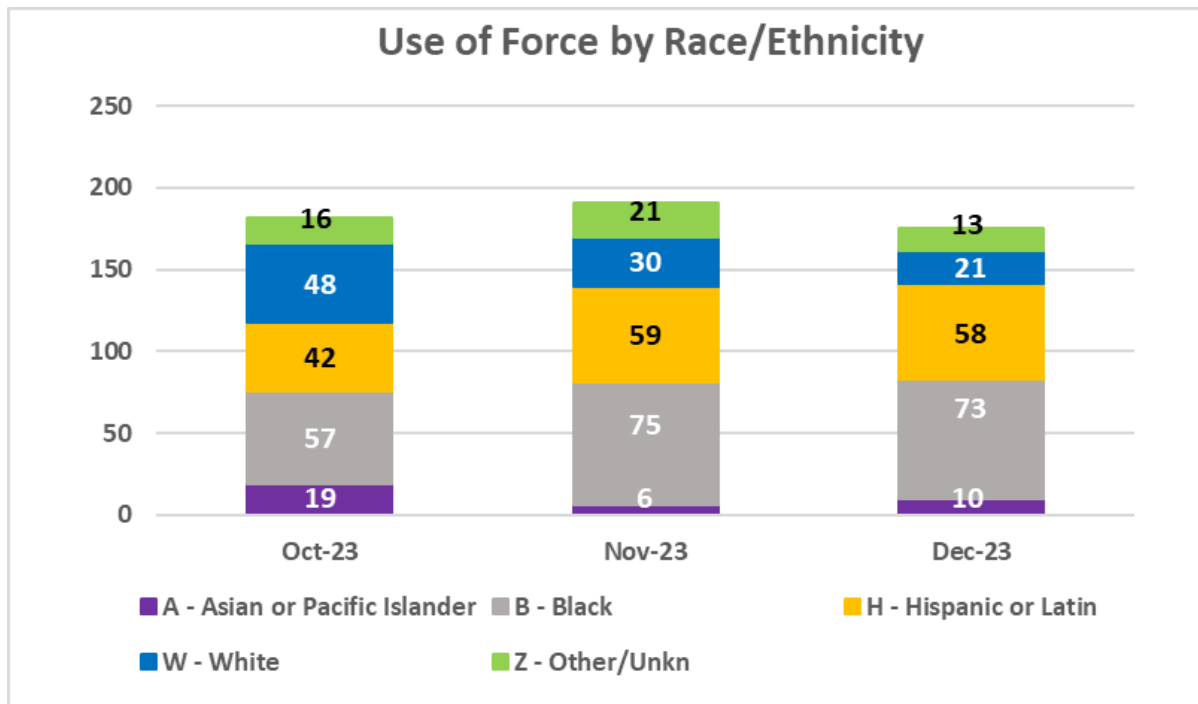

Use of Force – Current Use of Force Policy

During Quarter 4 of 2023, the Department responded to 158,842 total calls for service. Officers were assaulted 60 times and force was used in 252 incidents which represented 0.16% of all calls for service. Of those 252 incidents, force was used 556 times by 307 officers against 290 individuals.

There was one Use of Force incident that resulted in death during Quarter 4 of 2023.

Use of Force

Race/Ethnicity of Individuals Subject to a Use of Force, Q4 2023

Race/Ethnicity	Oct-23	Nov-23	Dec-23
Asian	10.4%	3.1%	5.7%
Black/African American	31.3%	39.3%	41.7%
Hispanic/Latino	23.1%	30.9%	33.1%
White	26.4%	15.7%	12.0%
Other	8.8%	11.0%	7.4%

Per the most recent 2022 December Use of Force policy, during Q4 of 2023, White individuals represented 18% of total number of individuals subject to uses of force. This rate is 37% for Black/African American individuals, 29% for Hispanic/Latino individuals, and 6% for Asian individuals.

Use of Force

Types Of Force Used – Q4 2023

Under the December 2022 use of force policy, Physical Control Hold/Take Down and Firearm Pointing were the top two types of force used and accounted for 82% of total Uses of Force during Q4 2023.

Use of Force by Type of Force Description December 2022 UoF Policy Standard	
Type of Force Description	Q4 2023
Chemical Agent	9
ERIW	8
ERIW 40mm	11
Firearm OIS	1
Firearm Pointing	201
Impact Weapon	3
Other	16
Physical Control Hold/Take Down	246
Strike by Obj. (personal body weapon)/Fist	33
Vehicle Intervention	20
Grand Total	548

Use of Force

Citywide Use of Force data shows in Quarter 4 of 2023, 4.8 Black individuals per 1000 Black/African American residents of San Francisco may be subject to a use of force, as compared to 0.3 per 1000 White residents.

Under the current Use of Force policy, in Q4 2023, individuals receiving force are listed as Black/African American individuals 16.5 times more often than White individuals, when comparing to the population per 1000 residents of each.

USE OF FORCE RESULTING IN DEATH

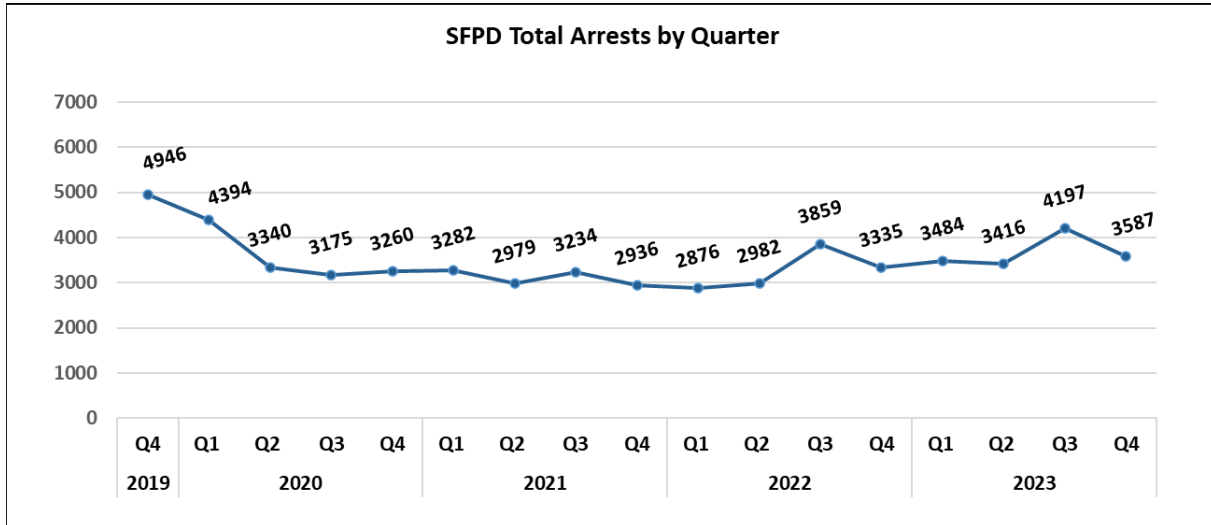

There was one Use of Force incident that resulted in death during Quarter 4 of 2023.

On Monday, October 9, 2023, at approximately 3:09 p.m. San Francisco Police Officers responded to the area of Geary Boulevard. and Laguna Street on a report of a vehicle that crashed into a building.

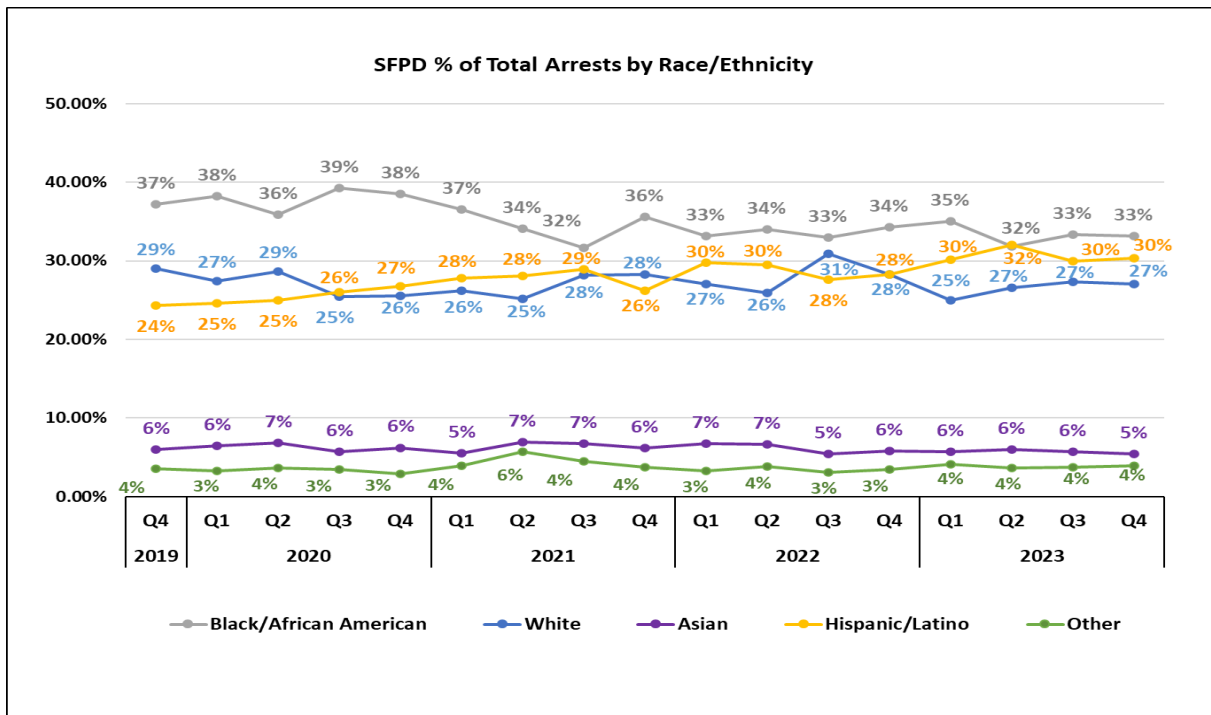

When officers arrived on scene, they found that the vehicle had come to rest in the lobby of the Chinese Consulate. An officer contacted the suspect and an officer involved shooting occurred. Officers rendered aid and summoned paramedics to the scene. Paramedics with the San Francisco Fire Department responded to the scene and transported the suspect to a local hospital with life threatening injuries. Despite lifesaving efforts of officers, paramedics, and hospital staff, the suspect was pronounced deceased at the hospital.

Arrests

Total Arrests by Quarter – 2019-2023

There were 3,587 arrests during Quarter 4 of 2023, almost an 8% increase from Q4-2022 (3,335). Black/African American individuals accounted for 33% of all arrests.³

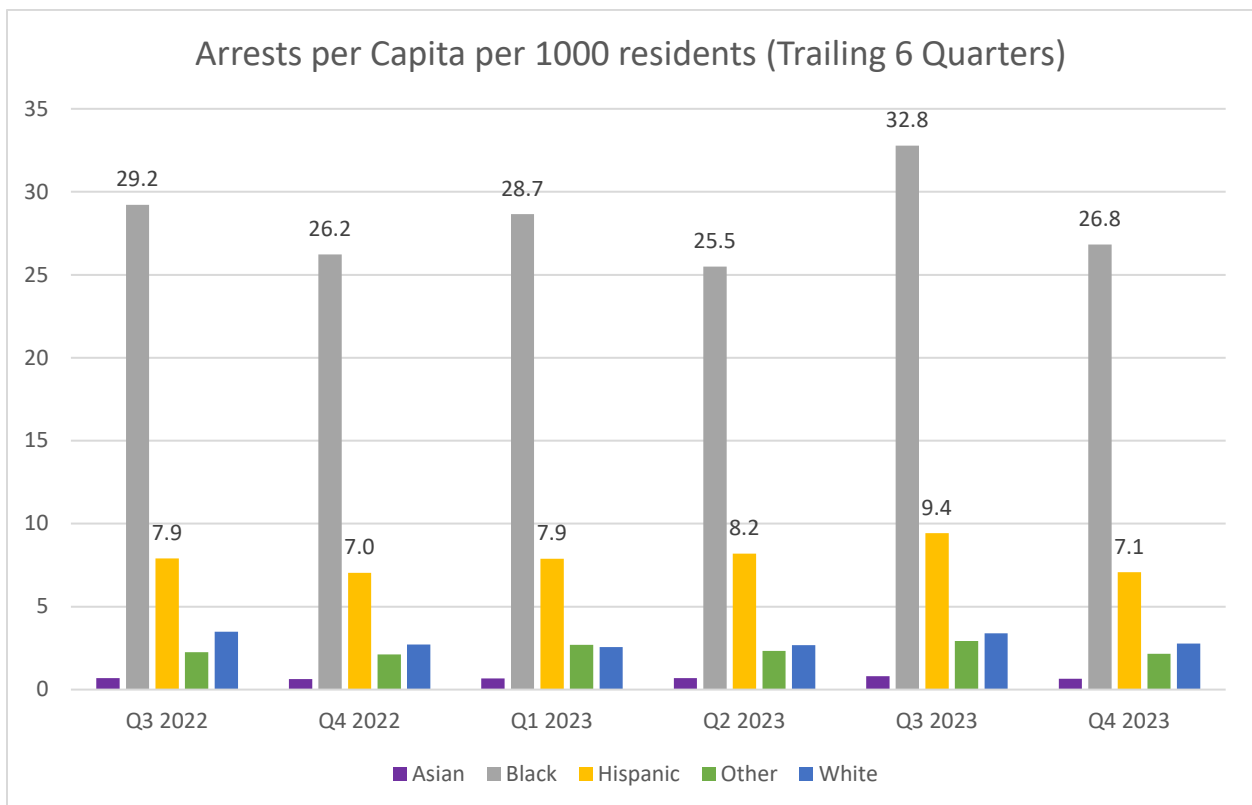

³ Arrests made by Department members at San Francisco International Airport are reported in San Mateo County data and are not included in these data.

Arrests

Percentage of Total Arrests			
Race/ Ethnicity	Q4-2022 (n=3,335)	Q4-2023 (n=3,587)	%Δ from 2022
Asian	6%	5%	-1%
Black/ African American	34%	33%	-1%
Hispanic/Latino	28%	30%	2%
White	28%	27%	-1%
Unknown	3%	4%	1%

Overall arrests of Hispanic/Latino individuals increased by approximately 2% in Quarter 4 of 2023 compared to Quarter 4 of 2022.

Note: Detailed data regarding age groups and gender can be found later in this report.

Citywide arrest data shows that from Quarter 3 of 2022 through Quarter 4 of 2023, on average 28.1 Black/African American individuals may be arrested per 1000 Black/African American residents.

Arrests

Arrests By District

It is important to note that arrests made by Department members at San Francisco International Airport are reported as part of San Mateo County data and are not included in the City's totals.

The "Outside SF/Other" category includes arrests made by Department members outside of the City and County of San Francisco as well as some arrests made inside the City and County of San Francisco by agencies other than SFPD that are captured by our Incident Reporting system.

Arrests made by Department members within the City and County of San Francisco jurisdiction increased in Quarter 4 of 2023 compared to Quarter 4 of 2022 by 8%.

Arrests By District, Q4 2022 vs Q4 2023			
District	Q4 2022	Q4 2023	% change
Co. A - Central	428	439	3%
Co. B - Southern	503	476	-5%
Co. C - Bayview	269	255	-5%
Co. D - Mission	420	537	28%
Co. E - Northern	324	354	9%
Co. F - Park	77	75	-3%
Co. G - Richmond	128	111	-13%
Co. H - Ingleside	262	243	-7%
Co. I - Taraval	137	155	13%
Co. J - Tenderloin	718	899	25%
Outside SF	69	43	-38%
Total	3,335	3,587	8%

Bias-Related Complaints

DEPARTMENT OF POLICE ACCOUNTABILITY

The Department is required to obtain information from the Department of Police Accountability (DPA) regarding the total number of complaints received during the reporting period that it characterizes as allegations of bias based on race or ethnicity, gender, or gender identity. The Department also is required to include in its report the total number of complaints DPA closed during the reporting period that were characterized as allegations of bias based on race or ethnicity, gender, or gender identity, as well as the total number of each type of disposition for such complaints.

Cases Received in Q4-2023

Type of Case Received	# of Cases
Racial Bias	3
Gender Bias	1
Transphobic Bias	0
Both Racial and Gender Bias	0
TOTAL	4

DPA received 737 total cases for the quarter.

7 Officer(s) were named for allegations of racial or gender bias.

Total Cases received in 2023 involving Racial or Gender Bias: 10 Case(s)

During Quarter 4 of 2023, DPA completed 1 complaint investigation case in which there was an allegation of racial or gender bias. There were no sustained allegations of racial or gender bias in Quarter 4 of 2023.

Q4-2023 Case Closures & Dispositions

Population Benchmark Analysis, Per Capita Race/Ethnicity

The San Francisco Police Department received requests from various key community stakeholders to present a per capita population benchmark analysis. This analysis captures a particular race or ethnicity, as compared to their representation in a similar population of 1000 individuals. We adjust for population in our analysis by the race/ethnic demographic groups in our data. This analysis compares this report's quarter and all quarters with data available. A disparity analysis- the contrast between different race/ethnicity groups against each other- is also considered to generate a numerical comparison. This analysis may surface potential racial disparities when comparing policing activities with the various demographic groups. In all cases, a population benchmark analysis that presents per capita results will have challenges, as noted below.

What is a benchmark?

A benchmark is a common frame of reference, created by comparing at least two sets of data to each other, to consider trends and context presented in the data. In this analysis, we compare citywide population demographics against pre and post stop activities by SFPD, and then convert those contact ratios into a Per Capita (or by 1000) number.

Population Benchmark Weaknesses

As noted by the California Department of Justice in their RIPA 2021 report, "An assumption of this type of comparison is that the distribution of who is stopped would be similar to who resides within a comparable geographic region. However, this is not always the case, as people may travel a considerable distance from where they live for several reasons (e.g., to go to work, visit family).⁴" The supposition that the comparison of police data should reflect the residential population makeup makes several assumptions that are not addressed in this analysis, and may result in inaccurate results of the comparative disparities noted in the analysis.

Comparing against residential population does not account for individuals who travel outside their home residential district or zip code in the residential population count, potentially causing over or under representation in the data⁵.

It should be noted that SFPD categorizes residential population demographics differently than other agencies. For instance, the Census American Community Survey (ACS) and

⁴ [2021 RIPA Board Report - Racial and Identity Profiling Advisory \(RIPA\) Board \(ca.gov\)](#) Pp46

⁵ <https://oag.ca.gov/sites/all/files/agweb/pdfs/ripa/ripa-board-report-2020.pdf> pp26-27

Q4 Quantitative Analysis

Per Capita Population Benchmark

Racial and Identity Profiling Act (RIPA) have different data standards. When the RIPA board data is used, it is perceived demographic data being compared to self-reported demographics in the residential population data.

Further, “Population counts generally overestimate bias in stop decisions, as differences in poverty, education, and labor market opportunities vary across identity groups in the U.S. Because education and employment affect criminal behavior, disparities along these dimensions will lead to disparities in who commits crime. In this way, pre-existing social disparities will tend to make the fraction of Black or Latinx people in the population smaller than the fraction of Black or Latinx people who are potentially subject to being stopped, overestimating any bias in a stop decision.”⁶

Despite these known limitations in working with population data within a benchmark, it does not mean analysis using a population benchmark is invalid. These limitations should, however, be kept in mind when interpreting results of any population benchmark. Results of population benchmarks can inform future analysis’ and provide insight into potential disparities, trends, and differences between geographic areas, such as SFPD districts.

For further reading, a deeper analysis of the challenges around per capita population benchmarking is discussed in the 2019 paper “Methodological Challenges and Opportunities in Testing for Racial Discrimination in Policing”⁷ by Roland Niel and Christopher Winship.

Population Benchmark Strengths

A key benefit in using a population data benchmark is the intuitive ease of understanding as compared to other benchmarks. Other benchmarking techniques can utilize univariate or multivariate statistical analysis that can be hard to explain succinctly and can quickly become overwhelming.

What did SFPD do?

SFPD took a citywide demographic dataset from the 2016-2021 American Community Survey (ACS), administered by the US Census Bureau. Starting in the first quarter of 2023, all datasets are calculated against corresponding population demographics, which are based on 5-year ACS estimates (2016 ACS for 2016 dataset, 2017 ACS for 2017 dataset,

⁶ <https://www.capolicylab.org/wp-content/uploads/2020/10/RIPA-in-the-LAPD-Summary-Report.pdf> pp12-13

⁷ [Methodological Challenges and Opportunities in Testing for Racial Discrimination in Policing | Annual Reviews](#)

Q4 Quantitative Analysis

Per Capita Population Benchmark

etc.), except for 2020 dataset which is based on 2020 Census. 2021 data onward uses 2021 ACS population data. 2022 ACS will be released in December 2023.

Race/Ethnicity groupings are then consolidated to match current Department systems, with Asian and Native Hawaiian/Pacific Islander groups combined into the Asian group, and two or more races, some other race alone and American Indian/Alaska Native combined into the Other grouping. The demographic representation in various data and generated per capita (per 1000 residents) along with a table and graph for each datapoint. Data used for comparison to the population benchmark and per capita calculation was gathered during the covered period of this report.

All available data was used for the historical per capita analysis, reaching back to either 2016 or the second half of 2018, depending on the availability of data. All available prior year data was compared with overall trends per capita against types of SFPD activity, by demographic group. In cases where policy standards have changed over time (namely with the Use of Force policy), comparisons are done within policy spaces. That is, use of force data from one policy is only compared against itself. Finally, we conducted a disparity analysis by comparing per capita demographic data for certain groups against each other to evaluate the size of a disparity as compared to a disparity baseline.

Specific Methodology Notes

In addition to the general challenges of a population benchmark, noted above, SFPD would like to highlight the additional methodological notes for clarity and context.

- Census⁸/ACS data considers “Hispanic” as an ethnicity, while the suspect, stops, searches, uses of force, and arrest data considers “Hispanic” as a race.
- Suspects per District: Crime Data Warehouse was searched for persons categorized as “Suspects” on police incident reports. Suspect demographic information may be developed from calls for service, or it may be developed at a subsequent point during investigation of an incident. All police incident reports (initial or supplemental) having a data value are included. Suspects with unknown race values are not included. While some suspects are subsequently arrested, and also

⁸ SFPD discovered a calculation error in Q4, 2021 when tabulating census data. The error and corrected tables are included in the Q4, 2021 QADR.

Q4 Quantitative Analysis

Per Capita Population Benchmark

listed as “booked” or “cited” on police incident reports, this category is not intended to include arrestees.

- Stops information provided reflects entries into the Benchmark Stop Data System, a data collection tool provided to comply with AB953 and the RIPA Board’s data collection requirements.
- Searches information provided reflects entries into Benchmark, with the same caveats as above.
- Uses of Force information provided reflects entries into the Department use-of-force Database and account for a distinct count of uses of force broken down by District and race of subject force was used against.
- Arrests count persons “booked” and “cited” where an incident report (initial or supplemental) had a date value.

Historical Per Capita Interactions

Using the previously mentioned methodologies, the following trends are noted. Per capita interactions for the current and more recent quarters can be found in the type of interactions section within the QADR.

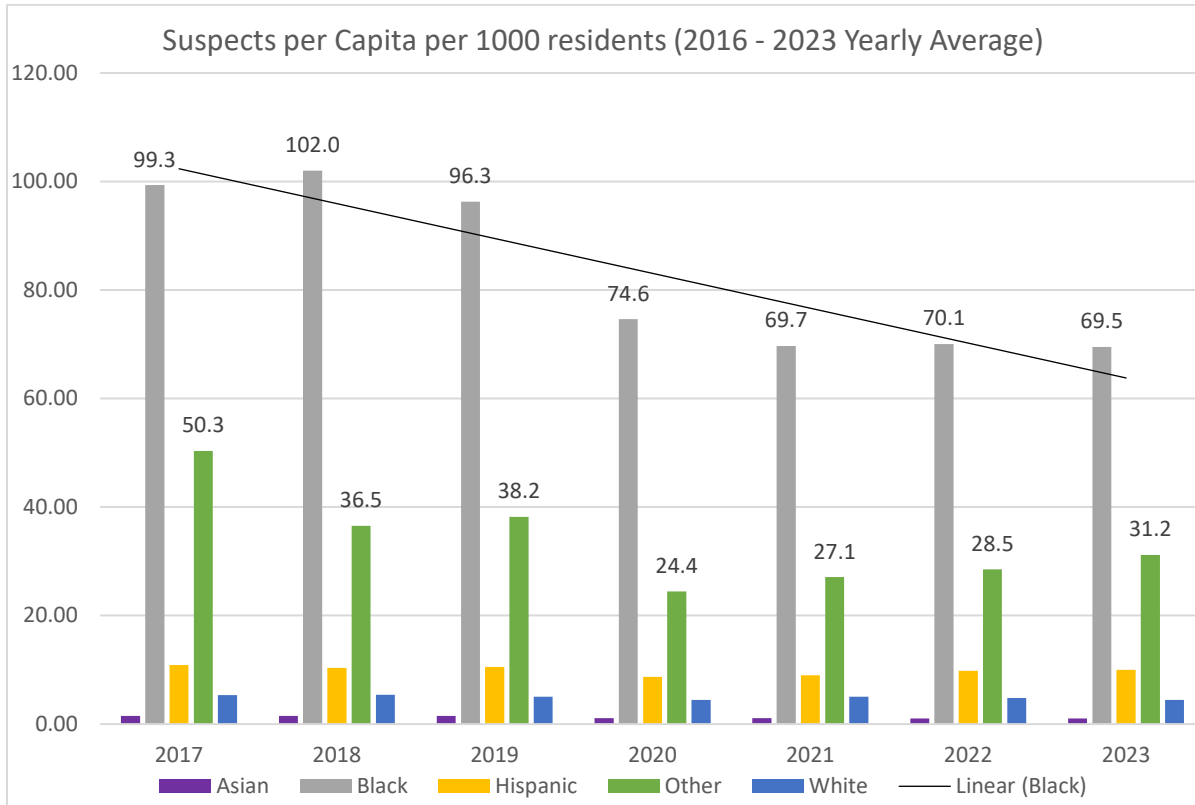

Per capita analysis for Use of Force data is presented per use of force standard to allow for an apples-to-apples comparison within each standard.

Q4 Quantitative Analysis

Per Capita Population Benchmark

Annual Per Capita Interactions by Race

Analysis was conducted using the above methodology across all quarters from which we have useful data. In this case, starting in Q1, 2017 for Arrests, Uses of Force and Suspect data, and 2018 for Stops and Searches. We found the following trends. Note: Data labels and trend lines for the most impacted group(s) are included for context and clarity.

Citywide suspect data since 2017 shows that Black/African American individuals have been reported as suspects of crimes significantly higher than other demographic categories. On average, however, there has been a decline over time of the per capita inclusion of Black/African American residents within suspect reporting.

A linear trendline is produced for the most impacted group. Slopes for all trendlines are included in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter.

In this case the number of Black/African American individuals included in suspect data goes down 6.425, per 1000 Black/African American residents, per year, on average, over time.

Race	Slope
Black	-6.425
Asian	-0.096
Hispanic	-0.186
White	-0.136
Other	-3.023

Q4 Quantitative Analysis

Per Capita Population Benchmark

Citywide stops data since mid-2018 shows that Black/African American individuals have been stopped by SFPD at significantly higher rates per capita than other demographic categories. There has been a significant decline over time, on average, of the per capita number of Black/African American stopped in a vehicle or pedestrian stop since mid-2018.

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in tops data goes down 30.106, per 1000 Black/African American residents, per year, on average, over time.

Race	Slope
Black	-30.106
Asian	-2.137
Hispanic	-6.896
White	-5.257
Other	-11.181

Q4 Quantitative Analysis

Per Capita Population Benchmark

Citywide search data since mid-2018 shows that Black/African American individuals have been searched in connection with an interaction with SFPD at rates higher than other demographic categories. There has been a significant decline over time, on average, of the per capita number of Black/African Americans searched since mid-2018.

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in search data goes down 8.181, per 1000 Black/African American residents, per year, on average, over time.

Rate of Decrease, Searches Per Capita	
Race	Slope
Black	-8.181
Asian	-0.186
Hispanic	-1.326
White	-0.683
Other	-0.664

Q4 Quantitative Analysis

Per Capita Population Benchmark

Citywide use of force data since 2016 shows that Black/African American individuals have been subject to a use of force at significantly higher rates as compared to other demographic categories. There has been a decline over time, on average, of the per capita number of Black/African Americans upon whom use of force has been used since 2016.

Rate of Decrease, UoF Per Capita	
Race	Slope
Black	-0.722
Asian	-0.016
Hispanic	-0.103
White	-0.044
Other	-0.042

A linear trendline is produced for the most impacted group.

Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in UoF is at -0.722, per 1000 Black/African American residents, per year, on average, over time.

Q4 Quantitative Analysis

Per Capita Population Benchmark

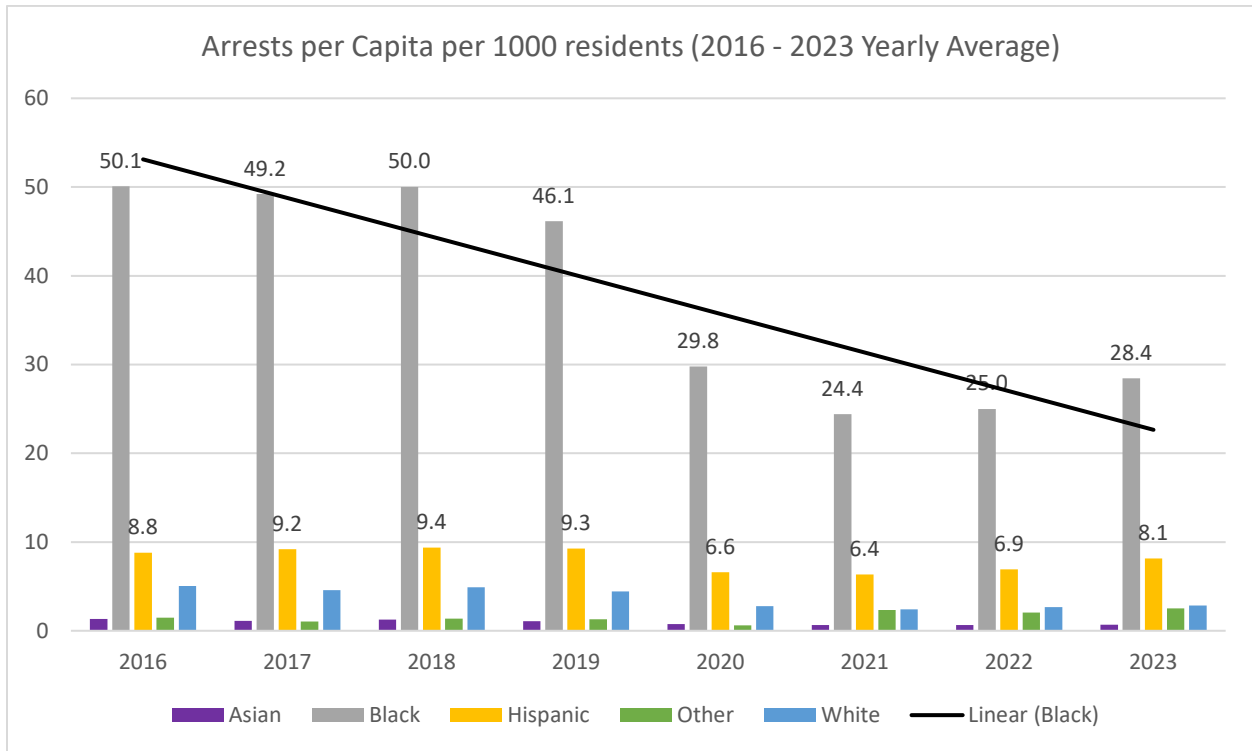

Due to the changes in the Use of Force policy, the 2016 UoF policy data is used to provide context over time, above. A separate calculation for per capita use of force is included using only the April 2022 UoF policy standard, below.

Data collected under the April 2022 Use of Force policy shows that Black/African American individuals may be subject to a use of force 16.5 times per 1000 Black/African American residents.

Q4 Quantitative Analysis

Per Capita Population Benchmark

Citywide arrest data since 2016 shows that Black/African American individuals have arrested at higher rates as compared to other demographic categories. There has been a modest decline over time, on average, of the per capita number of Black/African Americans arrested since 2016.

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in Arrest data goes down 4.35, per 1000 Black/African American residents, per year, on average, over time.

Rate of Decrease, Arrests Per Capita	
Race	Slope
Black	-4.353
Asian	-0.105
Hispanic	-0.328
White	-0.404
Other	-0.174

Q4 Quantitative Analysis

Per Capita Population Benchmark

Yearly Per Capita Disparity Analysis

We further conduct a disparity analysis by baselining the three most represented demographics against each other to find a numerical representation of the disparity between groups, per SFPD interaction, per year. As with the other per capita analysis, Black/African American residents of San Francisco have higher rates of disparity in the data as compared to the White and Hispanic demographic groups. Please note that due to the changes in the Use of Force policy, the 2016 Use of Force policy data is used to provide context over time.

Citywide suspect data since 2016 shows that suspects are listed as Black/African American individuals 13.9-19.0 times more often than white individuals, when comparing to the population per 1000 residents of each.

Q4 Quantitative Analysis

Per Capita Population Benchmark

Citywide vehicle and pedestrian stop data from mid-2018 through 2023 shows that individuals stopped are listed as Black/African American individuals 5.6-6.4 times more often than White individuals, when comparing to the population per 1000 residents of each.

Citywide search data shows that from mid-2018 through 2023 individuals searched are listed as Black/African American individuals 9.2 to 11.6 times more often than White individuals, when comparing to the population per 1000 residents of each.

Q4 Quantitative Analysis

Per Capita Population Benchmark

Citywide Use of Force data shows that from Q1 2022 - Q4 2022 (through Dec 7), under the 2016 Policy, individuals receiving force are listed as Black/African American individuals 9-25 times more often than White individuals, when comparing to the population per 1000 residents of each.

Citywide Use of Force data shows that from Q4 2022 (beginning Dec 8) – Q3 2024, under the December 2022 Policy, individuals receiving force are listed as Black/African American individuals 12-21 times more often than White individuals, when comparing to the population per 1000 residents of each.

Q4 Quantitative Analysis

Per Capita Population Benchmark

Citywide arrest data shows that from 2016 through 2023, arrested individuals are listed as Black/African American individuals 9.4-10.7 times more often than White individuals, when comparing to the population per 1000 residents of each.

What did we find?

We found that Black/African American individuals are more often involved in various SFPD interactions than their representation in the population, especially when compared to White residents. In some forms of contact between the Department and individuals, this involvement has been decreasing over time. These findings provide context around who is involved with SFPD at various points of engagement but do not answer the question of 'why' this is the case.

It is possible that some or all factors discussed in the benchmark description section above are affecting the data in some way. The context provided gives us a common frame for conversation, mutual understanding, and a starting point from which additional analysis may occur.

Q4 Quantitative Analysis

Per Capita Population Benchmark

What's next?

The Department looks forward to continuing the analysis of data on a quarterly basis. However, it should be noted that SFPD will need to build out analytical capacity to carry out some of this work, and timeline expectations will be shared and updated with the publishing of each quarterly report.

SFPD has also partnered with multiple academic entities to assist in academic level analyses of SFPD data, including:

- The California Policy Lab at UC Berkeley and UC Los Angeles,
- Stanford's SPARQ center,
- Palo Alto University, and
- The Center for Policing Equity
- New York University
- Northwestern University

Domestic Violence Reporting

- Admin Code Sec. 96D.2b

Domestic Violence Reporting - Background

In November 2021, the Board of Supervisors approved, and Mayor Breed signed, legislation amending the San Francisco Administrative Code to require certain data involving Domestic Violence be reported on a quarterly basis starting in the first quarter of 2022. The report is to be submitted on a quarterly basis to the Board of Supervisors, the Mayor, Office of Racial Equity, the Human Rights Commission, the Department on the Status of Women, and the Police Commission.

Domestic Violence Calls for Service and Investigations

Domestic Violence, also known as Intimate Partner Violence, is abbreviated as DV for brevity in this report. For the purposes of this report, Admin Code 96D defines Domestic Violence as: *"Domestic Violence" means the crime defined in Section 273.5 and the crimes punishable under Section 243 (e){1}, of the California Penal Code.*

SFPD responds to calls for service (CFS) received by the Department of Emergency Management (DEM) whether as a 911 emergency or through the non-emergency line. After gathering information from the caller, DEM staff has the responsibility of determining the appropriate code for the call, based on the information provided, and to dispatch units to the location as either a Priority A (highest), Priority B, or Priority C.

Upon arrival, SFPD officers conducted a thorough investigation into the allegations of domestic violence. Per SFPD policy, calls for service are coded with a final disposition of domestic violence (DV) in cases in which DV is evident during an officer's investigation.

In some cases, a report may be taken without a call to 911 (self-reporting at a police station, for example.) In these cases, a call for service number is generated during the report writing process.

This is a quarterly data report from 1 October 2023 through 31 December 2023.

Domestic Violence Reporting - Admin Code Sec. 96D.2b

Admin Code Sec. 96D.2b Reporting Components

1(A) The number of calls for service for domestic violence that the Police Department received from the Department of Emergency Management for the period of October 1 to December 31, 2023.

Calls for Service, Final Call Code Includes "DV" October 1 - December 31, 2023				
	2023			
	Oct	Nov	Dec	Total
DV Calls for Service	553	477	529	1559

1(B) The number of domestic violence cases that the Police Department presented to the District Attorney for investigation and/or prosecution in the prior quarter, and of those cases, the number in which a child or children were present and/or a firearm or firearms were present.

DV INCIDENTS SUBMITTED TO THE DISTRICT ATTORNEY'S OFFICE			
	2023		
	Oct	Nov	Dec
Number of DV Cases Presented to the District Attorney's Office	62	82	82
Number of DV cases referred to the DA in which a child was present	7	8	5
Number of DV cases referred to the DA in which a firearm was present	0	1	0

Confiscation of Weapons: Pursuant to Penal Code § 18250 and Department policy, officers are mandated to confiscate any firearms or other deadly weapons discovered at the scene of a domestic violence incident. The weapon is booked into the Department's Property Room as evidence. As federal and state laws prohibit individuals convicted of a domestic violence charge from owning or acquiring a weapon, the Property Room follows DOJ protocols, including criminal records' checks, to determine if the individual is eligible for release of the weapon.

Presence of Children: SFPD Department General Order 6.09 also outlines the procedures to follow if children are present during a domestic violence incident. DGO 7.04, Children of Arrested Parents, provides guidance to minimize the negative impact and harmful stressors on children when a parent/guardian is arrested whether in their presence or not. This policy is considered a national model, highlighting law enforcement's responsibility to ensure a safe environment for children following a traumatic experience such as the arrest of one's parent.

Data Note: Q3-Q4 2023 Stop Data

Stop data collected in Q3 and Q4 of 2023 are subject to technical problems in the collection process that have generated errors in the data. Of the datapoints that may contain erroneous data, the following charts/tables presented routinely in the QADR are affected by the data collection errors noted above. The errors only impact a small portion of the metrics and analysis carried out, and the data is still usable. Please refer to the caveats noted for affected tables and charts. As mentioned earlier, standalone Q3 tables and charts can be found in Appendix 3.

Stop Data Q4 2023

Stops, by Self-Initiated vs Dispatched

In Quarter 4 of 2023, there were a total of 5,280 stops, a 32% increase from Quarter 4 of 2022. Of those stops, 3,687 (70%) stops were self-initiated, and 1,593 (27%) stops were made in response to dispatched calls for service.

SFPD Total Stops, Self-Initiated vs Dispatched						
Type of Stop	2022		2023			
	Q3	Q4	Q1	Q2*	Q3**	Q4
Self-Initiated	2910	2857	2941	3638	4856	3687
Dispatched	1315	1142	1152	1116	1803	1593
Total	4225	3999	4093	4754	6659	5280

*Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.

**Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 1200hrs. through June 30, 2359hrs.

Stop Data Q4 2023

In Quarter 4 of 2023, from 5,280 total stops 1,335 (25%) resulted in searches. Of those searches, 761 (57%) were Self-Initiated Calls, and 574 (43%) were in response to Dispatched Calls for Service.

SFPD Total Searches, Self-Initiated vs Dispatched						
Type of Stop	2022		2023			
	Q3	Q4	Q1	Q2*	Q3**	Q4
Self-Initiated	399	382	456	543	882	761
Dispatched	621	533	514	542	630	574
Total	1020	915	970	1085	1512	1335

*Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.

**Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 1200hrs. through June 30, 2359hrs.

As of June 28, 2023, 1200 hours, the Department utilizes the Benchmark Stop Data System program definitions under AB953; a 'stop' is defined as **1)** any detention, as defined in regulations, by a peace officer of a person or **2)** any peace officer interaction with a person in which the officer conducts a search as defined in regulation.⁹ Stops include Traffic Stops and Pedestrian Detentions. Stops may be Self-Initiated or Dispatched.

Stop Data Q4 2023

Stops and Searches by Perceived Race/Ethnicity, By Self-Initiated (On-View) and Dispatched Calls for Service

In Q4 2023, out of 3,687 stops made in response to Self-Initiated Calls, White individuals accounted for 1,081 (29%) stops followed by Hispanic/Latino Individuals 994 (27%). Black/African American Individuals accounted for 921 (25%) stops.

*Due to Stop Data transitioning to a different reporting platform, Q2 2022 and Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.

**Due to a transition in reporting platforms, July – September 2023 data also includes data from June 28, 1200hrs. through June 30, 2359hrs.

Stop Data Q4 2023

In Q4 2023, out of 1,593 Stops made in response to Dispatched Calls for Service, White Individuals accounted for 496 (31%) stops and Black/African American individuals accounted for 450 (28%) stops. Hispanic/Latino individuals accounted for 406 (25%) stops.

*Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.

**Due to a transition in reporting platforms, July – September 2023 data also includes data from June 28, 1200hrs. through June 30, 2359hrs.

Stop Data Q4 2023

Searches, by Self- Initiated vs Dispatched

In Q4 2023, out of 761 Searches made in response to Self-Initiated Stops, Black/African American accounted for 247 (32%) searches followed by White individuals 189 (25%), and Hispanic/Latino individuals accounted for 279 (37%) searches.

*Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.

**Due to a transition in reporting platforms, July – September 2023 data also includes data from June 28, 1200hrs. through June 30, 2359hrs.

Stop Data Q4 2023

In Q4 2023, out of 574 Searches made in response to Dispatched Calls for Service, Black/African American individuals accounted for 177 (31%) searches followed by Hispanic/Latino individuals 146 (25%), and White individuals accounted for (30%) searches.

*Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.

**Due to a transition in reporting platforms, July – September 2023 data also includes data from June 28, 1200hrs. through June 30, 2359hrs.

Stop Data Q4 2023

Stops and Searches by Perceived Age

Individuals within the age group of 30-39 accounted for the most stops (32%) and the most searches (36%).

Total Stops by Perceived Age Category Q4 2023					
Perceived Age Category	Oct	Nov	Dec	Q4 2023 Total	% of Stops
Under 18	84	67	46	197	4%

Stop Data Q4 2023

Search Yield Rate

There were 1,335 distinct searches in Quarter 4 of 2023. The total yield rate for all searches was 36%.

Yield rate was 27% for Other individuals, 34% for Black/African Americans, 42% for Hispanics/Latinos, 28% for Asian and 34% for White individuals in Quarter 4 of 2023.

**Due to Stop Data transitioning to a different reporting platform, Q2 2023 data contain the stats for the period of April 1 through June 28, 1159hrs.*

***Due to a transition in reporting platforms, July - September 2023 data also includes data from June 28, 12:00 hrs. through June 30, 23:59 hrs.*

The Search Yield Rate chart calculates the ratio of all searches where the search resulted in contraband or evidence being discovered.

The search portion of the chart is affected by the "Invalid Combo: Basis for search/consent given", "Invalid Combo: Basis of Search", "Basis for Search is Invalid", and "Invalid Combo: consensual stop resulting in search" error.

Stop Data Q4 2023

****For Q3 2023, 161 records contained one or more of these errors. 40 records were included as these data allowed an assessment of whether a search occurred. Of the 161 records, 121 records are not captured in this table, as these data could not be used to determine if a search occurred.**

*****For Q4 2023, 141 records contained one or more of these errors. 119 records were included as these data allowed an assessment of whether a search occurred. Of the 141 records, 21 records are not captured in this table as these data could not be used to determine if a search occurred.**

The searches resulting in contraband or evidence discovered section is affected by “Invalid Combo: Contraband/evidence discovered” error.

****For Q3 2023, 112 records contained this error, and the records were included in the chart as these data allowed an assessment of whether a search resulted in contraband or evidence.**

*****For Q4 2023, 121 records contained this error, and the records were included in the chart as these data allowed an assessment of whether a search resulted in contraband or evidence.**

Stop Data Q4 2023

Search yield rates have increased year over year since mid-2018, suggesting an increase in the use of objective factors. However, in 2023, Black/African American Asian, and Other Individuals saw a slight decrease (4%, 5%, and 2% respectfully).

Result of Searches 2023 QUARTER 4

*** The Results of Searches Chart is affected by the "Invalid Combo: consensual stop resulting in search", and "Invalid Combo: Contraband/evidence discovered" error. 142 records contained one or more of these errors. 121 records were included as these data allowed an assessment of whether a search resulted in contraband or evidence. Of the 142, 21 records are not captured in this table as these data could not be used to determine if a search occurred.

*One stop during Quarter 4 of 2023 resulted in contact with the Department of Homeland Security or its subordinate organizations. The incident had occurred at the San Francisco International Airport where Department of Homeland Security/TSA was notified and responded as follows:

- On 10/20/23 (case #23-10-7707), an individual was trying to get into the security line without credentials. The individual said he was doing a test for TSA and showed SFPD a sticker, then advised that he had a concealed gun. TSA was contacted to confirm whether the detained subject's narrative. TSA and Prime Flight failed to notify SFPD that they were conducting a test. There was no violation of the Department General Order on Immigration Policy, and the DHS/TSA was notified as is the policy.

Calls for Service, Q4 2023

Calls for Service

The Department responded to 158,842 total calls for service from October 1 through December 31, 2023. Call volume was slightly increased during the month of October during Quarter 4 of 2023.

Calls for Service, Q4 2023

911 Calls assigned to SFPD have declined year over year since 2019.

Data Source: San Francisco Police Department Computer Aided Dispatch (CAD). Calls for Service data represent calls to the Department of Emergency Management (DEM) via the 911 system and assigned to SFPD.

Suspects, Q4 2023

SUSPECTS OBSERVED AND/OR REPORTED TO SAN FRANCISCO POLICE DEPARTMENT

Suspect information/description is either provided by a member of the public, reported directly to the police or through dispatch, or is observed by a Department member during a self-initiated call for service in which there is reasonable suspicion or probable cause for an officer to conduct a stop. The suspect information is documented in a police incident report that is generated from the call for service. Individuals are listed as “Other” when race information is not included in the category of “Asian/Pacific Islander”, “Black/African American”, “Hispanic/Latino”, “Native American” or “White.”

The following table summarizes suspect descriptions gathered from incident reports through the means stated above. Data captured shows approximately 37% of the individuals observed and/or reported are Black/African American.

Suspects by Race/Ethnicity					
October 1, 2023 - December 31, 2023					
DESCRIPTION	Oct	Nov	Dec	Q4 2023 Suspects	% of Total Suspects Q4 2023
Asian/ Pacific Islander	100	116	99	315	4.4%
Black/ African American	983	896	780	2659	36.8%
Hispanic/ Latino	494	398	481	1373	19.0%
Native American	9	3	8	20	0.3%
White	512	438	494	1444	20.0%
Others	501	448	464	1413	19.6%
Total	2,599	2,299	2,326	7,224	100.00%

Note: Suspect data is extracted from incident reports via the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = “Suspect.” Records with Unknown Race/Ethnicity data are not included.

Suspects, Q4 2023

Black/African American individuals have been the highest demographic of Suspects observed and/or reported for the last 6 quarters (Q3 2022 – Q4 2023). However, data captured in Q4 2023 (2,659) shows a decline by 11% of Suspects observed and/or reported as Black/African American when compared to Q4 2022 (2,993).

Note: Suspect data is extracted from incident reports via the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = “Suspect.” Records with Unknown Race/Ethnicity data are not included.

Use of Force, Q4 2023

Total Use of Force Overview January 1, 2016, through December 7, 2022

Changes to the Use of Force Department General Order and associated data collection is discussed in previously published QADRs and should be kept in mind when interpreting these data.

Where possible this report provides data for December 8, 2022, through December 31, 2022, and complete Q1 2023 data to account for December 2022 UoF policy change and allow for historical context and tracking of data not provided in QADR Report for Q4 2022.

Use of Force, Q4 2023

During Quarter 4 of 2023, the Department responded to 158,842 total calls for service. Department officers were assaulted 60 times and force was used in 252 incidents which represented 0.16% of all calls for service. Of those 252 incidents, force was used 556 times by 307 officers against 290 individuals.

Use of Force, Q4 2023

Overview by Subject Race/Ethnicity

During Quarter 4 of 2023, October 1 through December 31, 2023, 19% of the total Uses of Force were against White individuals, 37% were against Black/African American individual, 29% were against Hispanic/Latino individuals, and 6% were against Asians.

Individual Race	2022	2023			
	Dec 8-31	Q1	Q2	Q3	Q4
Asian	4	14	66	33	35

Impact Weapon	3
Other	16
Physical Control Hold/Take Down	246
Strike by Obj. (personal body weapon)/Fist	33
Vehicle Intervention	20
Grand Total	548

Use of Force, Q4 2023

A review of all reported uses of force during Quarter 4 of 2023 found no instances of officers discharging firearms at a moving vehicle, nor any instances where the carotid restraint was employed.

USE OF FORCE RESULTING IN DEATH

There was one Use of Force incident that resulted in death during Quarter 4 of 2023.

On Monday, October 9, 2023, at approximately 3:09 p.m. San Francisco Police Officers responded to the area of Geary Boulevard and Laguna Street on a report of a vehicle that crashed into a building.

When officers arrived on scene, they found that the vehicle had come to rest in the lobby of the Chinese Consulate. An officer contacted the suspect and an officer involved shooting occurred. Officers rendered aid and summoned paramedics to the scene. Paramedics with the San Francisco Fire Department responded to the scene and transported the suspect to a local hospital with life threatening injuries. Despite lifesaving efforts of officers, paramedics, and hospital staff, the suspect was pronounced deceased at the hospital.

Officers Assaulted, Q4 2023

Officers Assaulted by Quarter

In Quarter 4 of 2023, there were a total of 60 officers assaulted.

Use of Force, Q4 2023

Types of Force by Race/Ethnicity and Gender of Subject October 1 – December 31, 2023

During Quarter 4 of 2023, under the December 2022 Use of Force Policy, Uses of Force used against Hispanic Male individuals accounted for 27% uses of force, while 12% were against White Male individuals, and 31% against Black Male individuals.

Type of Force by Individual Race and Gender October 1 - December 31, 2023

Use of Force, Q4 2023

Uses of Force by Reason

October 1 – December 31, 2023

Per December 2022 Use of Force Standard, “To Effect a Lawful Arrest, Detention, or Search” was the most common reason for Use of Force in Quarter 4 of 2023.

UoF Reason of Force Description October 1 - December 31, 2023		
UoF Reason of Force	Total UoF Incidents	Total Count of Reason
Reason is to effect a lawful arrest, detention or search	248	1501
Reason is to overcome resistance or to prevent escape	201	1366
Reason is to prevent a person from injuring himself/herself, when the person also poses an imminent danger of death or serious bodily injury to another person or officer	13	71
Reason is to prevent the commission of a public offense	65	526
Reason of others or in self-defense	98	836
Reason to gain compliance with a lawful order	200	1270
Grand Total	252	5570

As noted in the data exploration section, the reason for use of force has gone from a single selection to a multiple select field. This can lead to more reasons for uses of force in data collected in Quarter 2 of 2022 onward than actual uses of force, as seen above.

Use of Force, Q4 2023

Uses of Force by Race/Ethnicity, Gender, and Age of Officer Q4-2023, October 1 – December 31, 2023

During Quarter 4 of 2023, using the December 2022 Use of Force policy, White male officers accounted for 251 (46%) of Uses of Force used, and Asian male officers accounted for 115 (21%) of Uses of Force used, and Hispanic male officers accounted for 103 (19%) as well.

Officers Using Force by Race and Gender October 1 - December 31, 2023			
Officer Race and Gender	Total Uses of Force	Officers Using Force	Department Demographic
